Commonwealth and Victory in the Second World War Iain E. Johnston-White,2016-12-28 This book is the first comprehensive study of the British Commonwealth in the Second World War Britain and its Dominions Canada Australia New Zealand and South Africa formed the most durable cooperative and interchangeable alliance of the war Iain E Johnston White looks in depth at how the Commonwealth war effort was financed the training of airmen for the air war the problems of seaborne supply and the battles fought in North Africa Fully one third of the British effort originated in the Dominions a contribution that was only possible through the symbiotic relationship that Britain maintained with its former settler colonies This cooperation was based upon a mutual self interest that was largely maintained throughout the war In this book Johnston White offers a fundamental reorientation in our understanding of British grand strategy in the Second World War **New Zealand and the Vietnam War** Roberto Rabel,2013-11-01 Starting with the first Indochina War in the 1950s this historical analysis covers the story of New Zealand's relations with Vietnam up to the end of the Vietnam War in the 1970s Exploring the diplomatic history of the engagement which is not well known or understood and showing that New Zealand officials and politicians in fact entered the war with extreme reluctance this describes how the dispatch of troops to Vietnam divided the country enraged a generation and forced the government to publicly defend its policy Readers quickly discover that the fallout from the Vietnam conflict still affects New Zealand's position today from its well known antinuclear stance to its

position over the recent Iraq conflict
