**Scandinavian Defense** John Roush, Mark Lance, Mike Cornell, 1998-01-01      **The Italian Gambit (and) A Guiding Repertoire For White - E4!** George Laven, 2003-12-16

New ideas technical novelties and more on the age old Italian game with 4 d4 allowing the sharp and forcing Italian Gambit to emerge This move a surprising one to many transforms the classic Giouco Piano or literally the quiet game into anything but its revered and somewhat sedate namesake Black's third move 3 Bc5 seems safe and allows the second player plenty of time to develop quietly for positional play This will occur on White playing almost any reasonable move except for the center assaulting initiative gaining 4 d4 being the main focus of this endeavor 4 d4 is clearly a forcing move Black must react Whatever unfolds from this point White will have central control lead in development the initiative and it is White not Black who will get the first emerging opportunities Accurate play by Black is necessary to hold and neutralize the initial gains of opposition and it will be difficult to demonstrate anything better than equality or that White cannot claim real compensation for the gambit pawn This Book involves no less than three 3 years of study Master analysis including complete computer verification of all important variations Volume II This masterful work is short yet concise and to the point guiding the 1 e4 player in handling and management of all of Black's classing opening responses 1 Nf6 Alekhine's 1 e6 French 1 d6 Pirc 1 d5 Scandinavian 1 c6 Caro Kann 1 c5 Sicilian 1 Nc6 Nimzowitsch These lines have been studied and developed over many years by the venerable Chess Master and teacher Jude Acers they are the essential and recommended lines for all play that commences 1 e4 but are especially effective for the new limited time controls in present and future tournament play All levels whether they be the first or second side of the board will discover fresh arsenals for both attack and defense As White once you embrace and you will these to the point openings this book will take you via clear reference to the sources of future study As Black you must be prepared The reader will not be overwhelmed by masses of theory or endless analytical variations but shall discover how and where to find such material A clear opening guide for the newer player A no nonsense opening system for the more advanced player New concepts for the Upper Echelon of chess to meet the coming evolution of Knockout and less time in serious tournament play STAY ON TOP become a world super star in the global phenomena of mass appeal Author Jude Acers For more information please visit [www.italiangambit.com](http://www.italiangambit.com) There is brand new theory and some re discoveries of old forgotten games and ideas This is a very rich book The Miami Variation 1 e4 e5 2 Nf3 Nc6 3 Bc4 Bc5 4 d4 Bxd4 5 Nxd4 Nxd4 6 Be3 6 0 0 Nf6 could transpose to Koltanowski's line was the brainchild of amateur George Laven Review by FIDE Master Allan Savage SQUARES Magazine Fall issue 2003 FOREWORD by NM Randy Bauer To read Jeremy Silman's review of this book please visit [www.jeremysilman.com](http://www.jeremysilman.com)

**Modern Chess Openings, 15th Edition** Nick de Firmian, 2008-04-08 A completely revised and updated edition of the classic English language reference on chess openings first published more than fifty years ago Modern Chess Openings is the best and most trusted tool for serious chess players on the market An invaluable resource for club and tournament players it

now includes information on recent matches and the most up to date theory on chess openings Modern Chess Openings is ideal for intermediate players ready to elevate their game to the next level or International Grandmasters who want to stay on top of recent chess innovations

**Gambit Openings Repertoire For Black** Eric Schiller,1998-03 In most chess games white has the privilege of attacking first but there are ways for black to turn the tables right from the start In this exciting repertoire of gambits black immediately seizes the initiative from White s hands and begins powerful attacks

**Positional Attacks** Joel Johnson,2014-02-28 The third installment of the best selling series of attack books Formation Attacks Formation Attack Strategies and now Positional Attacks is another 500 page book full of great attack information with 532 fabulous attack games from all openings and all eras The aim of Positional Attacks is to uncover the artistic side of attacking one that is primarily centered on the creation and exploitation of weaknesses Oh sure there will be tactics after all they cannot be avoided in chess nor would we want to exclude them But there is nothing quite like witnessing chess masters dissect their opponents with smooth elegant aggressive positional attacking maneuvers And once again the games provided in the book came from an in depth global search for unique inspirational and original attacks from some of the world s greatest attackers Many of them toil in remote areas of the planet and have only a local following

