Reviewing Before the Edinburgh 1788-1802 Derek Roper, 2025-09 First published in 1978 Reviewing before the Edinburgh is a study of English literary reviewing during the fifteen years before the founding in 1802 of the Edinburgh Review and an assessment of the reviewers achievement The long introductory chapter describes the aims methods staffing readership influence and development of the five important Reviews of the 1790s the Monthly Review Critical Review English Review Analytical Review and British Critic The author argues that this type of Review declined during the 19th century not because of poor performance but because the ambitious aim of comprehensive reviewing had become impossible to achieve The remaining chapters discuss and evaluate the work of these Reviews chiefly in the fields of poetry fiction and political and religious controversy The book fills a gap in the literary and political history of the period provides a compact summary of its review criticism and gives a better perspective on both reviewers and reviewed in years that were unusually fertile in political controversy and literary experiment It will be of interest to students of literature and history

[The Emergence of Literary Criticism in 18th-Century Britain](#) Sebastian Domsch, 2014-08-19 This study tries through a systematic and historical analysis of the concept of critical authority to write a history of literary criticism from the end of the 17th to the end of the 18th century that not only takes the discursive construction of its self representation into account but also the social and economic conditions of its practice It tries to consider the whole of the critical discourse on literature and criticism in the time period covered Thus it is distinctive through its methodology there is no systematic account of the historical development of critical authority and no discussion of the institutionalization of criticism of such a scope its material of analysis most of the many hundred texts self reflexively commenting on criticism that are discussed here have been so far virtually ignored and through its results a complex history of criticism in the 18th century that is neither reductive nor the accumulation of isolated aspects or author figures but that

probes into the very nature of the activity of criticism The aim of this study is both to provide a thorough historical understanding of the emergence of criticism and as a consequence an understanding of the inner workings and power relations that structure criticism to this day **The Works of Charlotte Smith, Part II vol 7** Stuart Curran, 2020-04-15 Charlotte Turner Smith held a central position during the formative years of the British Romantic period Smith's work includes eleven novels and two fictional adaptations from the French This edition reveals the extent to which Smith's work in this form constitutes as significant an achievement as her poetry **Nonconformist Women Writers, 1720-1840, Part I Vol 4** Timothy Whelan, 2024-08-28 These volumes will present in some cases for the first time the lives and works of a coterie of Nonconformist women writers from the West Country **Style and the Nineteenth-Century British Critic** Professor Jason Camlot, 2013-04-28 In analyzing the nonfiction works of writers such as John Wilson J S Mill De Quincy Ruskin Arnold Pater and Wilde Jason Camlot provides an important context for the nineteenth century critic's changing ideas about style rhetoric and technologies of communication In particular Camlot contributes to our understanding of how new print media affected the Romantic and Victorian critic's sense of self as he elaborates the ways nineteenth century critics used their own essays on rhetoric and stylistics to speculate about the changing conditions for the production and reception of ideas and the formulation of authorial character Camlot argues that the early 1830s mark the moment when a previously coherent tradition of pragmatic rhetoric was fragmented and redistributed into the diverse localized sites of an emerging periodicals market Publishing venues for writers multiplied at midcentury establishing a new stylistic norm for criticism one that affirmed style as the manifestation of English discipline and objectivity The figure of the professional critic soon subsumed the authority of the polyglot intellectual and the later decades of the nineteenth century brought about a debate on aesthetics and criticism that set ideals of Saxon rooted virile style against more culturally inclusive theories of expression **British Women Writers of the Romantic Period** Mary Waters, 2008-12-11 This timely anthology offers a broad selection of critical texts introductions prefaces periodical essays literary reviews written by women of the Romantic era The collection offers fuel for some of the most topical debates in British Romantic period studies including professionalism nationalism and the literary canon
