The Lutheran World Almanac for ... and Encyclopedia ... ,1926 **The American Whitaker Almanac and Encyclopedia for ...** ,1915 Cycles of Time and Meaning in the Mexican Books of Fate Elizabeth Hill Boone, 2013-05-17 In communities throughout precontact Mesoamerica calendar priests and diviners relied on pictographic almanacs to predict the fate of newborns to guide people in choosing marriage partners and auspicious wedding dates to know when to plant and harvest crops and to be successful in many of life's activities As the Spanish colonized Mesoamerica in the sixteenth century they made a determined effort to destroy these books in which the Aztec and neighboring peoples recorded their understanding of the invisible world of the sacred calendar and the cosmic forces and supernaturals that adhered to time Today only a few of these divinatory codices survive Visually complex esoteric and strikingly beautiful painted books such as the famous Codex Borgia and Codex Borbonicus still serve as portals into the ancient Mexican calendrical systems and the cycles of time and meaning they encode In this comprehensive study Elizabeth Hill Boone analyzes the entire extant corpus of Mexican divinatory codices and offers a masterful explanation of the genre as a whole She introduces the sacred divinatory calendar and the calendar priests and diviners who owned and used the books Boone then explains the graphic vocabulary of the calendar and its prophetic forces and describes the organizing principles that structure the codices She shows how they form almanacs that either offer general purpose guidance or focus topically on specific aspects of life such as birth marriage agriculture and rain travel and the forces of the planet Venus Boone also tackles two major areas of controversy the great narrative passage in the Codex Borgia which she freshly interprets as a cosmic narrative of creation and the disputed origins of the codices which she argues grew out of a single religious and divinatory system *The Scottish Church and University Almanac* ,1900 **The World Almanac & Book of Facts** ,1918 **The Lutheran World Almanac and Annual Encyclopedia for ...** ,1922 **Civil War Almanac** John C. A Guide to Grants, Fellowships, and Scholarships in International Forestry and Natural Resources Damon Anthony Job, 1995 The World Almanac and Book of Facts ,1914 Lists news events population figures and miscellaneous data of an historic economic scientific and social nature **Handbook on Intangible Cultural Practices as Global Strategies for the Future** Christoph Wulf, 2024-12-14 This open access handbook is the first to take stock of and to provide a comprehensive international interdisciplinary review of developments in living culture since the Convention on

Safeguarding Intangible Cultural Heritage began in 2003. It is based on an expanded concept of culture as it has been used in UNESCO since the 1980s and signed by more than 180 countries. The convention makes clear the significant role of the Global South in raising planetary awareness of the importance of intangible cultural practices. The first part of the book examines the relationship between the 1972 World Heritage Convention and the 2003 Convention on Intangible Cultural Heritage. The second part of the book focuses on colonialism, minorities, inequality, and the struggle for human rights. Perspectives from Nigeria, Brazil, and the US show how colonialism still has a lasting effect today and what role the practices of intangible cultural heritage play in the struggles for the recognition of minorities. The third part looks at the contribution of intangible cultural heritage practices to the creation of meaning, community, and identity. How are these practices designed so that they allow as much participation as possible and lead to a successful handling of conflicts? The focus is on bottom-up processes. Part four examines several areas of aesthetics, including music, dance, song, museum, architecture, and theater, showing the importance of the aesthetic dimension and its contribution to the formation of individuals and communities. The fifth and final part of the book examines central problems of living culture and intangible cultural practices. This includes articles on new forms of community building, significance of digital and post-digital culture, and metaphors. In the coming decades, intangible cultural heritage practices will become increasingly important for sustainable and peaceful planetary communication, to which the balance of this book and the perspectives based on it will make a significant contribution.