*Kaufman's New Repertoire for Black and White* Larry Kaufmann,2019-10-29 Seven years after his acclaimed and bestselling The Kaufman Repertoire for Black and White Grandmaster Larry Kaufman is back with his new repertoire book covering the entire scope of chess openings in one volume Two important developments made this new book necessary Larry Kaufman who routinely himself plays the lines he advocates to others discovered that after 1 d4 the recommendation in his previous book it became nearly impossible to show a consistent advantage for White especially against the Gruenfeld and the Nimzo Ragozin defenses The other factor was that chess engines have become so much stronger in recent years Komodo the top chess engine that computer expert Kaufman helped develop is now able to apply the celebrated Monte Carlo Tree Search algorithm With Komodo MCTS it is now possible to abandon lines that may be theoretically best against other computers and instead choose lines that are likely to succeed in actual practice against strong human opponents Larry Kaufman presents a completely new White repertoire with 1 e4 aiming for an objective advantage in the simplest practical manner You are presented with two options while you don t have to play the sharpest lines The Black repertoire has been thoroughly revised and updated with some crucial chapters replaced

Kaufman s New Repertoire for Black and White is the first opening book that is primarily based on Monte Carlo search The highly original analysis has resulted in many improvements on existing theory This is a ready to go and easy to digest repertoire with sound practical lines that do not outdate rapidly and are suitable for masters while accessible for amateurs

Center Counter Defense Selby Anderson,1997 The Portuguese Variation after 1 e4 d5 2 exd5 Nf6 3 d4 Bg4 ranks as Black s most combative system in the Center Counter Defense closely allied to the Icelandic gambit 1 e4 d5 2 exd5 Nf6 3 c4 e6 also covered here In the Portuguese Black offers a pawn for rapid development and the chance to exploit weak squares in the

enemy camp The resulting play is sharp and trappy with plenty of coffeehouse flavor for those wishing to mix it up as Black An added benefit is the newness of the line which came into prominence only in the early 1990s Therefore many players of White can still be caught unaware falling victim to an early knockout No mere surprise weapon however the Portuguese has been tested in the fire of world class tournament chess Proof of the line s vitality is it s adoption by aggressive Grandmasters such as Spraggett Hodgson Shirov and Hebden This book is the first devoted exclusively to the Portuguese Variation In a research tour de force NM Selby Anderson has assembled all relevant games and articles then fed it to top chess engines like Fritz and Chess Machine Consequently the high percentage of original analysis found here stands in stark contrast to the typical opening monograph Players of any level will appreciate the author s light and witty approach all the while dispensing lethal doses of tactical toxins Pity the poor player who stumbles into the Portuguese without this book **Chess Life** ,2006

*Unorthodox Chess Openings* Eric Schiller,1998 This inclusive guide to every unorthodox opening used by chess players contains more than 500 weird contentious controversial unconventional arrogant and outright strange openings A powerful part of any chess player s arsenal these tricky tacky surprises fly in the face of tradition 1 000 illustrations and diagrams

**My First Chess Opening Repertoire for Black** Vincent Moret,2017-09-28 Every chess player needs to decide which openings he or she is going to play But where do you start The risk of drowning in the turbulent sea of chess opening theory is only too real for beginning amateurs Often your goals and ambitions will be misguided If you are trying to win in 20 moves copy what s in fashion among top GM s or memorize variations you are wasting your time Most likely you will never get to play your preparation and end up aimlessly switching from one opening to the other After the success of his volume for White experienced French chess trainer Vincent Moret now provides a complete ready to go chess opening repertoire for Black It consists of a sound set of lines that do not outdate rapidly do not require memorization and are easy to digest for beginners and post beginners To show the typical plans and the underlying ideas in the various lines of his repertoire Moret not only selected games of Grandmasters He also uses games of young improving players to highlight the errors they tend to make
