The Taiwan

Voter Christopher Henry Achen, T. Y. Wang, 2017-07-26 The Taiwan Voter examines the critical role ethnic and national identities play in politics utilizing the case of Taiwan Although elections there often raise international tensions and have led to military demonstrations by China no scholarly books have examined how Taiwan's voters make electoral choices in a dangerous environment Critiquing the conventional interpretation of politics as an ideological battle between liberals and conservatives The Taiwan Voter demonstrates in Taiwan the party system and voters responses are shaped by one powerful determinant of national identity the China factor Taiwan's electoral politics draws international scholarly interest because of the prominent role of ethnic and national identification While in most countries the many tangled strands of competing identities are daunting for scholarly analysis in Taiwan the cleavages are powerful and limited in number so the logic of interrelationships among issues partisanship and identity are particularly clear The Taiwan Voter unites experts to investigate the ways in which social identities policy views and partisan preferences intersect and influence each other These novel findings have wide applicability to other countries and will be of interest to a broad range of social scientists interested in identity politics

The A to Z of Taiwan (Republic of China) John Franklin Copper, 2010-04 Offers insight into Taiwan's situation through a chronology an introduction appendixes a map a bibliography and several hundred cross referenced dictionary entries on important people places events political parties and institutions as well as major political economic social and cultural aspects of this island country

The A to Z of Taiwan (Republic of China) John Franklin Copper, 2010-04-01 Taiwan an island located off the east coast of southern China is the largest piece of territory under the jurisdiction of the nation known officially as the Republic of China Constant debate over whether Taiwan is its own sovereign state part of the Republic of China or part of the People's Republic of China has been going on for years With Chinese leaders in the People's Republic of China rejecting Taiwan's legal separation and vowing that they will resolve the Taiwan issue by military force if necessary and most citizens of Taiwan opposing unification with China in the short run it would appear that Taiwan faces some tough decisions ahead The A to Z of Taiwan Republic of China offers insight into Taiwan's situation through a chronology an introduction appendixes a map a bibliography and several hundred cross referenced dictionary entries on important people places events political parties and institutions as well as major political economic social and cultural aspects of this island country Whether or not Taiwan joins the People's Republic of China or gains its independence Taiwan's outcome is of the utmost importance and this reference provides the necessary information to understand its state of affairs

The Second Long March Peter Kien-Hong YU, 2011-11-03 This work written by an expert in the politics of Mainland China and Taiwan looks at the role the Constitution of the Republic of China has played in the development of Taiwan since 1949 and its potential influence on the People's Republic of China The Chinese Communists conducted the first long march for the sake of the majority of Chinese people with the victory of MAO Zedong In the second long march CHIANG Kai shek and his successors tried to convert the Chinese mainland from a Communist totalitarian system into a democratic

prosperous one by relying on the spirit of the Republic of China ROC constitution and by setting itself as a good example in gradually guaranteeing freedom and democracy Needless to say this march is long and difficult The Second Long March challenges other models and theories on the study of the relationship between the ROC Taiwan area and mainland China or the People s Republic of China PRC since China became politically as opposed to legally divided in December 1949 Arguably it is the ROC Constitution that has helped ROC citizens to live in a non Communist or anti Communist political system Actively promoting democracy and freedom on the Chinese mainland neidi can further guarantee the Taiwan area s survival The book will provide valuable scholarship of interest to anyone researching the political history of China and its prospects for democratization

Institutions and Development M. M. Shirley, 2010-01-01 Both economic research and the history of foreign aid suggest that the largest barriers to development arise from a society s institutions its norms and rules This book explains how institutions drive economic development It provides numerous examples to illustrate the complex interlocking and persistent nature of real world rules and norms

Foreign Policy Making in Taiwan Dennis V. Hickey, 2006-12-05 Following President Chen Sui bian s victory in the controversial 2004 presidential election this book examines the future direction of Taiwan s foreign policy focusing on the internal and external forces that influence and shape the countries foreign policy decisions today The author suggests that four levels of analysis the international system governmental structure societal forces and individual factors pose some explanatory value when seeking to understand Taipei s foreign policy behaviour Taiwan s foreign policy decision making remains an extremely complex process involving many important variables However the author s detailed analysis reveals that external factors particularly seismic shifts in global politics and the role of China and the US have had an extraordinary degree of influence over the island s foreign relations This book highlights these factors as important considerations that continue to play a critical role in shaping Taiwan s foreign policy Providing a clear analysis of the dynamics of Taiwan s foreign policy Foreign Policy Making in Taiwan is an important addition to the literature on Taiwan and will be essential reading for followers of Chinese politics comparative politics and foreign policy analysis

