posttest questions contain rationales for the correct answer and are coded according to the phase of the nursing process used and the NCLEX category of client need called the Test Plan. The Test plan codes are PHYS Physiological Integrity, PSYC Psychosocial Integrity, SECE Safe Effective Care Environment and HPM Health Promotion and Maintenance. CD ROM For those who want to practice taking tests on a computer the CD ROM that accompanies the book contains the pretest and posttest questions found in all chapters of the book. In addition it contains 10 NEW questions for each chapter to help you further evaluate your knowledge base and hone your test taking skills. In several chapters one of the questions will have embedded art to use in answering the question. Some of the newly developed NCLEX test items are also designed in this way so these items will give you valuable practice with this type of question.

Companion Website CW The companion website is a virtual reference for virtually all your needs. The CW contains the following: 50 NCLEX style questions (10 pretest, 10 posttest, 10 CD ROM and 20 additional new questions), Definitions of key terms (the glossary is also stored on the companion website for ease of reference), In Depth With NCLEX features drawings or photos that are each accompanied by a one to two paragraph explanation. These are especially useful when describing something that is complex technical such as equipment or difficult to mentally visualize. Suggested Answers to Practice to Pass and Case Study Questions easily located on the website; these allow for timely feedback for those who answer chapter questions on the web. Nursing Notes Clinical Reference Card This laminated card provides a reference for frequently used facts and information related to the subject matter of the book. These are designed to be useful in the clinical setting when quick and easy access to information is so important.

ABOUT THE PATHOPHYSIOLOGY BOOK Chapters in this book cover need to know information about pathophysiology of a wide variety of health problems. They include health problems that relate to the respiratory, cardiovascular, neurological, musculoskeletal, gastrointestinal, endocrine, renal, reproductive and integumentary systems. Others chapters address immunological, hematological, oncological and infectious health problems. Finally the last two chapters review two unique areas: genetically transmitted health problems and multisystem health problems. Mastery of the information in this book and effective use of the test taking strategies described will help the student be confident and successful in testing situations including the NCLEX RN and in actual clinical practice.
