P. BRUEN,2012-07-05 The Scattered Memories Series Revised Special Edition previously written under the pseudonym name of G 2b G is a compilation of Scattered Memories Series a Childhood Scorned LIFE after the SHATTER and Chasing the BUTTERFLY Cat begins her journey to healing by sharing memories from her childhood As she shares her memories she s then forced to share the chaotic moments when her life began spiraling out of control One day life is normal and then all of a sudden normal was exchanged for struggles pain tears secrets Take a swift journey through the mess the struggles and the torment of Cat s life and the lives of those around her See their struggle and how it knocks them down but witness how they land back on their feet Failure Colin Feltham,2014-09-03 Failure success s ugly sister is inevitable cognitively biologically and morally We all make mistakes we all die and we all get it wrong A chain of flaws can be traced through all phenomena natural and human We see impending and actual failures in individual lives in marriages careers in religion education psychotherapy business nations and in entire civilizations And there are chronic and imperceptible failures in everyday domains that most of the time we barely notice often until it is too late Colin Feltham expores what constitutes failure across

a number of domains He takes guidance from the work of such diverse philosophers and thinkers as Diogenes Epictetus Augustine Schopenhauer Kierkegaard Heidegger Sartre Camus Cioran and Ricoeur while also drawing on the insights of artists and writers such as van Gogh Arthur Miller Philip Larkin Samuel Beckett Charles Bukowski and Philip Roth Precursors and partial synonyms for failure can be seen in the concepts of hamartia sin fallenness non being false consciousness and anthropathology Philosophy can help us but is itself in its reliance on language and logic subject to inherent flaws and failures It is the very pervasiveness yet common denial of failure which makes it a compelling topic that cries out for honest analysis We live in a time when the cliché of failed Marxism may be segueing frighteningly for some into the failure of selfish capitalism in a time of geopolitical uncertainty and failure to address the dire need for agreement and action on climate change But many of us are also painfully aware of our own shortcomings our own weakness of will and lack of authenticity Trying to identify where the lines may be drawn between individual responsibility social policy and historical and biological dark forces is a key challenge in this fascinating book

Miles,2024-05-28 St Augustine was known as a theologian of feeling for many centuries Renaissance painters pictured him holding his passionately blazing heart in his hand In Augustine s society and education feeling was considered an intimate and integral aspect of thinking so intimately interwoven that philosophers struggled to distinguish these activities Thus Augustine was also committed to learning throughout his passionate and thoughtful life from his early conviction that God and the soul can be known through the meticulous use of reason to mature sermons in which he quoted God is love and commented in effect that is all you need to know about God The role of feeling in his understanding of the effect of Christian doctrines on present life has been less noticed This book proposes that changes in his perception of the value and significance of human bodies from objects of rapacious lust to rapturous admiration of their beauty form the nexus within which Augustine s thought and feeling cohere The old Augustine s understanding of the theological significance of present bodies informed his acknowledged speculations on the qualities and capacities of beautiful bodies nunc et tunc *On Vanishing* Lynn Casteel Harper,2020-04-14 A New York Times Book Review Editors Choice This beautifully unconventional book on dementia reframes our understanding of Alzheimer s and aging with sensitivity and accuracy New York Times Personal stories weave with meditations on history philosophy and more in this moving collection of essays for dementia patients and their families An estimated 50 million people in the world suffer from dementia Diseases such as Alzheimer s erase parts of one s memory but are also often said to erase the self People don t simply die from such diseases they are imagined in the cliché s of our era as vanishing in plain sight fading away or enduring a long goodbye In *On Vanishing* Lynn Casteel Harper a Baptist minister and nursing home chaplain investigates the myths and metaphors surrounding dementia and aging addressing not only the indignities caused by the condition but also by the rhetoric surrounding it Harper asks essential questions about the nature of our outsized fear of dementia the stigma this fear may create and what it might mean for us all to try to vanish well Weaving together personal stories with theology history philosophy literature and science Harper confronts our elemental fears of disappearance and

death drawing on her own experiences with people with dementia both in the American healthcare system and within her own family In the course of unpacking her own stories and encounters of leading a prayer group on a dementia unit of meeting individuals dismissed as already gone and finding them still possessed of complex vital inner lives of witnessing her grandfather s final years with Alzheimer s and discovering her own heightened genetic risk of succumbing to the disease Harper engages in an exploration of dementia that is unlike anything written before on the subject A rich and startling book on dementia On Vanishing reveals cognitive change as it truly is an essential aspect of what it means to be mortal *It Is My Garden!
