Playing with the Book Hannah Field,2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children s literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children s reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions Playing with the Book argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading

Ancoats Branch,1872 *The Civilization of the Renaissance in Italy* Jacob Burckhardt,2020-12-01 The Civilization of the Renaissance in Italy 1860 is a work of art history by Swiss historian Jacob Burckhardt Recognized today as the founder of modern art history and as one of the key thinkers of the nineteenth century Burckhardt changed not only the way we think about the Renaissance in relation to European and world history but the value placed on art as a tool for understanding historical developments The Civilization of the Renaissance in Italy begins with a section on the historical events which sparked the Renaissance focusing especially on the frequent military conflicts which marred the era as well as on the constant political upheavals undergone by such Italian regions and cities as Rome Venice and Florence Burckhardt then moves to a philosophical discussion of the development of individuality in Italian culture arguing that the political circumstances of those living in the Republics enabled such thinkers as Dante and Petrarch to create art that corresponded with that newfound sense of individuality The third section discusses one of the key elements of Renaissance culture the revival of interest in the cultural products of the ancient world especially Greece and Rome Part four focuses on the prominence of discovery in Renaissance culture for which Burckhardt looks to the colonial expedition of Columbus the growth of the natural sciences and the achievements of such poets and writers as Dante Petrarch and Boccaccio in discovering new ways to describe humanity and the human spirit In the fifth section the importance of societal customs and festivals is discussed and in the sixth and final part Burckhardt observes the profound shifts undergone by religion and morality in Italy at the time The Civilization of the Renaissance in Italy is a thorough dynamic work of art history that not only changed the study of history at universities around the world but elevated the status of art in understanding the process of cultural change With a beautifully designed cover and professionally typeset manuscript this edition of Jacob Burckhardt s The Civilization of the Renaissance in Italy is a classic of European art history reimagined for modern readers
