Confluence Narratives Antonio Luciano de Andrade Tosta, 2016-10-19 Confluence Narratives Ethnicity History and Nation Making in the Americas explores how a collection of contemporary novels calls attention to the impact of ethnicity on national identities in the Americas These historical narratives portray the cultural encounters the conflicts and alliances peaceful borrowings and violent seizures that have characterized the history of the American continents since the colonial period In the second half of the twentieth century North and South American readers have witnessed a steady output of novels that revisit moments of cultural confluence as a means of revising national histories Confluence Narratives proposes that these historical novels published in such places as Brazil Argentina Mexico the United States and Canada make up a key literary genre in the Americas The genre links the various parts of the hemisphere together through three common historical experiences colonization slavery and immigration Luciano Tosta demonstrates how numerous texts from the United States Canada Spanish America the Caribbean and Brazil fall into the genre The book focuses on four case studies from ethnic groups in the Americas Amerindians Afro descendants Jewish Americans and Japanese Americans Tosta uses the experience of the American nations as a springboard to problematize the concept of the

contemporary nation an identity marked by border crossings and other experiences of deterritorialization Based on the exploration of confluence narratives Tosta argues that the contemporary nation is not as contemporary as one may think Informed by postcolonial theory and transnational and ethnic studies this book offers an important comparative study for and of inter American literature Its analysis of the representation of cultural encounters within distinctive national histories underscores the complex nature of otherness in the Americas as well as the inherently transcultural aspect of a trans continental American identity

**Anything But Novel** Jennie Irene Daniels, 2023-11-08 The first in depth study in English to analyze post utopian historical novels written during and in the wake of brutal Latin American dictatorships and authoritarian regimes During neoliberal reforms in the 1980s and 1990s murder repression and exile had reduced the number of intellectuals and Leftists and many succumbed to or were coopted by market forces and ideologies The opposition to the economic violence of neoliberal projects lacked a united front and feasible alternatives to the contemporary order no longer seemed to exist In this context some Latin American literary intellectuals penned post utopian historical novels as a means to reconstruct memory of significant moments in national history Through the distortion and superimposition of distinct genres within the narratives authors of post utopian historical novels incorporated literary cultural and political traditions to expose contemporary challenges that were rooted in unresolved past conflicts In *Anything but Novel* Jennie Irene Daniels closely examines four post utopian novels *Csar Aira s Ema la cautiva* Rubem Fonseca s *O Selvagem da pera* Jos Miguel Varas s *El correo de Bagdad* and Santiago Prez s *Crnicas del Breve Reino* to make their contributions more accessible and to synthesize and highlight the literary and social interventions they make Although the countries the novels focus on Argentina Brazil Chile and Ecuador differ widely in politics regime changes historical precedents geography and demographics the development of a shared subgenre among the literary elite suggests a common experience and interpretation of contemporary events across Latin America These novels complement one another extending shared themes and critiques Daniels argues the novels demonstrate that alternatives exist to neoliberalism even in times when it appears there are none Another contribution of these novels is their repositioning of the Latin American literary intellectuals who have advocated for the marginalized in their societies Their work has opened new avenues and developed previous lines of research in feminist queer and ethnic studies and for nonwhite nonmale writers

**Roads to Dystopia, Sociological Essay on the Post Modern Condition (c)** Stanford M. Lyman, 2001

**Crime Scenes**, 2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their

different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing Such approaches can yield valuable insights Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision spareness realism are the qualities singled out for praise The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche The role of the reader spectator and critic in conferring meaning is a crucial one
