Schatten Der Macht Roman:

Schatten der Macht Sidney Sheldon, 2017-09-01 Ein altes Kloster in Griechenland eine junge Frau ohne Erinnerung und ein skrupelloser Reeder mit einem dunklen Geheimnis Hochspannung pur von Weltbestsellerautor Sidney Sheldon Nach einem Unfall leidet Catherine Alexander an Amnesie und kann sich an ihr bisheriges Leben nicht erinnern Seitdem lebt sie zurückgezogen in einem alten Kloster in Griechenland Constantin Demiris steinreicher Reeder und großzügiger Unterstützer des Klosters kennt die junge Amerikanerin genau doch er hütet sich ihre Identität preiszugeben Denn Demiris hatte vor Jahren dafür gesorgt dass Catherine's Mann Larry zum Tode verurteilt wurde Während sie verzweifelt daran arbeitet ihre Erinnerungen zurückzuholen setzt der skrupellose Reeder alles daran dass Catherine niemals erfährt wer sie wirklich ist

The Holy Roman Empire, Reconsidered Jason Philip Coy, Benjamin Marschke, David Warren Sabean, 2010-10-01 The Holy Roman Empire has often been anachronistically assumed to have been defunct long before it was actually dissolved at the beginning of the nineteenth century The authors of this volume reconsider the significance of the Empire in the sixteenth seventeenth and eighteenth centuries Their research reveals the continual importance of the Empire as a stage and audience for symbolic performance and communication as a well utilized problem solving and conflict resolving supra governmental institution and as an imagined political religious and cultural world for contemporaries This volume by leading scholars offers a dramatic reappraisal of politics religion and culture and also represents a major revision of the history of the Holy Roman Empire in the early modern period

Lordship and State Transformation Stephan Sander-Faes, 2024-12-17 Although state transformation continuous struggle and bargaining between rulers and their subjects producing an unpredictable variety of political structures is often overlooked the process is crucial in assessing the organizational development of early modern composite monarchies and deserves further investigation In Austria the monarchy's emergence as a great power required it to overcome several successive crises that culminated in the decades around 1700 The Habsburgs succeeded more by adjusting relations between Crown and lordships than through institution building This unusual interaction of state and non state actors resulted in an Austria that markedly deviated from the centralizing nation state exemplified by Britain or France The nascent Habsburg fiscal financial military regime transformed regional and local authority leading to armed conflict and causing disintegration of the administrative and social fabric From the mid seventeenth century onward power whether local or central or social or political would undergo enormous changes Grounded in extensive research into Czech archives and spanning an era from the Thirty Years War to the coronation of Charles VI Lordship and State Transformation delves into the complex transitions that characterized the first instance of a balance of power in Europe with a focus on its underresearched great power the Habsburg monarchy

Embodiments of Power Gary B. Cohen, Franz A. J. Szabo, 2008-07-01 The period of the baroque late sixteenth to mid eighteenth centuries saw extensive reconfiguration of European cities and their public spaces Yet this transformation cannot be limited merely to signifying a style of art

architecture and decor Rather the dynamism emotionality and potential for grandeur that were inherent in the baroque style developed in close interaction with the need and desire of post Reformation Europeans to find visual expression for the new political confessional and societal realities Highly illustrated this volume examines these complex interrelationships among architecture and art power religion and society from a wide range of viewpoints and localities From Krakow to Madrid and from Naples to Dresden cities were reconfigured visually as well as politically and socially Power in both its political and architectural guises had to be negotiated among constituents ranging from monarchs and high churchmen to ordinary citizens Within this process both rulers and ruled were transformed Europe left behind the last vestiges of the medieval and arrived on the threshold of the modern

More than Mere Spectacle Klaas Van Gelder,2021-02-02 Across the medieval and early modern eras new rulers were celebrated with increasingly elaborate coronations and inaugurations that symbolically conferred legitimacy and political power upon them