Taiwan's Political Re-Alignment and Diplomatic Challenges Wei-chin Lee, 2018-05-09 This edited volume investigates and evaluates the context causes and consequences of various essential issues in Taiwanese domestic politics and external relations before and after the regime change in 2016 It offers

theoretical interpretation and temporal delineation of recent electoral shifts party realignment identity reformulation and subsequent foreign policy adaptation in the 2010s Contributors address these issues in three sections Democracy and New Political Landscape The China Factor and Cross Strait Dilemma and Taiwan's International Way out to advance conclusions about Taiwan's political transformation from both comparative and international perspectives Migration to and From Taiwan Kuei-fen Chiu,Dafydd Fell,Lin Ping,2014-01-21 Migration has transformed Taiwanese society in the last 20 years The main inflows have been temporary workers from Southeast Asian countries and female spouses from Southeast Asia and China marrying Taiwanese husbands The main outflow has been migration to China as a result of increased economic integration across the Taiwan Strait These changes have significantly altered Taiwan's ethnic structure and have profound social and political implications for this new democracy As large numbers of these migrants take Taiwanese citizenship and their offspring gain voting rights the impact of these new Taiwanese will continue to increase This book showcases some of the leading researchers working on migration to and from Taiwan The chapters approach migration from a range of disciplinary perspectives including international relations sociology social work film studies political science gender studies geography and political economy and so the book has great appeal to scholars and students interested in the politics of Taiwan Taiwanese society and ethnic identity as well as those focusing on migration in East Asia and comparative migration studies **New Thinking about the Taiwan Issue** Jean-Marc F. Blanchard,Dennis V. Hickey,2012-06-12 The Taiwan question has long been considered one of the most complicated and explosive issues in global politics In recent years however relations between Taiwan and the Chinese mainland have improved substantially to the surprise of many In this ground breaking collection distinguished contributors from the US Asia and Europe seek to go beyond the standard recitation of facts that often characterizes studies focusing on the Beijing Taipei dyad Rather they employ a variety of theories as well as both quantitative and qualitative methodologies to analyze the ebbs and flows of the Taiwan issue Their discussions clearly illuminate why there is a Taiwan Problem why conflict did not escalate to war between 2000 and 2008 and why cross Strait relations improved after 2008 The book further reveals the limits of realism as a device to gain traction into the Taiwan issue demonstrates the importance of taking into account domestic political variables and shows how theory can be used to advance the cause of better China Taiwan relations and to analyze the potential for future conflict over Taiwan New Thinking about the Taiwan Issue is essential reading not only for students scholars and practitioners with an interest in studying relations across the Taiwan Strait but also for any reader interested in economics international relations comparative politics or political theory *Political Parties and the Crisis of Democracy* Thomas Poguntke,Wilhelm Hofmeister,2024-06-25 Democracy is in decline and the share of world's population living in freedom under democratic government has decreased considerably as authoritarian practices proliferate Surprisingly most of the analyses that study these developments give little attention to the role of political parties in the decline of democracy although there is a broad

consensus about the relevance of political parties for the functioning of democracy How parties can contribute to democracy is best understood by looking at a very diverse range of cases in different parts of the world Instead of taking a regional approach which dominates the literature on political parties this volume takes a global perspective It brings together experts from four continents which opens up fresh comparative perspectives on the role of political parties in the democratic process Political Parties and the Crisis of Democracy asks how parties contribute to the consolidation of democracy why they fail today why new parties emerge and displace old parties and also what parties need to do in order to survive cutthroat competition above all with a new and sometimes not so new variants of populist parties It takes a unique global focus covering old and new democracies in different regions of the world It covers Western and Central Europe Asia Pacific Latin America and Africa Turkey and Israel including presidential semi presidential and parliamentary democracies and also some countries where democracy is seriously threatened or eroding This volume offers unique comparative perspectives combined with a detailed analysis of individual countries and their party systems It shows that parties are central actors for the consolidation of democracy but that organisational reforms are necessary to cope with social change such as individualisation the decline in party membership and the impact of new media and modern communication thus counteracting the fragmentation of party systems and the decay of democracy This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations

Changing Taiwanese Identities J. Bruce Jacobs, Peter Kang, 2017-08-03 The peoples of Taiwan have been influenced by many different cultures and migrations throughout the island's history In the 20th and early 21st centuries especially it has been a stage for cultural and ethnic conflict not least because of the arrival of mainland Chinese fleeing the Chinese Communist Revolution The subsequent tensions between those who see Taiwan as a natural territory of China and those who would prefer to see it remain independent have brought to the fore questions of what it is to be Taiwanese This book addresses the question of how Taiwanese identities have changed after the Taiwanization process which began in the 1990s It also examines the impact of this process on cross strait relations between Taiwan and the People's Republic of China after the return of the Kuomintang to power after 2008 and the Sunflower movement in 2014 The various contributors between them cover a range of topics including the waves of migration to Taiwan changes of political regimes generational differences and social movements Taken as a whole this book presents a nuanced picture of the patchwork of identities which exist in contemporary Taiwan
