America's safety net is torn and tattered Income inequality continues to grow the gap between rich and poor has expanded fivefold in the last 25 years For millions of working families achieving basic middle class comforts has begun to seem as distant a dream as winning the lottery What is needed and what veteran organizer and ACORN founder Wade Rathke provides in this hard hitting new book is a comprehensive grassroots strategy to create what he calls citizen wealth an enduring foundation on which working people can build a future that extends beyond paying next month's rent Rathke shares breakthrough strategies that have enabled ACORN and other organizations help people secure the basics of citizen wealth a house and a decent income offering from the trenches advice on mounting successful living wage campaigns battling unscrupulous and predatory lending practices and developing new forms of worker organizations to protect wages and benefits The anti poverty programs still out there can provide critical support for citizen wealth building efforts but they're woefully underutilized Rathke shows how to cut through government indifference and bureaucratic obstacles to provide those in need with access to these vital resources But community organizations can't do it alone Rathke describes ACORN partnerships with HSBC Bank and H R Block that helped these businesses see building citizen wealth as a new market opportunity a win for them and for the people they once exploited And he looks at other examples of strange bedfellows in the fight for citizen wealth including Citibank once the target of massive protests by ACORN and now working with them a major investor in working class communities We need to create a national economic and political consensus that increasing family income wealth and assets is not welfare or an entitlement give away program but an investment in the public good and well being Rathke writes Based on forty years of hard won experience Wade Rathke offers a new blueprint for helping millions to achieve the American Dream Achieve Financial Freedom - Big Time!: Wealth-Building Secrets from Everyday Millionaires Sandy Botkin, Sanford C. Botkin, 2012-09-18 The bestselling author of the consistently successful *Lower Your Taxes* Big Time reveals the secrets of the rich to help anyone achieve long term financial stability *Fighting Better* Louis Kriesberg, 2022-12-08 The people in the United States are experiencing an extreme degree of division political partisanship and civic disorder Destructive fights are waged about matters such as misinformation voting rights school curriculum government spending and personal privacy How can these distressing circumstances be overcome More specifically what makes the difference between conflicts that result in progress versus those that further contribute to a greatly polarized extremely unequal and distressed society In *Fighting Better* Louis Kriesberg argues that the crises confronting the US presently are the result of changes in dynamics along three societal dimensions class status and power Those changes were brought about to a great degree by people waging conflicts constructively destructively or avoiding overt conflicts altogether

Assessing major domestic conflicts in the United States since 1945 Kriesberg evaluates how well conflicts were waged in terms of advancing justice liberty and equal opportunity for all Americans Moreover he offers ideas for how some of those fights might have been waged more effectively and with longer term benefits connecting current US crises to past mistakes In doing so Kriesberg deepens our understanding of how the way conflicts are waged can help to reduce inequities in class power and status particularly with regard to gender and race
