Nathan, 1984-06-30 In many American cities middle and upper income people are moving into neighborhoods that had previously suffered disinvestment and decay The new residents renovate housing stimulate business and contribute to the tax base These benefits of neighborhood revitalization are in some cases achieved at a potentially serious cost the displacement of existing neighborhood residents by eviction condominium conversion or as a result of rent increases Revitalizing America's Cities investigates the reasons why the affluent move into revitalizing inner city neighborhoods and the ways in which the new residents benefit the city It also examines the resulting displaced households Data are presented on displacement in nine revitalizing neighborhoods of five cities the most comprehensive survey of displaced households conducted to date The study reveals characteristics of displaced households and hardships encountered as a result of being forced from their homes Also featured is an examination of federal state and local policies toward neighborhood reinvestment and displacement including various alternative approaches for dealing with this issue The New Blackwell Companion to The City Gary Bridge, Sophie Watson, 2011-02-23 This book considers the state of the city and contemporary urbanisation from a range of intellectual and international perspectives The most interdisciplinary collection of its kind Provides a contemporary update on urban thinking that builds on well established debates in the field Uses the city to explore economic social cultural environmental and political issues more broadly Includes contributions from non Western perspectives and cities Reviving America's Forgotten Neighborhoods Elise M. Bright, 2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **Revitalizing Urban Neighborhoods** William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban neighborhoods can and must be preserved as economic cultural and political centers *Urban Fortunes* John R. Goldsmith, Edward James Blakely, 1992 Economic and political forces no longer combat poverty they generate poverty exclaim William Goldsmith and Edward Blakely in their report on the plight of American's urban poor Focusing on the reality of separation social segmentation economic inequality and

geographic isolation the authors examine the presence and persistence of urban poverty the transformation of national industry into a global economy and the dilemmas of local reform Goldsmith and Blakely document the appalling conditions of poor and minority people in central cities examining those conditions in relation to inequalities in the national distributions of income and wealth They analyze the connections between the structure and movement of the new global economy and the problems of the poorest Americans They demonstrate how globalized markets and production arrangements have worsened the opportunities facing most American cities and workers Noting that neither economic growth nor public subsidy has solved the problems of the poor Goldsmith and Blakely propose that the very separation that exacerbates poverty be used to motive restructure The authors maintain that when those in power locally respond to the pressure exerted by those suffering from inequality and isolation community level institutions will be restructured These multi local coalitions of small businesses and neighborhood organizations need to press for reallocation of federal resources in favor of domestic needs and redirection of the national economic favor of workers and common citizens Author note William W Goldsmith is Professor of City and Regional Planning and Director of the Program on International Studies in Planning at Cornell University Edward J Blakely is Professor of City and Regional Planning at the University of California Berkeley *Gentrification* Loretta Lees, Tom Slater, Elvin Wyly, 2013-10-18 This first textbook on the topic of gentrification is written for upper level undergraduates in geography sociology and planning The gentrification of urban areas has accelerated across the globe to become a central engine of urban development and it is a topic that has attracted a great deal of interest in both academia and the popular press Gentrification presents major theoretical ideas and concepts with case studies and summaries of the ideas in the book as well as offering ideas for future research Fulfilling the Promise John T. Kneebone, Eugene P. Trani, 2020-09-22 Founded in Richmond in 1968 Virginia Commonwealth University VCU began with a mission to build a university to serve a city emerging from the era of urban crisis desegregation white flight political conflict and economic decline With the merger of the Medical College of Virginia and the Richmond Professional Institute into the single state mandated institution of VCU the two entities were able to embrace their mission and work together productively In *Fulfilling the Promise* John Kneebone and Eugene Trani tell the intriguing story of VCU and the context in which the university was forged and eventually thrived Although VCU s history is necessarily unique Kneebone and Trani show how the issues shaping it are common to many urban institutions from engaging with two party politics in Virginia and African American political leadership in Richmond to fraught neighborhood relations the complexities of providing public health care at an academic health center and an increasingly diverse student body As a result *Fulfilling the Promise* offers far more than a stale institutional saga Rather this definitive history of one urban setting state university illuminates the past and future of American public higher education in the post 1960s era
