Charlotte A. Lerg, Heléna Tóth

Revolutionary Acts Theater Democracy And The French Revolution:

Revolutionary Acts Susan Maslan, 2005-08-26 Publisher Description [The Sentimental Theater of the French Revolution](#) Cecilia Feilla, 2016-03-03 Smoothly blending performance theory literary analysis and historical insights Cecilia Feilla explores the mutually dependent discourses of feeling and politics and their impact on the theatre and theatre audiences during the French Revolution Remarkably the most frequently performed and popular plays from 1789 to 1799 were not the political action pieces that have been the subject of much literary and historical criticism but rather sentimental dramas and comedies many of which originated on the stages of the Old Regime Feilla suggests that theatre provided an important bridge from affective communities of sentimentality to active political communities of the nation arguing that the performance of virtue on stage served to foster the passage from private emotion to public virtue and allowed groups such as women children and the poor who were excluded from direct political participation to imagine a new and inclusive social and political structure Providing close readings of texts by among others Denis Diderot Collot d Herbois and Voltaire Feilla maps the ways in which continuities and innovations in the theatre from 1760 to 1800 set the stage for the nineteenth century Her book revitalizes and enriches our understanding of the significance of sentimental drama showing that it was central to the way that drama both shaped and was shaped by political culture **Theater, War and Revolution in**

Eighteenth-Century France and its Empire Logan J. Connors, 2023-11-23 The first study of French theater and war at a time of global revolutions colonial violence and radical social transformation **Transatlantic Revolutionary Cultures,**

1789-1861 Charlotte A. Lerg, Heléna Tóth, 2017-11-06 Transatlantic Revolutionary Cultures 1789 1861 argues that the revolutionary era constituted a coherent chapter in transatlantic history and that individual revolutions were connected to a broader transatlantic and transnational frame As a composite the essays place instances of political upheaval during the long nineteenth century in Europe and the Americas in a common narrative and offer a new interpretation on their seeming asynchrony In the age of revolutions the formation of political communities and cultural interactions were closely connected over time and space Reciprocal connections arose from discussions on the nature of history deliberations about constitutional models as well as the reception of revolutions in popular culture These various levels of cultural and intellectual interchange we term transatlantic revolutionary cultures Contributors are Ulrike Bock Anne Bruch Peter Fischer Mischa Honeck Raphael H rmann Charlotte A Lerg Marc H Lerner Michael L Miller Timothy Mason Roberts and Hel na T th [Molière, the French Revolution, and the Theatrical Afterlife](#) Mechele Leon, 2009-10 From 1680 until the French Revolution when legislation abolished restrictions on theatrical enterprise a single theatre held sole proprietorship of Moli re s works After 1791 his plays were performed in new theatres all over Paris by new actors before audiences new to his works Both his plays and his image took on new dimensions In Moli re the French Revolution and the Theatrical Afterlife Mechele Leon convincingly demonstrates how revolutionaries challenged the ties that bound this preeminent seventeenth century comic playwright to

the Old Regime and provided him with a place of honor in the nation's new cultural memory Leon begins by analyzing the performance of Molière's plays during the Revolution showing how his privileged position as royal servant was disrupted by the practical conditions of the revolutionary theatre Next she explores Molière's relationship to Louis XIV Tartuffe and the social function of his comedy using Rousseau's famous critique of Molière as well as appropriations of George Dandin in revolutionary iconography to discuss how Molièrean laughter was retooled to serve republican interests After examining the profusion of plays dealing with his life in the latter years of the Revolution she looks at the exhumation of his remains and their reentombment as the tangible manifestation of his passage from Ancien Régime favorite to new national icon The great Molière is appreciated by theatre artists and audiences worldwide but for the French people it is no exaggeration to say that the Father of French Comedy is part of their national soul By showing how he was represented reborn and reburied in the new France how the revolutionaries asserted his relevance for their tumultuous time in ways that were audacious irreverent imaginative and extreme Leon clarifies the important role of theatrical figures in preserving and portraying a nation's history

Staging the French Revolution Mark Darlow, 2012-05-31 In *Staging the French Revolution* author Mark Darlow offers an unprecedented opportunity to consider the material context of opera production combining in depth archival research with a study of the works themselves He argues that a mixture of popular and State interventions created a repressive system in which cultural institutions retained agency compelling individuals to follow and contribute to a shifting culture Theatre thereby emerged as a locus for competing discourses on patriotism society the role of the arts in the Republic and the articulation of the Revolution's relation with the Old Regime and is thus an essential key to the understanding of public opinion and publicity at this crucial historical moment

