Cracking the Japanese Market James Morgan, 1991-04-04 Global business today is played by

new rules many of which are being written by the Japanese and their remarkably successful companies. Because the Japanese are redefining business as we know it, Western companies expecting to profit from the new global marketplace must first learn to compete and succeed against the Japanese in Japan. James C. Morgan, Chairman of Applied Materials Inc., the leading supplier of advanced processing equipment to the worldwide semiconductor industry, which does about forty percent of its business in Japan, and J. Jeffrey Morgan, who has worked in Tokyo on the inside at Mitsui Co., Japan's oldest trading conglomerate, contend that apathy and ignorance have prevented many Western companies from capitalizing on the enormous opportunities for business in Japan. In this brilliant examination of Japanese markets, companies and business practices, with special emphasis on the establishment of Applied Materials Japan, the Morgans' father and son assert that success in the world of Japanese business is determined by two factors: technology and relationships. Candidly discussing their own mistakes and failures as well as their triumphs, the authors provide invaluable insights into the specific challenges facing Western companies in establishing a presence in Japan: problems in financing, the venture product design and production, marketing and distribution, and most important, creating long-term relationships or putting on a Japanese face. The extraordinary success of Applied Materials Japan, hailed by George Bush on the campaign trail in 1988 as a model for all America, is testimony to the valuable lessons to be learned from this book. The Morgans provide a clearly written, step-by-step framework for reorienting company thinking, revising corporate strategy, and revitalizing any organization for world-class competitiveness. Using vivid examples of Western companies that have both succeeded admirably and failed miserably in Japan, *Cracking the Japanese Market* is a straightforward examination of what it takes to compete successfully there and, by extension, in the world today. Japanese American Evacuation Redress, United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Administrative Practice and Procedure, 1984. The American Catalog, 1880. **Japanese Resistance to American Financial Hegemony**, Fumihito Gotoh, 2019-10-01. This book investigates why the convergence of Japan's bank-centered financial system to an American-style capital market-based model has lost steam since the mid-2000s despite financial deregulation during the 1980s and 1990s. Examining the ideational conflict within Japanese elites between the market liberalization and anti-free market camps, it scrutinizes the American and Japanese credit rating agencies operating in Tokyo and explores the differences between the two major industrial associations, Keidanren and Doyukai, which have played a key role as ideational platforms for Japanese corporate society. The book emphasizes the concept of systemic support, whose broadened definition incorporates dominant elites' support and protection of subordinates in exchange for the latter's obedience and loyalty. It argues that Japanese society's anti-liberal, anti-free market norms centered on systemic support are a form of counter-hegemony, and this has resisted American financial hegemony, promoting international capital mobility and

capital markets and prevented capitalist dominance from severing long term social ties such as management labor cooperation and corporate group alliances Yet this resistance has generated growing problems for Japan With a focus on social norms bureaucracy credit rating agencies industrial associations and corporate governance this book will provide useful insights for scholars and students of international political economy sociology cultural studies and business studies
