School Desegregation Crosscultural Perspectives:

School Desegregation Y. Amir, S. Sharan, R. Ben-Ari, 2013-02-01 Published in the year 1984 School Desegregation is a valuable contribution to the field of Education School Desegregation Research Jeffrey Prager, Douglas Longshore, Melvin Seeman, 2012-12-06 The desegregation situation is the keynote theme of the following chapters I Each of them touches on a different dimension of the situation the historical the temporal the spatial But the reader perusing the essays with the situation in mind should remember that the desegregation situation should not be interpreted literally Authorities and adults certainly school age children probably are influenced by their awareness of a sequence of past and future situations Some may even operate with William James's 1890 p 608 notion of the specious present that has melted in our grasp fled ere we could touch it gone in the instant of becoming thus reducing the potency of the present situation Others may be dancing to a slower tempo of change thus becoming more responsive to the present situation Whatever the perceived tempo many must share the view that the future may reverse the direction of the past Some may see that new future direction as unswerving unending or long lasting others may see it as short lived And it is through attention to the phenomenological description of desegregation that these issues can be explored a theme that is considered in several of the following chapters Cultural Diversity And The Schools James Lynch, Celia Modgil, Sohan Modgil, 1992 Addresses the accommodation of social equity with cultural diversity in educational terms The book seeks to find the pathways to a less selfish and parochial response to the problem with new approaches and policies *Conflicting Philosophies of Education in Israel/Palestine* Ilan Gur-Ze'ev, 2013-06-29 effectiveness and creativity in different contexts In this issue this will be presented in full detail in the articles which refer to different aspects of the Israeli educational context This special issue of Studies in Philosophy and Education concentrates on the intellectual impotence moral devotion cultural willingness and social and technological efforts for the preservation and enhancement of the tyranny of normalizing education over human beings in a specific arena The various studies in this issue with all their differences of orientation and issues under consideration will reconstruct the ways for forcing subjects and communities to commit themselves to destroy the otherness or the human potential of the inner and external Other They reveal this phenomenon as a characteristic of both the victimizers and their 8 victims Normally philosophy of education supports this process and justifies or hides this reality As will be shown in this special issue however at the same time philosophy of education might also become a non productive or even a rebellious element in the culture industry and present a serious challenge to the present order It can address and challenge the perpetual success of normalizing education in all its versions among all rival communities narratives and armies of teachers consumers soldiers and intellectuals This of course does not guarantee that such a critique or resistance will not become another dogmatic or nihilistic blow to the free Spirit or nothing but another version of normalizing education **Jewish Day Schools, Jewish Communities** Alex Pomson, Howard Deitcher, 2009-02-01 Cross cultural and genuinely comparative this consideration of

Jewish day schools around the world reframes day school research and policy making and offers original insights into faith based schooling and the public good *Beyond The Dead-end Alley Of Mass Education* Chaim Adler,2019-08-27 This book deals with the realm of education getting beyond the dead end of mass education in the context of Israeli education system It analyzes the aims and target populations of educational fostering and illustrates the dead end situation of the educational system **Cross-Cultural Perspectives on Early Childhood** Theodora Papatheodorou,Janet Moyles,2012-01-24 By exploring the key issues arguments and messages that exist in the field this book provides an international comparative look at aspects of early childhood education and care Pedagogical practices learning cultures and the professional development of practitioners are considered within the wider political agenda of different countries Pertinent policy and practice issues such as numeracy and literacy are carefully examined The text highlights how important it is to engage with and listen to children to provide positive learning encounters Divided into four parts the book covers children s learning cultures culture of pedagogy cultural perspectives on curriculum cultures of professional development Chapters cover key topics such as multi sensory learning outdoor learning children s voice children as mentors literacy and mathematics With expert contributors drawn from across the world this book is vital reading for all those studying comparative education on early years courses Theodora Papatheodorou PhD is an early years educator and researcher Janet Moyles is Professor Emeritus at the Faculty of Education Anglia Ruskin University and an early years consultant *The First Amendment in Cross-Cultural Perspective* Ronald J. Krotoszynski Jr.,Ronald J. Krotoszynski,2009-03 The First Amendment and its guarantee of free speech for all Americans has been at the center of scholarly and public debate since the birth of the Constitution and the fervor in which intellectuals politicians and ordinary citizens approach the topic shows no sign of abating as the legal boundaries and definitions of free speech are continually evolving and facing new challenges Such discussions have generally remained within the boundaries of the U S Constitution and its American context but consideration of free speech in other industrial democracies can offer valuable insights into the relationship between free speech and democracy on a larger and more global scale thereby shedding new light on some unexamined and untested assumptions that underlie U S free speech doctrine Ronald J Krotoszynski Jr compares the First Amendment with free speech law in Japan Canada Germany and the United Kingdom countries that are all considered modern democracies but have radically different understandings of what constitutes free speech Challenging the popular and largely American assertion that free speech is inherently necessary for democracy to thrive Krotoszynski contends that it is very difficult to speak of free speech in universalist terms when the concept is examined from a framework of comparative law that takes cultural difference into full account *Learning to Cooperate, Cooperating to Learn* R. Hertz-Lazarowitz,S. Kagan,S. Sharan,R. Slavin,C. Webb,2013-11-11 This book was written and edited as a project of the International Association for the Study of Cooperation in Education IASCE It grew directly out of the second conference of the IASCE held at Brigham Young University Provo Utah in July 1982 The chapters in

