Second Handbook Of Psychological And Social Instruments:

Second Handbook of Psychological and Social Instruments D M. Pestonjee, 1988 **Second Handbook of Psychological and Social Instruments** D. M. Pestonjee, 1988 *First Handbook of Psychological and Social Instruments* Uday Pareek, T. Venkateswara Rao, 1992 **Doing Social Research: A Source Book For Preparing Dissertation** Dr. D.K. Lal Das, 2008-04 The book *Doing Social Research A Source Book for Preparing Dissertation* meets the long felt need of a comprehensive and up to date book on preparing dissertation The book provides for the basics of social research and highlights the intricacies of various stages of preparation of dissertation for a post graduate and doctoral degree The focus of the book is on operational aspects of dissertation The book answers well to the related questions to meet the quality of a dissertation at length the following questions about *Doing Social Research* How to select a research Problem How to identify objectives of the study How to formulate hypothesis How to select a sample How to construct a research instrument How to process data How to analyse data How to write a research report *The Handbook of International Psychology* Michael J. Stevens, Danny Wedding, 2005-07-05 World events have raised pressing questions of psychology as it is practiced all over the globe *The Handbook of International Psychology* chronicles the discipline of psychology as it evolves in different regions in the hope of reducing the isolated parochial and ethnocentric nature of the American profession It surveys the history methodology education and training and the future of psychology in nine distinct regions across six continents They represent long histories in the field such as the United States and the United Kingdom emerging practices such as Uganda Korea and Spain the lesser known philosophies of China and histories marked by massive social change as in Poland and Iran The editors have carefully selected contributors as well as an editorial board created especially for this project Each chapter follows a uniform outline unifying the volume as a whole but allowing for the cultural diversity and status of psychology in each country *Handbook of Psychological and Social Instruments* Uday Narain Pareek, T. Venkateswara Rao, 1974 Data gathering instruments developed in India *The Corsini Encyclopedia of Psychology, Volume 2* Irving B. Weiner, W. Edward Craighead, 2010-01-19 Psychologists researchers teachers and students need complete and comprehensive information in the fields of psychology and behavioral science *The Corsini Encyclopedia of Psychology Volume Two* has been the reference of choice for almost three decades This indispensable resource is updated and expanded to include much new material It uniquely and effectively blends psychology and behavioral science *The Fourth Edition* features over 1 200 entries complete coverage of DSM disorders and a bibliography of over 10 000 citations Readers will benefit from up to date and authoritative coverage of every major area of psychology **Methodologies in Peace Psychology** Diane Bretherton, Siew Fang Law, 2015-09-03 This volume looks at research methods through the lens of peace studies and peace values Apart from reviewing established methods from peace psychology it presents some innovative ideas for conducting research in the area of peace psychology Many of these methods are drawn from the field from activities used by active peace practitioners A

critical component of this volume is its core argument that peace research should be conducted by peaceful means and should model peaceful processes. Organized thematically, the volume begins with a review of the established best practices in peace psychology research methodology including methods for qualitative research for quantitative research and participative action networks. In doing so, it also points to some of the limitations of working for peace within the tradition of a single discipline and to the need to expand psychology methodology to methodologies. Therefore, the second half of the volume proceeds to explore the realm of innovative, relatively unorthodox research methods such as participatory and workshop methods, the creative arts and sports for research purposes. The use of new advances in information technology to conduct peaceful research are also discussed. The concluding chapters synthesize key issues from the previous chapters and link peace psychology with ideas and implementation of research designs and practices. Finally, it discusses the nature of academic knowledge and more specifically academic knowledge in peace psychology and where that fits into the mission to build a more peaceful world. Overall, this book aims to provide peace psychologists with an array of possibilities and best practices for approaching their research. Many researchers find the experience of doing research a somewhat lonely, if not isolating experience. Methodologies in Peace Psychology: Peace Research by Peaceful Means aims to alleviate this feeling as the use of these more innovative methods leads to a closer engagement with the community and a much more social experience of research. This volume is a useful tool for both new and experienced researchers because it provides leads for idealistic young researchers who want their work to make a difference, in addition to encouraging more reflection and analysis for experienced peace psychologists.
