Nash,2002-09-11 A significant work by one of anthropology's most important scholars this book provides an introduction to the Chiapas Mayan community of Mexico better known for their role in the Zapatista Rebellion      **Health and Health Care in Developing Countries** Peter Conrad,Eugene B. Gallagher,2011 The volume covers a range of areas central Africa Nigeria Singapore Taiwan Indonesia Nepal China United Arab Emirates Oman and Mexico and a broad scope of topics from emergency care the AIDS epidemic and women's health care to public health programs and national health care policies

Contributors address the central question of whether health systems in developing areas should emphasize the role of clinical medicine and individual physicians or community and preventive medical resources. The major health problems faced by these societies— inadequate sanitation, infectious disease, high infant child mortality, and a lack of family planning— indicate the greater need for health educators and public health workers. Despite many poor nations' desire for Western doctors, other topics that are examined include the process of seeking medical aid, the relationship between traditional and modern medicines, medical education, hospital care, and communication between doctors and patients in developing countries, and the relevance and application of sociology in Third World settings. This volume seeks to draw attention to the significance of medical sociology for understanding Third World health problems and to show how examining developing societies may necessitate reframing or modifying some Western sociological notions.

**The Politics of Joking** Jana Kopelent Rehak, Susanna Trnka, 2018-10-25  
 This book engages anthropologically with humor as political expression. It reveals how humor is in many instances central to human efforts to cope with political struggle and significant to understanding power dynamics in socio-political life. The chapters examine humor and joking activities across a diverse range of geographic areas and cultural contexts. The contributors consider humor as it is constituted in political anxiety, aggression, and power, and when it becomes a tool to resist, repair, reconcile, or make a moral claim. Collectively, they demonstrate that humor can provide a powerful critique, a non-violent form of political protest, and the space for restoration of human dignity.

**He Restores Our Soul** Stafford Miller, 2001-11-20  
 The path of the gospel and the path of justice cannot be separated. As disciples of the Lord Jesus Christ, his faith community must somehow join them together in our pilgrimage. By putting justice into practice on behalf of those who need it, the gospel is strengthened. In this way, divine justice. Christians can then actively take part by demonstrating the loving acts of God. It is my hope that you will be inspired to assume a Biblical balance of what justice is, how we have acquired a posture of unjustice, finally, how divine justice can be achieved. Many persons suppose that Jesus's role on earth was to give us inner joy and peace and to prepare us for eternal life. Were as I do agree, I also affirm that eternal life begins now. Jesus also lifts up a theological balance of faith and justice. And my book entitled *He Restores our Soul* shows how this balance of faith and divine justice can be achieved.

Mexican Social Policy Bruce Nord, 1994  
 This work lays out a history of Mexico's progress in several areas of social policy in the 20th century. A range of motive factors for the enhancement of specific areas are examined, as well as the general pattern. While cost factors are considered as the ultimate basis for the expansion or contraction of areas, many

other factors are crucially involved including the progressive constitution the imbedded human values the structure of the sexenio elite and external machinations The mundane control of labour and social unrest are not overlooked as motive forces