The Visual Culture of Violence After the French Revolution Lela Graybill, 2017-07-05 *The Visual Culture of Violence after the French Revolution* traces four sites of spectatorship that exemplified the visual culture of violence in the late eighteenth and early nineteenth centuries offering a new account of the significance of violent spectacle to the birth of modernity Considerations of the execution scaffold salon painting print culture and the *fait divers* and waxworks displays establish the centrality of spectatorial violence to experiences of selfhood in the wake of the French Revolution Shedding critical light on previously neglected aspects of art and visual culture of the post Revolutionary period *The Visual Culture of Violence after the French Revolution* demonstrates how violent spectacle at this moment was profoundly shaped by shifting social attitudes contemporary political practices and rapidly accelerated technological developments By attending to the formal and historical specificity of violent spectacle after the Revolution Graybill affirms the historical contingency through which the visual culture of violence in the modern era has emerged *The Visual Culture of Violence after the French Revolution* will be broadly relevant to scholars of art media and visual studies and particularly to historians of the French Revolution and eighteenth and early nineteenth century Europe The book's concern with the representation of violence makes it of interest to scholars working in a variety of fields beyond its historical period

especially in art literature history media and culture studies *Quatremère de Quincy* David Gilks, 2024-05-31 Antoine Chrysosth me Quatrem re de Quincy 1755 1849 was the most distinguished writer on art and architecture at the end of the enlightenment However as David Gilks shows in *Quatrem re de Quincy Art and Politics* during the French Revolution he was never simply an esoteric antiquarian and theoretician he was also a zealous functionary and skilled publicist whose writings on the arts often served political purposes *Quatrem re de Quincy Art and Politics* during the French Revolution demonstrates how Quatrem re s early writings on art and antiquity formed the foundation for a politics grounded in faith authority and hierarchy that favoured gradual social and political evolution over destruction and experimentation Gilks then traces how Quatrem re set aside his antiquarian research and became a royalist politician and publicist during the revolutionary decade Quatrem re feared that the Revolution would destroy the cosmopolitan republic of letters that had flourished when states across Europe supported the papacy s rediscovery of the past restoration of taste and revival of learning Yet Gilks reveals that Quatrem re was also a resourceful and an opportunistic political actor who deployed his opponents language for strategic reasons Gilks therefore reinterprets Quatrem re s interventions by situating them in their polemical contexts and treating them as contributions to debates and quarrels by locating his sources and reconstructing his social and political networks The resulting study revises our understanding of Quatrem re s famous reflections on the Academy of Painting and Sculpture the Panth on art plunder and museums but it also discovers and sheds light on previously ignored writings Although the study focuses on the period 1789 1799 it examines the second half of Quatrem re s life to substantiate his commitment to crown and altar and show how he fought against the Revolution s legacy of godless materialism and calculation that was inimical to the arts This is a thoroughly researched and richly detailed contextual study of the most eventful period in Quatrem re s life but it also offers an original and unfamiliar history of the French Revolution Gilks integrates the study of political power with the history of ideas and art history and provides a window into institutional and legal reforms and debates about cultural patronage and education **Louis Sébastien Mercier** Michael J.

Mulryan, 2023-09-15 French playwright novelist activist and journalist Louis S bastien Mercier 1740 1814 passionately captured scenes of social injustice in pre Revolutionary Paris in his prolific oeuvre but today remains an understudied writer In this penetrating study the first in English devoted to Mercier in decades Michael Mulryan explores his unpublished writings and urban chronicles *Tableau de Paris* 1781 88 and *Le Nouveau Paris* 1798 in which he identified the city as a microcosm of national societal problems detailed the conditions of the laboring poor encouraged educational reform and confronted universal social ills Mercier s rich writings speak powerfully to the sociopolitical problems that continue to afflict us as political leaders manipulate public debate and encourage absolutist thinking deepening social divides An outcast for his polemical views during his lifetime Mercier has been called the founder of modern urban discourse and his work a precursor to investigative journalism This sensitive study returns him to his rightful place among Enlightenment thinkers

Citoyennes Annie Smart, 2011-12-23 In *Citoyennes* Annie Smart argues that many revolutionary and pre revolutionary works constructed a civic identity for women and portrayed the home as a site for both civic virtue and private subjectivity. This interdisciplinary study offers a fresh interpretation of the role of women and the home in eighteenth century France and goes a long way to filling a gaping hole in the contemporary literature on the subject.

Immerse yourself in the artistry of words with Experience Art with its expressive creation, Discover the Artistry of **Revolutionary Acts Theater Democracy And The French Revolution** .
