Scarlet Tunic Robert Gordon Teather, 1997 Corporal Robert Teather invites readers inside the police cars and the hearts of the RCMP in these stories of his fellow police officers and the challenges they face Teather was a 28 year veteran of the RCMP who won the Commissioner's Commendation the Force's highest honour and the Canadian Cross of Valour Canada's highest award for bravery

BC Provincial Police Stories: Volume Two Cecil Clark, 1986-05 West Kootenay's tragic The Miner Who Died Eight Times Murder on Okanagan Lake Death Rode a Pinto Pony The Cremation of Siboo Singh Kitwancool Drums Throbbled a War Dance The Parking Ticket that Killed Three Men and Hangman's Tree at Lillooet *Honoured in Places* William Joseph Hulgaard, John Wesley White, 2002 Ever since the Canadian prairies were first settled and the Mounties marched west to establish and maintain law and order the names of individual officers have left their mark on the national landscape Their long tradition has been honoured in many of the place names of Canada especially in the West In this collection over 250 of the NWMP RNWMP and RCMP members who died while on duty or who enjoyed long or extraordinary careers are remembered Other place names are connected to a Mountie related event or were named by a pioneering Mountie in honour of some significant occurrence Authors William Bill Hulgaard and John Jack White both retired Mounties extended their research across Canada to compile the information for *Honoured in Places*

Riding to the Rescue Steve Hewitt, 2006-12-15 The Mountie may be one of Canada's best known national symbols yet much of the post nineteenth century history of the Royal Canadian Mounted Police remains unexamined particularly the period between 1914 and 1939 when the RCMP underwent enormous transformation The nature of this transformation as it took place in Alberta and Saskatchewan where the Mounties have traditionally dominated policing is the focus of Steve Hewitt's *Riding to the Rescue* During the 1914 to 1939 period the nineteenth century model of the RCMP was evolving into a twentieth century version and the institution that emerged responded to a nation that was being transformed as well Forces such as industrialization mass immigration urbanization and political radicalism compelled the Mounties to look away from the frontier and toward a new era Incorporating previously classified material which explores the RCMP both in the context of its ordinary policing role and in its work as Canada's domestic spy agency Hewitt demonstrates how much of the impetus behind the RCMP's transformation was ensuring its own survival and continued relevance *Riding to the Rescue* is a provocative and incisive look behind one of Canada's most enduring icons at the cusp of the modern era

Sitting Bull's Boss Ian Anderson, 2000 James Morrow Walsh can rightfully be called the original Mountie In late 1873 he led the first troop of scarlet coated policemen toward the great Canadian prairie In the summer of 1875 he was assigned to construct Fort Walsh in the Cypress Hills above the Canada U S border Below the border or medicine line as the Sioux Nation knew it 15 000 Native Americans were drawn a year later to the camp of Sitting Bull on the Little Bighorn River By 1877 newspaper headlines from Chicago to New York tweaked the curiosity of millions by referring to Walsh as Sitting Bull's Boss The years leading up to those headlines and the

times that followed were the most dramatic era in the history of the west Just Watch Us Christabelle Sethna, Steve Hewitt, 2018-03-21 From the late 1960s to the mid 1980s in the midst of the Cold War and second wave feminism the RCMP security service prompted by fears of left wing and communist subversion monitored and infiltrated the women s liberation movement in Canada and Quebec Just Watch Us investigates why and how this movement was targeted weighing carefully the presumed threat its left wing ties presented to the Canadian government against the defiant challenge its campaign for gender equality posed to Canadian society Based on a close reading of thousands of pages of RCMP documents declassified under Canada s Access to Information Act and the corresponding Privacy Act Just Watch Us demonstrates that the security service s longstanding anti Communist focus distorted its threat assessment of feminist organizing Combining gender analysis and critical approaches to state surveillance Christabelle Sethna and Steve Hewitt consider the machinations of the RCMP including its bureaucratic evolution intelligence gathering operations and impact as well as the evolution of the women s liberation movement from its broad transnational influences to its elusive quest for unity among women across lines of ideology and identity Significantly the authors also grapple with the historiographical methodological and ethical difficulties of working with declassified security documents and sensitive information A sharp eyed inquiry into spy policies and tactics in Cold War Canada Just Watch Us speaks to the serious political implications of state surveillance for social justice activism in liberal democracies *In the Mind of a Mountie* T. Scalpburner Tom Lonergan,2008-04 The questions of our origin and cosmic abundance of life are among the most compelling facing humanity We have determined much about the nature and origin of the Universe and our place in it but with virtually all evidence of our origin long since gone from our world and an unimaginably vast Universe still to explore defining answers are difficult to obtain For all of the difficulties facing us however the planet Mars may act as a cosmic stepping stone in uncovering some of the answers Although different today the origin and early history of both Earth and Mars may have been similar enough to consider an origin to life on both But because Mars planetary processes collapsed over three billion years ago just as life was beginning to flourish on Earth a significant and unique record of activity from that era perhaps relevant to the origin of life still resides there today In recognition of this both the US and Europe are currently engaged in one of the most ambitious programs of exploration ever undertaken Built on our legacy of Mars exploration from the Viking era and before a far reaching phased program of robotic exploration now and over the coming decades aims at obtaining definitive answers about the origin and nature of the red planet and what it has to say about the origin and cosmic abundance of life This book examines these issues in one of the most comprehensive treatments ever written about the planet Mars and our legacy of engagement with it in language suitable for non expert and expert alike Opening chapters consider the question of life in the Universe and the origin of life on Earth and what challenges face us in uncovering defining answers With a realization of its importance in this the next section examines the legacy of our engagement with Mars From Kepler s work on its orbit Schiaparelli s efforts to resolve its surface features and NASA s Mariner and Viking programs attempting to determine whether life resides upon the surface Mars has remained elusive yet always prodding and extending our capabilities in exploration and our perception of our place in the Universe Subsequent chapters consider our current understanding of the planet and the recently devised comprehensive program for scientific exploration All recent current and upcoming missions and the latest findings are discussed in detail providing our best understanding yet of a vast and ancient landscape indeed characterized by significant activity relevant to our quest and which also points to a planet far from dead today Late chapters consider NASA and ESA plans for Mars over the next thirty years increasingly shaped by the scientific successes to date unprecedented public interest and by issues of planetary protection And with mounting political interest our program for Mars may culminate in a human mission to Mars perhaps sometime around 2040 The greatest discovery however remains to be made If even one microbe is found on Mars it will reveal a cosmic context for life with Earth as one place among many harboring life confirming our cosmic origins and destiny Pock's World Dave Duncan,2014-04-01 Journey to a quarantined planet in this entertaining fast moving and thoughtful science fiction novel S M Stirling On the outskirts of the Ayne Sector sits Pock s World Years ago humankind settled the planet Now it might or might not have been

infested by humanoid aliens hidden amongst the populace waiting to interbreed and use humans as incubators for their parasitic spawn Five people are chosen to travel to the quarantined Pock s World to find out whether it should be sterilized of all life a ruthless priest a scandal seeking reporter an ambitious politician a bureaucrat and a questionable billionaire Each has his or her own agenda as to what they wish to find on that distant planet Instead they discover the unexpected a web of deceit love politics and religion With very little time left there don t seem to be any simple answers in the complicated universe of Pock s World From the celebrated author of Portal of a Thousand Worlds and the Seventh Sword series this is a suspenseful adventure from Dave Duncan who has produced one excellent book after another Locus **Books In Print**