the book were originally presented in some form at the Provo conference though most have been considerably revised since that time This is the second book sponsored by the IASCE the first Cooperation in Education Provo Utah Brigham Young University Press 1980 edited by Shlomo Sharan Paul Hare Clark Webb and Rachel Hertz Lazarowitz was based on the proceedings of the first conference of the IASCE in Tel Aviv Israel in 1979 The IASCE is a group of educators interested in studying developing or applying cooperative methods at various levels of the process of education It includes researchers teacher educators teachers and school administrators from more than a dozen countries

Education and Disability in Cross-Cultural Perspective Susan Jeanne Peters, 2013-11-26 A radical departure from previous chronicles of education for people with disabilities this book views special education from a broader perspective Its central thesis is that cultural values and expectations play a dominant role in understanding the structure and function of special education While theories of the social construction of disability have been written about in a growing body of research since the 1960s no attempt has been made to create a cross cultural framework This work offers such a framework Eight chapters written by educators in each country's educational system cover the following nations China Great Britain Hungary Japan Iran Pakistan United States and Zimbabwe Historical discussions in each chapter provide a context for current practice An index and illustrations are also included

Desegregation Corbin Shepherd, AI, 2025-05-06 School Desegregation delves into the complex history of integrating American public schools revealing how the promise of equal opportunity under the Fourteenth Amendment clashed with deeply ingrained racial segregation This historical analysis examines the legal battles political strategies and social transformations that shaped education during the Civil Rights Movement and beyond The book highlights the landmark Brown v Board of Education decision and the subsequent resistance to desegregation illustrating that legal victories alone do not guarantee social change One intriguing aspect explored is the massive resistance movement in the South where states actively fought against integration efforts The book takes a chronological and thematic approach beginning with pre Brown legal precedents like Plessy v Ferguson and progressing through the implementation of desegregation policies It dissects the strategies used to resist integration including the creation of private academies and analyzes the federal government's role in enforcing desegregation The analysis of local school board meeting minutes offers unique insights into the difficulties faced at the local level Ultimately the book addresses the persistent achievement gap and contemporary challenges such as re segregation and school choice providing a comprehensive understanding of the ongoing struggle for equal education

Stereotyping and Prejudice Daniel Bar-Tal, Carl F. Graumann, Arie W. Kruglanski, Wolfgang Stroebe, 2013-11-11 The

study of stereotyping and prejudice is a study of human nature group membership and intergroup relationships. It sheds light on each of these aspects of social psychology. With respect to the first two, it has been observed that since groups provide the best framework for satisfying various human needs, individuals continuously organize themselves in collectives. They belong to a variety of groups, many of which they voluntarily select and some to which they are ascribed. Group membership therefore is one of the most salient and important of an individual's characteristics. The implication of this characteristic is that human beings not only constantly classify other people into group categories either by identifying membership or constructing their own categories but also judge and evaluate them on this basis. The stereotypes and prejudice are outcomes of this process. They are the beliefs and attitudes toward members of another group. In addition, the study of stereotyping and prejudice reflects an interest in intergroup relationships. While we recognize that a discussion of intergroup relationships may focus on behaviors describing actions such as confrontations, violence, wars, cooperation, alliance, negotiation, or coordination, we also believe that each of these intergroup behaviors is mediated by perceptions, beliefs, and attitudes. In the case of intergroup behaviors, the listed actions are not performed instinctively or mindlessly but are preceded by cognitive processes which among other outputs involve the formation of stereotypes and prejudice toward the other group.
