Reviving Local Democracy New Labour New Politics:

Reviving local democracy Rao, Nirmala, 2000-09-20 Reviving local democracy offers a vivid and persuasive critical examination of New Labour's programme for the modernisation of local government providing a balanced view of the democracy and participation debate Since 1997 the Blair government has sought to mobilise popular participation through local referenda new political structures electoral reform and the creation of powerful new elected mayors Through these mechanisms it is hoped that the lack of public interest and persistently low election turnouts will be overcome The book draws on a wide range of new survey data to relate the crisis of local politics and governance to wider changes in the political culture The author goes on to evaluate the government's proposals to reverse decline asking whether this programme of reform is likely to succeed With the aid of a series of recent surveys of both public and councillor opinion and the successful blending of historical and empirical analysis she offers an assessment of the realities which the democratic renewal project will have to confront in its implementation The book is topical and timely and highly accessible and will appeal to students those involved in local government and anyone concerned to see local government become more representative responsive and open to popular participation *Evaluating New Labour's Welfare Reforms* Martin Powell, 2002 This title provides a detailed study of the welfare reforms of New Labour's first term It compares achievements with stated aims examines success in the wider context and contributes to the debate on the problems of evaluating social policy Law, Localism, and the Constitution John Stanton, 2023-03-24 Local government affects us all Wherever we live in towns cities villages or the smallest of communities there are locally elected councils tasked with representing people's interests in the running of the local area This involves inter alia providing public services maintaining local spaces and acting as a level of democratic governance within the broader constitutional and executive structure of the state To fulfil these responsibilities though local government must be democratically legitimate it must have at its disposal reasonable means and resources to function and it must enjoy a healthy and balanced relationship with centralised government This book explores and analyses the extent to which local government in the different parts of the United Kingdom is able to function effectively and democratically It draws from local councillors' views in analysing the state of local government under the current constitutional and governmental arrangements discussing issues such as councils' relationships with central government citizen engagement finance and public services and the impact of recent reforms It contrasts and compares the different approaches adopted in England Scotland Wales and Northern Ireland also setting out and discussing possible reforms of local government across the United Kingdom While the focus is on the United Kingdom the work includes a comparison with other relevant jurisdictions Faith and Social Capital After the Debt Crisis A. Dinham, 2012-04-24 This book explores what becomes of faiths when seen as social capital In the grip of the current debt crisis where the social and capital seem increasingly unbalanced this book examines whether faiths can help rebalance society through drawing communities
