Second Opinion Doctors Diseases And Decisions In Modern Medicine:

Second Opinion Richard C. Horton, 2003 Richard Horton for many years editor of The Lancet examines the history of the relationship between doctor and patient from ancient times to present day The essays cover subjects including the impact of modern warfare on health services the debate over euthanasia controversies over HIV and Aids the human genome project The Sociology of Health, Healing, and Illness Gregory L. Weiss, 2017-02-24 With and the debate over the gay gene thorough coverage of inequality in health care access and practice this leading textbook has been widely acclaimed by teachers as the most accessible of any available It introduces and integrates recent research in medical sociology and emphasizes the importance of race class gender throughout This new edition leads students through the complexities of the evolving Affordable Care Act It significantly expands coverage of medical technology end of life issues and alternative and complementary health care topics students typically debate in the classroom Many new textboxes and enhancements in pedagogy grace this new edition which is essential in the fast changing area of health care New to this Edition More textboxes relating the social aspects of medicine to students lives Expanded coverage leading students through the complex impacts of the ACA and health care reform Expanded coverage of medical technology end of life issues and alternative and complementary health care Health and the Internet sections updated and renovated toward student assignments New end of The Sociology of Health and Illness Sarah Nettleton, 2020-11-10 Sarah Nettleton chapter lists of terms Updated test bank s The Sociology of Health and Illness has become a cornerstone text popular with students and academics alike for its rigorous and accessible overview of the field Building on these strengths the fourth edition integrates fresh insights from the current literature with the core tenets of traditional medical sociology providing students with a thorough grounding in the sociology of health and illness The text covers a diversity of topics and draws on a wide range of analytic approaches spanning issues such as the social construction of medical knowledge the analysis of lay health beliefs concepts of lifestyles and risk the experience of illness and the sociology of the body It also explores matters that are central to health policy such as professional patient relationships health inequalities and the changing nature of health care work A new chapter has been added on the sociology of mental health other chapters have been updated with illustrative examples and questions for discussion Written for students of the social sciences this book will also appeal to students taking vocational degrees such as nursing medicine and public health who require a sociological grounding in the area Thoroughly revised and fully updated this fourth edition will prove invaluable to anyone looking for a clear and engaging introduction to contemporary debates Sheather, 2019-10-01 This fascinating entry in The Big Idea series lays out the ethical implications and the costs of modern medicine Over the course of human history medicine has achieved incredible successes but at what cost This latest book in The Big Idea series explores the state of modern medicine examining the ethics of medical and healthcare practices and the

impact they have on modern life This fascinating analysis engages with the debate surrounding the escalating costs both financial and ethical of medicine today Intelligent and provocative Is Medicine Still Good for Us dissects common assumptions about medicine helping the reader create their own informed opinion about its extraordinary achievements limitations injustices and inevitable failures Dr Julian Sheather an ethics adviser to Doctors Without Borders contextualizes medicine as a science art institution and ideology outlining the pros and cons of what medicine has become in the signature Big Idea textual approach Accompanying Sheather's text are numerous informative illustrations that deepen the reader's understanding of the material A timely addition to the series this book will engage those who love to debate who are interested in ethics and philosophy and those working in the medical field A doctor's order. The Dutch Case of Evidence-Based Medicine (1970-2015) Timo Bolt, 2015-08-28 In the early 1990s a new concept was coined evidence based medicine EBM After a remarkably short time EBM was virtually all pervasive in medicine and healthcare throughout the world Even outside the domain of healthcare the new concept became fashionable for example in the shape of pleas for evidence based management and evidence based policy In short evidence based developed into one of the mantras of the current era This book uses history as a tool to gain insight into the highly influential but also elusive and multifaceted phenomenon of EBM As such A Doctor's Order is a must read for patients professionals managers and policy makers in healthcare as well as for anyone who is interested in understanding the present socio political order Trusting Science Kostas Kampourakis, 2025 Certain scientific fields have long been battlegrounds of controversy echoing a deep seated public distrust towards science This distrust is especially pronounced in areas of policy science that is science that informs policy decisions such as vaccination programs This book explores the roots of this distrust setting it apart from outright denial of science While absolute denial is rare distrust can be quite widespread often nourished by personal experiences or the persuasive testimonies of others Trusting Science embarks on a journey to uncover some underexplored causes of science distrust It thus underscores the necessity of demystifying science by illuminating the nature of scientific evidence the inevitable presence of uncertainty the indispensable role of expertise and the subtle sway of personal biases Drawing on historical examples from vaccination and other life sciences Trusting Science offers opportunities for reflection about how science is done and argues that a renaissance in science education and communication is crucial for cultivating realistic expectations and rebuilding public trust in science The Panic Virus Seth Mnookin, 2012-01-03 A searing account of how vaccine opponents have used the media to spread their message of panic despite no scientific evidence to support them

