## **Revised Linguistic Survey Of Australia:**

The Languages of Australia R. M. W. Dixon, 2011-01-20 This ground breaking 1980 study of over 200 Australian languages is still valuable especially for its non technical opening chapters **The Languages of the Kimberley, Western Australia** William B. McGregor, 2013-03-07 The Kimberley the far north west of Australia is one of the most linguistically diverse regions of the continent Some fifty five Aboriginal languages belonging to five different families are spoken within its borders Few of these languages are currently being passed on to children most of whom speak Kriol a new language that arose about half a century ago from an earlier Pidgin English or Aboriginal English a dialect of English as their mother tongue and usual language of communication This book describes the Aboriginal languages spoken today and in the recent past in this region **A Grammar of Ngardi** Thomas Ennever, 2021-11-08 Ngardi is a highly endangered language with fewer than 10 remaining speakers and is no longer being acquired by children Despite the limited circulation of a draft dictionary Cataldi 2011 there has been no published reference grammar of this language Upon publication this work will constitute the most comprehensive grammar of any Ngumpin Yapa language The Ngardi language exhibits many of the same typologically interesting features first identified in the related language Warlpiri namely phenomena of non configurational syntax and null anaphora This grammar also brings to light a number of unique properties which will be of interest to linguistic typologists and formal theorists The registration of arguments both through case marking on free NPs as well as in pronominal enclitics is similar to Warlpiri but differs in its detail particularly in the ability to register various non core cases e g locative and allative as arguments in the pronominal complex Within the verbal system Ngardi is notably for a large number of verbal inflections 20 which mark various distinctions in tense aspect and mood as well as associated motion and speaker centric directionality Ngardi exhibits a highly articulated system of complex predication covering both complex verb and serial verb constructions Other typologically interesting aspects of the language include the presence of dedicated apprehensional constructions and interesting interactions between negation and clausal modality The descriptive value of this grammar is enhanced by its sustained regional comparison of the linguistic features of Ngardi with those of neighbouring Ngumpin Yapa and Western Desert languages This grammar and a forthcoming dictionary of Ngardi will be of great significance to both those few remaining Ngardi speakers as well as the next generation of Ngardi people for whom accessible published materials will be an invaluable resource The Oxford Guide to Australian Languages Claire Bowern, 2023 This book is a wide ranging reference work covering the more than 550 Indigenous languages of Australia The chapters in the book explore typology and classification linguistic structures sociolinguistics and language variation and language in the community The final part offers sketches of a selection of languages sub groups and families

**Morphology and Language History** Claire Bowern, Bethwyn Evans, Luisa Miceli, 2008-06-12 This volume aims to make a contribution to codifying the methods and practices linguists use to recover language history focussing predominantly on

historical morphology The volume includes studies on a wide range of languages not only Indo European but also Austronesian Sinitic Mon Khmer Basque one Papuan language family as well as a number of Australian families Few collections are as cross linguistic as this reflecting the new challenges which have emerged from the study of languages outside those best known from historical linguistics The contributors illustrate shared methodological and theoretical issues concerning genetic relatedness that is the use of morphological evidence for classification and subgrouping reconstruction and processes of change with a diverse range of data The volume is in honour of Harold Koch who has long combined innovative research on understudied languages with methodological rigour and codification of practices within the discipline

Handbook of Australian Languages R.M.W. Dixon, Barry J. Blake, 1981-12-31 This handbook makes available short grammatical sketches of Australian languages Each grammar is written in a standard format following guidelines provided by the editors and includes a sample text and vocabulary text The contributions to this volume are salvage studies giving all the information that is available on four languages which are on the point of extinction and an assessment of what linguistic impressions can be inferred from the scant material that is available on the extinct languages of Tasmania

Handbook of Australian Languages Robert M. W. Dixon, Barry J. Blake, 1979 This handbook makes available short grammatical sketches of Australian languages Each grammar is written in a standard format following guidelines provided by the editors and includes a sample text and vocabulary text In the introduction the editors discuss some of the recurrent features of languages across the continent together with grammars of Guugu Yimidhirr by John Haviland Pitta Pitta by Barry J Blake Gumbaynggir by Diana Eades and Yaygir by Terry Crowley

**Atlas of the World's Languages** R.E. Asher, Christopher Moseley, 2018-04-19 Before the first appearance of the Atlas of the World's Languages in 1993 all the world's languages had never been accurately and completely mapped The Atlas depicts the location of every known living language including languages on the point of extinction This fully revised edition of the Atlas offers up to date research some from fieldwork in early 2006 a general linguistic history of each section an overview of the genetic relations of the languages in each section statistical and sociolinguistic information a large number of new or completely updated maps further reading and a bibliography for each section a cross referenced language index of over 6 000 languages Presenting contributions from international scholars covering over 6 000 languages and containing over 150 full colour maps the Atlas of the World's Languages is the definitive reference resource for every linguistic and reference library

**Notes on the Bandjalang Dialect** Nils Magnus Holmer, William J. Oates, 1970

Language Survey Joyce Hudson, Noreen Pym, 1984 Report of surveys by K C Hansen D Glasgow and N Pym in the Western Desert Northern Territory and at Hopevale Qld which have been annotated separately
