Say Little Do Much Nursing And The Establishment Of Hospitals By Religious Women:

Say Little, Do Much Sioban Nelson, 2001 Nearly half a century before Florence Nightingale became a legendary figure for her pioneering work in the nursing trade nursing nuns made significant but little known accomplishments in the field **Say Little, Do Much** Sioban Nelson, 2010-11-24 In the nineteenth century more than a third of American hospitals were established and run by women with religious vocations In *Say Little Do Much* Sioban Nelson casts light on the work of these women s religious communities According to Nelson the popular view that nursing invented itself in the second half of the nineteenth century is historically inaccurate and dismissive of the major advances in the care of the sick as a serious and skilled activity an activity that originated in seventeenth century France with Vincent de Paul s Daughters of Charity In this comparative contextual and critical work Nelson demonstrates how modern nursing developed from the complex interplay of the Catholic emancipation in Britain and Ireland the resurgence of the Irish Church the Irish diaspora and the mass migrations of the German Italian and Polish Catholic communities to the previously Protestant strongholds of North America and mainland Britain In particular Nelson follows the nursing Daughters of Charity through the French Revolution and the Second Empire documenting the relationship that developed between the French nursing orders and the Irish Catholic Church during this period This relationship she argues was to have major significance for the development of nursing in the English speaking world *Indian Sisters* Madelaine Healey, 2014-08-07 Health and medicine cannot be understood without considering the role of nurses both as professionals and as working women In India unlike other countries nurses have suffered an exceptional degree of neglect at the hands of state a situation that has been detrimental to the quality of both rural and urban health care *Charting the history of the development of nursing in India over 100 years* Indian Sisters examines the reasons why nurses have so consistently been sidelined and excluded from health care governance and policymaking The book challenges the routine suggestion that nursing s poor status is mainly attributable to socio cultural factors such as caste limitations on female mobility and social taboos It argues instead that many of its problems are due to an under achieved relationship between a patriarchal state on the one hand and weak professional nursing organisations shaped by their colonial roots on the other It also explores how the recent phenomenon of large scale emigration of nurses to the West leading to better pay working conditions and career prospects has transformed the profession lifting its status dramatically At the same time it raises questions about the implications of emigration for the fate of health care system in India An important contribution to the growing academic genre of nursing history the book is essential reading for scholars and students of health care the history of medicine gender and women s studies sociology and migration studies It will also be useful to policymakers and health professionals **Florence Nightingale** Shubhada Sakurikar, 2009-01-01 Florence Nightingale 1820 1910 English nurse **New Directions in Nursing History** Barbara Mortimer, Susan McGann, 2005 *Irish Medical Education and Student Culture, c.1850-1950* Laura Kelly, 2017-09-15 This book is the first comprehensive

history of medical student culture and medical education in Ireland from the middle of the nineteenth century until the 1950s Utilising a variety of rich sources including novels newspapers student magazines doctors memoirs and oral history accounts it examines Irish medical student life and culture incorporating students educational and extra curricular activities at all of the Irish medical schools The book investigates students experiences in the lecture theatre hospital dissecting room and outside their studies such as in digs sporting teams and in student societies illustrating how representations of medical students changed in Ireland over the period and examines the importance of class religious affiliation and the appropriate traits that students were expected to possess It highlights religious divisions as well as the dominance of the middle classes in Irish medical schools while also exploring institutional differences the students decisions to pursue medical education emigration and the experiences of women medical students within a predominantly masculine sphere Through an examination of the history of medical education in Ireland this book builds on our understanding of the Irish medical profession while also contributing to the wider scholarship of student life and culture It will appeal to those interested in the history of medicine the history of education and social history in modern Ireland

Nursing and Midwifery in Britain Since 1700

Anne Borsay, Billie Hunter, 2012-05-15 Nurses and midwives both qualified and in training have a lively interest in how their professions have developed A stimulating collection of research based essays this book explores and compares the distinct histories of nursing and midwifery in Britain from the beginning of the eighteenth century to the modern day

Commodifying Everything Susan Strasser, 2013-12-16 Commodification refers most explicitly to the activities of turning things into commodities and of commercializing that which is not commercial in essence The mass marketing of pets the rise of the coffin industry the conversion of preacher into salesmen and the globalization of Taleggio cheese are some of the exciting but surprising topics in this volume that show how friendship death spirituality and artisanship all have a price after being commodified This unique collection of essays is a fascinating take on creating consumer products and consumer

identities when what is for sale goes well beyond the thing itself It will be a course in a box for instructors who want to teach their students about commodification

A History of the Sisters of Charity Hospital, Buffalo, New York, 1848-1900 Jean Richardson, 2005 Uncovers the history of challenges faced and overcome as the hospital moved from being a 100 bed facility run single handedly by three women to a modern hospital facility with 600 beds

American Catholic Hospitals Barbra Mann Wall, 2011 Presents a narrative of the history and transformation of Catholic hospitals in twentieth century America

Back cover

Who Shall Take Care of Our Sick? Bernadette McCauley, 2020-03-03 This rich history chronicles the prominent role of Catholic women religious in establishing the hospitals at the core of New York City's extensive Catholic medical network Beginning with the opening of St Vincent's Hospital in 1849 Bernadette McCauley relates how determined and pragmatic women of faith worked over the next eighty years to place the Catholic Church in the mainstream of American medicine Exploring the differences and similarities between Catholic hospitals and other hospitals McCauley describes the particular cultural sensibility and management style that informed Catholic health care and gauges the ultimate success of Catholic efforts Visionary sisters established, managed and staffed the hospitals and they sat on hospital boards and served as administrators at a time when women rarely occupied positions of leadership in business McCauley illustrates how they at once embraced the world of God and the world of man playing an unheralded role in the development of the modern hospital while serving the daily needs of New York's immigrant poor Encompassing such issues as immigration the education of nurses and doctors hospital care and organization and the role of women in the Catholic church this extensive study is a valuable resource for scholars and students in the history of medicine history of nursing American religion and women's history

Nursing before Nightingale, 1815-1899 Carol Helmstadter, Judith Godden, 2016-05-23 Nursing Before Nightingale is a study of the transformation of nursing in England from the beginning of the nineteenth century until the emergence of the Nightingale nurse as the standard model in the 1890s From the nineteenth century on historians have considered Florence Nightingale with her training school established at St Thomas's Hospital in 1860 the founder of modern nursing This book investigates two major earlier reforms in nursing a doctor driven reform which came to be called the ward system and the reforms of the Anglican Sisters known as the central system of nursing Rather than being the beginning of nursing reform Nightingale nursing was the culmination of these two earlier reforms