<u>Disease Control Priorities in Developing Countries</u> Dean T. Jamison, Joel G. Breman, Anthony R. Measham, George Alleyne, Mariam Claeson, David B. Evans, Prabhat Jha, Anne Mills, Philip Musgrove, 2006-04-02 Based on careful analysis of burden of disease and the costs of of the costs of of Disease Control Priorities in Developing Countries 2nd edition highlights achievable priorities measures progress toward providing efficient equitable care promotes cost

effective interventions to targeted populations and encourages integrated efforts to optimize health Nearly 500 experts scientists epidemiologists health economists academicians and public health practitioners from around the worldcontributed to the data sources and methodologies and identified challenges and priorities resulting in this integrated comprehensivereference volume on the state of health in developing countries **Meanings of Pain** Simon van Rysewyk, 2017-02-07 Although pain is widely recognized by clinicians and researchers as an experience pain is always felt in a patient specific way rather than experienced for what it objectively is making perceived meaning important in the study of pain The book contributors explain why meaning is important in the way that pain is felt and promote the integration of quantitative and qualitative methods to study meanings of pain For the first time in a book the study of the meanings of pain is given the attention it deserves All pain research and medicine inevitably have to negotiate how pain is perceived how meanings of pain can be described within the fabric of a person s life and neurophysiology what factors mediate them how they interact and change over time and how the relationship between patient researcher and clinician might be understood in terms of meaning Though meanings of pain are not intensively studied in contemporary pain research or thoroughly described as part of clinical assessment no pain researcher or clinician can avoid asking questions about how pain is perceived or the types of data and scientific methods relevant in discovering the answers New Technologies in Health Care A. Webster, 2006-07-25 The first detailed and comprehensive analysis of the implications of new health technologies for society the delivery of health care and the very meaning of health itself It is based on new critical social science research integrated according to core themes making it accessible and engaging to both students and researchers Primary Care Ethics Deborah Bowman, 2018-04-19 Relevant for the entire primary care team this book provides a diverse range of perspectives on current topical issues Healthcare ethics is a subject of increasing interest especially when it related to some of the challenging themes regularly discussed in the media Until now there has been little useful literature for those in primary care where ethical problems are often experienced with a unique set of issues Primary Care Ethics is rigorous and academic while remaining highly accessible for the full range of practitioners Moral and legal aspects are clearly distinguished throughout and the theme based approach is stimulating and original In providing greater depth and breadth in this subject than has been available previously the book is both practical and thought provoking and essential reading for everyone whether in academic training or practice based primary care Autism's False Prophets Paul A. Offit, 2010-04-02 Health, Risk and News Tammy Boyce, 2007 The controversy surrounding the With a new preface by the author Cover measles mumps and rubella MMR vaccine and autism has raised unprecedented questions about the communication of health and science Health Risk and News The MMR Vaccine and the Media examines how this story came to be so influential and asks if the media are to blame for unduly panicking the public Drawing on comprehensive research on media coverage interviews with a range of journalists and sources and analysis of audience opinion this book explores how medical

controversies are covered with attention to issues of balance and objectivity expertise news values risk and media effects It will be of interest to students and scholars of media studies journalists and health professionals The Handbook of Art **Therapy and Digital Technology** Ms Cathy A Malchiodi, 2018-06-21 Digital art therapy is a rapidly growing practice This book gives practical guidance on using digital technology with different client groups and considers potential ethical and professional issues A wide range of methods and media are presented including animation therapeutic photography and the MMR and Autism Michael Fitzpatrick, 2004-08-02 The MMR controversy has been characterized use of apps and games by two one sided discourses In the medical world the weight of opinion is overwhelmingly in favour of MMR In the public world the anti MMR campaign has a much greater influence centred on the fears of parents that the triple vaccine may cause autism in their children Both professionals and parents struggle to cope with the anxieties this creates but find it difficult to find a balanced account of the issues In MMR and Autism Michael Fitzpatrick a general practitioner who is also the parent of an autistic child explains why he believes the anti MMR campaign is misguided in a way that will reassure parents considering vaccination and also relieve the anxieties of parents of autistic children At the same time this informative book provides health care professionals and health studies students with an accessible overview of a contemporary health issue **Arts Development in Community Health** Mike White, 2024-11-01 This book with significant policy implications considers how and why the field of arts development in community health has come about the characteristics of its practice and the challenges it poses for evaluation It summarises what has been learnt from a number of case studies and other forms of research from the UK and elsewhere **BLIND SPOTS** Henrik Isager MD, PhD, 2014-03-14 In spite of increasing use of advanced technology the patient orientated field of medical science clinical medicine has by and large retained the mechanistic substantial perception of reality inherited from the scientific communities of the eighteenth and nineteenth centuries In contrast physics bade farewell to this view more than a century ago and now conceives the world primarily as a dynamic continuum of energy Biochemists now regard structural substantially orientated and dynamic energetically orientated aspects of biochemistry as complementary and equally important As seen from the perspective of the history of ideas the anachronistic world view of clinical medicine a view that can be characterised as dogmatic substantialism places it in an outdated position compared with physics and biochemistry a position from which the existence of biologically relevant energetic phenomena cannot be recognised as such simply because they are not supposed to exist During the latest three decades the epidemic of energy loss which comprises the diagnostic entities ME CFS fibromyalgia multiple chemical sensitivity consequences of whiplash injury and several other conditions has affected Western societies increasingly and caused significant humanitarian social and economical problems It is no exaggeration to state that the confrontation between conventional clinical medicine and the epidemic of energy loss has created confusion and all too often absurdities Isager attempts a thorough analysis of this situation and its historical and ideological roots emphasising epistemological problems

problems concerned with how we know and how or why we do not know **Modern and Global Avurveda** Dagmar Wujastyk, Frederick M.
