Scattering Eva:

Wax Crystal Control - Nanocomposites - Stimuli-Responsive Polymers ,2007-11-03 Dammtor James

Sheard,2010-09-02 Dammtor is the old city gate and now the centre of ground transport for the great port of Hamburg In James Sheard s second collection it is a station for midnights hitched up on stone legs hollow with sunken light a hub for the damaged and deracinated These precise wounded poems draw the reader through this desolate landscape through sexual longing sexual violence bereavement and the beginning of hope through the birth of a son Dammtor restlessly narrates the condition of maleness looking for truth and music in a voice which is both urgent and unadorned The poems are spoken in solitary places late night stations hotel lobbies car rides and empty woodland but they are addressed to the living the missing the dead and the just born Personal and political narratives leak into the spaces of the poems to form a strange light which has something of the hallucinatory clarity of translations The voice might be by turn elegaic vicious obsessive or bewildered as it explores its topic but it is accompanied by an eye which will not or perhaps cannot blink Finding tenderness amid brutality Dammtor is a highly accomplished and remarkable collection

Scattering Eva James Sheard,2005 In this remarkably assured and elegant first collection James Sheard tackles the subject of the individual in European history Ideologies and upheavals old and new pervade the environment of his poetry and what emerge are those moments when his characters connect however briefly with the forces that surround them

Resonant Tunneling in Semiconductors Leroy L. Chang,E. E. Mendez,C. Tejedor,1991 Forty nine contributions from the May 1990 meeting begin with an introduction followed by discussions of different material systems with various band structure effects Properties associated with dynamic processes are then described including electron scattering and charge storage Specific situati

Proceedings Of The Xxi International Symposium C Pajares,1993-08-12 By adopting the approach of simulating actual morning report sessions experienced by hospital doctors Clinical Case Studies in Pediatrics provides a compendium of commonly seen types of pediatrics cases that require hospital admission Each case study is presented by description of indication of admission to the hospital the physical examination and laboratory test results followed by a differential diagnosis discussion of the differential diagnosis and finally an in depth discussion of the actual diagnosis Study and review questions which will help medical students or pediatricians in training to apply their knowledge are also included This book will not only be useful to medical students it can also be a handy reference for pediatricians and doctors in training

Polymer Blends and Mixtures D.J. Walsh,J.S. Higgins,A. Maconnachie,2012-12-06 A couple of years ago a small group of people began discuss sing the possibility of running an advanced summer school in the area of polymer blends There had been a number of recent advan ces in this field and given the considerable interest in these new polymeric materials we thought such a meeting would be well received both by industry and academia We wanted it to contain a wide range of background

science and technology and also up to date recent advances in the field It became clear as the discussion progressed that the experts in the field were scattered over the length and breadth of Europe and North America and thus the cost of bringing them together for a summer school would necessitate a high registration fee which would deter many of the research workers we wished to attract The NATO Advanced Study Institute programme enables a subject to be covered in depth and by giving generous funds to cover lecturers costs ensures that a wide spectrum of research workers can attend We decided to apply to NATO and this book contains the results of our request The ASI was funded under the Double Jump Programme which is not a new Olympic event but a way of supporting courses on subjects of direct industrial interest The Institute was also backed by donations from several companies and approximately half those attending were from industrial organisations

Biennial Report of the Secretary of State of the State of Kansas Kansas. Secretary of State,1916 Laser Induced Damage in Optical Materials ,1999 **Adventures in the Play-Ritual Continuum** Audun Kjus,Jakob Löfgren,Clíona O'Carroll,Simon Poole,Ida Tolgensbakk,2025-02-21 The junctions between play and ritual are many and complex Play is for fun and joy but it also demands a total commitment and serious respect for rules Rituals involve nearly endless varieties of social arrangements and can truly transform people but they also include improvisation testing and pretending Adventures in the Play Ritual Continuum explores the connectivity between the playful and the ritualized through a fresh theoretical perspective highlighting the creative messiness and the cultural paradoxes such intersections allow The chapters span topics such as hen parties marriage proposals ash scatterings extreme sports races football fans computer game festivals celebrations of fandom migration heritages and antiracist protests While the case studies are selected to show a range of diversity with various mergings of play game ritual ceremony rite and ritualizing the introductory and concluding discussions offer sharpened perspectives on common aspects Following these excursions through the play ritual continuum will be enjoyable for readers interested in how people make sense of their own existence and profitable for scholars in folklore anthropology religion pedagogy cultural studies and social sciences and humanities more generally Molecular Spectra and Molecular Structure K. Huber,2013-06-29 Since the publication in 1950 of Vol I Spectra of Diatomic Molecules of Molecular Spectra and Molecular Structure much progress has been made in the field While there have been some important refinements in the theory of diatomic molecular spectra most of the advances have been in the further exploration of individual spectra Not only has the number of molecules about which some spectroscopic data are available been increased by a factor of 2 to 3 but also the spectroscopic information about the molecules known in 1950 has been vastly extended This is due to the observation of new electronic states about three times as many as known before the enormous improvements in the accuracy of the constants of the states known in 1950 and the determination of higher order constants In view of the increasing use of spectroscopic information on diatomic molecules in other fields of physics in chemistry and in astrophysics it appeared desirable to prepare an up to date version of the table of molecular constants in the appendix of Vol I This

updating proved to be far more time consuming than originally anticipated and it is only now 10 years that we are able to present such a table which instead after its initiation of the original 80 pages plus 30 pages of bibliography now fills a volume of 700 pages In the interest of economy and unlike the original version the new table has been produced by photo offset from the final manuscript

Perspectives on Photon Interactions with Hadrons and Nuclei Martin Schumacher,1990-09-21

The topics treated in this volume are intermediate and high energy nuclear physics with real and virtual photons and the interplay between nuclear and particle physics The first part devoted to vector mesons is also intended to explore the scientific perspectives of a new generation of electron accelerators The second part is devoted to physics currently under study at intermediate energy real photon facilities with some emphasis on the Compton effect and its relation to quark models

Advances in Nanotechnology Research and Application: 2012 Edition,2012-12-26

Advances in Nanotechnology Research and Application 2012 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Nanotechnology The editors have built Advances in Nanotechnology Research and Application 2012 Edition on the vast information databases of ScholarlyNews You can expect the information about Nanotechnology in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Advances in Nanotechnology Research and Application 2012 Edition has been produced by the world's leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>
