Revolution And History The Origins Of Marxist Historiography In China 1919 1937:

Revolution and History Arif Dirlik, 1989-09-18 A fascinating contribution to Marxist historiography and to the history of Marxist historiography Dirlik's story of the reemergence of the modes of production debate in the early years of the Chinese revolution has much to tell us about that debate itself and not least about its intimate relationship to political practice and revolutionary strategy Fredric Jameson Duke University

The Buddha Party John Powers, 2017 The Buddha Party tells the story of how the People's Republic of China employs propaganda to define Tibetan Buddhist belief and sway opinion within the country and abroad The narrative they create is at odds with historical facts and deliberately misleading but John Powers argues it is widely believed by Han Chinese Most of China's leaders appear to deeply believe the official line regarding Tibet which resonates with Han notions of themselves as China's most advanced nationality and as a benevolent race that liberates and culturally uplifts minority peoples This in turn profoundly affects how the leadership interacts with their counterparts in other countries Powers's study focuses in particular on the government's patriotic education campaign an initiative that forces monks and nuns to participate in propaganda sessions and repeat official dogma Powers contextualizes this within a larger campaign to transform China's religions into patriotic systems that endorse Communist Party policies This book offers a powerful comprehensive examination of this ongoing phenomenon how it works and how Tibetans resist it

Chinese Sociology Hon Fai Chen, 2017-09-27 This book examines the institutional development of Chinese sociology from the 1890s to the present It plots the discipline's twisting path in the Chinese context from early Western influences through the institutionalization of the discipline in the 1930s 40s its problematic relationship with socialism and interruptions under Marxist orthodoxy and the Cultural Revolution its revival during the 1980s 90s to the twin trends of globalization and indigenization in current Chinese sociological scholarship Chen argues that in spite of the state building agenda and persistent efforts to indigenize the discipline the Western model remains pervasively influential due in large part to the influence of American missionaries foundations and scholars in the formation and transformation of the Chinese sociological tradition The history of Chinese sociology is shown to be a contingent process in which globally circulated knowledge above all the American sociological tradition has been adapted to the changing contexts of China This engaging work contributes an important country study to the history of sociology and will appeal to scholars of Chinese history and disciplinary historiography in addition to social scientists

The social sciences have been heavily influenced by modernization theory focusing on issues of economic growth political development and social change in order to develop a predictive model of linear progress for developing countries following a Western prototype Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the West and the rest us and them and self and other Proposing to shift the discussion on what constitutes the Other as opposed to the Self from philosophy and cultural studies to the social sciences this book explores how the structural asymmetries existing between Western discourses and the realities of the non Western world manifest themselves in the ideas institutions and socio political practices of India and China and in how far they shape the social scientist s understanding of their discipline in general It provides a counter narrative by revealing the relativity of geographies and by showing that the conventional presentation of core elements of the Asian socio political set up as aberrations from the Western models fails to acknowledge their inherent strategic character of adapting Western concepts to meet local requirements Drawing on multiple disciplines concepts and contexts in India and China the book makes a valuable contribution to the theory and practice of politics as well as to International and Asian Studies The Oxford History of Historical Writing Stuart Macintyre, Juan Maiguashca, Attila Pók, 2011-10-27 Volume 4 of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally from 1800 to 1945 Divided into four parts it first covers the rise consolidation and crisis of European historical thought and the professionalization and institutionalization of history The chapters in Part II analyze how historical scholarship connected to various European national traditions Part III considers the historical writing of Europe s Offspring the United States Canada South Africa Australia New Zealand Mexico Brazil and Spanish South America The concluding part is devoted to histories of non European cultural traditions China Japan India South East Asia Turkey the Arab world and Sub Saharan Africa This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world This volume aims at once to provide an authoritative survey of the field and especially to provoke cross cultural comparisons *Studying the Enemy* Christiane Reinhold, 2018-10-24 Unlike the majority of contemporary scholarly works that examine Sino Japanese relations between 1925 and 1945 this study de emphasizes the story of conflict and war in favor of one that revolves around the way in which the Chinese intellectually encountered the enemy the Japanese Imperial-Time-Order Kun Qian, 2015-11-24 Imperial Time Order is an engagingly written critical study on a persistent historical way of thinking in modern China Defined as normalization of unification and moralization of time Qian suggests the imperial time order signifies a temporal structure of empire that has continued to shape the way modern China developed itself conceptually Weaving together intellectual debates with literary and media representations of imperial history since the late Qing period ranging from novels stage plays films to television series Qian traces the different temporalities of each period and takes time

as the analytical node by which issues of empire nation family morality individual and collective subjectivity are constructed and contested *Development of Modern Chinese Foreign Policy Thought* Ivica Bakota,Zvonimir Stopić,Mato Njavro,2024-11-15 This book presents a comprehensive exploration of China s foreign policy evolution from the early twentieth century to the contemporary era The intricate interplay between the People s Republic of China the Chinese Communist Party CCP and the global stage is meticulously traced offering a nuanced understanding of China s dynamic engagement with the world With a detailed analysis spanning eight chapters the book delves into the contextual factors that influenced CCP s initial foreign policy ideas prior to the establishment of the People s Republic It systematically unravels the gradual development of these ideas during the Cold War era and unveils the fundamental and adaptive trajectories that have shaped China s foreign policy landscape over the past three decades Utilizing primary sources and academic texts the book incorporates both Chinese and global perspectives to shed new light on the evolution of Chinese foreign policy thought making it an invaluable contribution to the study of China s global interactions The authors uniquely bridge the gap between different stages of China s foreign policy development across a centennial timeframe offering an organic perspective on its growth and their comprehensive analysis of China s foreign policy toolset adds a distinctive dimension to existing knowledge By steering clear of preconceived notions the book delivers a well rounded analysis of China s foreign policy evolution
