Second World War The Anglo American Conflict With The Axis Powers 1941 1945

Mark Stoler

Second World War The Anglo American Conflict With The Axis Powers 1941 1945:

Allies in War: Britain and America against the Axis Powers, 1940-1945 Mark Stoler, 2022-10-24 Some historians are great because they write great books others because they write books that need to be written Mark A Stoler has done both *Allies in War* offers an accessible and gracefully written synthesis of the wealth of new and important scholarship addressing American and British grand strategy during World War II *Allies in War* presents a global overview of Anglo American cooperation against the Axis powers with a chronological account of the major diplomatic and military events It begins with a brief summary of World War I and the interwar years continues through the capitulation of Japan in September 1945 and concludes with a short discussion of the origins of the Cold War Stoler's story also covers the world war like a world war Each chapter covers major developments in every theater Stoler makes particular effort to recognize the critical role of the Soviet Union in winning World War II and its impact on Anglo American strategy *Allies in War* is a versatile work with a lot of uses Both students and professionals will find rewards This volume will be an excellent tool for teaching survey and elective history courses It will also aid in understanding the dynamics that attend coalition warfare *The Journal of American History* A decided tour de force Stoler provides an excellent and readable overview on a global scale of the interrelated wartime military strategic and diplomatic decisions and contributions of the United States and Great Britain Stoler's forte is elegantly concise syntheses of massive outpourings of scholarship in both military and diplomatic history and judicious balanced and stimulating assessments of often controversial issues Lucid balanced nuanced and acute giving equal space to the wars in both Europe and Asia Stoler's interpretive overview is a valuable and welcome addition to its field *The Journal of Military History* This is the work of a mature historian comfortably in command of his material using his considerable experience to construct a tightly controlled narrative that carries the reader forward with little effort on his or her part a sure sign of considerable effort on the part of the writer Stoler's book is much more than the synthesis it might appear to be It is a masterly summary of existing scholarship but one enriched by his own knowledge of the archival and secondary material this book shines when it comes to grand strategy the reader wanting a potted and accurate evolution of Anglo American grand strategy will find all he or she will need here *The International History Review* Mark Stoler is supremely well qualified to undertake this volume Previous studies of Anglo American relations during the Second World War tend to focus on either the war in Europe or the war in the Pacific The originality of Stoler's approach is that he wants to cover both He seeks as well to incorporate the results of relatively recent publications on the Second World War The results are impressive Stoler's writing is a major strength of this book Stoler provides admirable surveys of the major historical controversies of the Anglo American war against the Axis powers such as the efficacy of the Allied strategic bombing campaign the utility of the Italian campaign and the continuing debate over the dropping of the atomic bombs on Hiroshima and Nagasaki Anyone who teaches courses on the history of the Second World War will find this volume a valuable resource

The Journal of Modern History
 Allies in War is a solid survey of the war an effective synthesis of the most troublesome aspects of the special Britain US relationship
 Naval History Magazine An important new study by one of the leading scholars in the field David Reynolds University of Cambridge *Historical Dictionary of World War II* Anne Sharp Wells,2013-12-24
 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7 9 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis members was fought primarily in Europe the Mediterranean the Middle East East and North Africa and the Atlantic Ocean The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain the United States and the Union of Soviet Socialist Republics The Historical Dictionary of World War II The War against Germany and Italy relates the history of this war through a chronology an introductory essay maps and photos and an extensive bibliography The dictionary section has more than 300 cross referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II **Crucible of Power** Howard Jones,2008-03-20 This book is a narrative history of America s foreign affairs from 1897 to the present that focuses on the major personalities and events from the William McKinley administration through President George W Bush *The A to Z of U.S. Diplomacy from World War I through World War II* Martin Folly,Niall Palmer,2010-04-20 The period from the outset of World War I to the end of World War II was among the most significant in the history of the United States Twice it was drawn into foreign entanglements wars it initially thought were no concern of its own and of which it tried to steer clear only to realize that it could not stand aside With each one it geared up in record time entered the fray massively and was crucial to the outcome Each war tested the American people and their leaders and in each case the country came out of the conflagration stronger than before and even more important yet stronger relative to other countries than it had ever been This was the period when the United States became a world leader The A to Z of U S Diplomacy from World War I through World War II relates the events of this crucial period in U S history through a chronology an introductory essay and over 600 cross referenced dictionary entries on key persons places events institutions and organizations *America in the World* Frank Costigliola,Michael J. Hogan,2013-12-23 This volume includes historiographical surveys of American foreign relations since 1941 by some of the country s leading historians Some of the essays offer sweeping overviews of the major trends in the field of foreign international relations history Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field *A Companion to Franklin D. Roosevelt* William D. Pederson,2011-03-21 A Companion to Franklin D Roosevelt

presents a collection of historiographical essays by leading scholars that provides a comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars

Historical Dictionary of U.S. Diplomacy from World War I through World War II Martin Folly,Niall Palmer,2010-04-01 The period from the outset of World War I to the end of World War II was among the most significant in the history of the United States Twice it was drawn into foreign entanglements wars it initially thought were no concern of its own and of which it tried to steer clear only to realize that it could not stand aside With each one it geared up in record time entered the fray massively and was crucial to the outcome Each war tested the American people and their leaders and in each case the country came out of the conflagration stronger than before and even more important yet stronger relative to other countries than it had ever been This was the period when the United States became a world leader The Historical Dictionary of U S Diplomacy from World War I through World War II relates the events of this crucial period in U S history through a chronology an introductory essay and over 600 cross referenced dictionary entries on key persons places events institutions and organizations

The British Way in Warfare: Power and the International System, 1856-1956 Keith Neilson,2016-03-16 In his groundbreaking book *The British Way in Warfare* Routledge 1990 David French outlined the skillful combination of maritime economic and diplomatic power employed by Britain to achieve its international goals Almost two decades later this collection offers a reassessment of French s thesis using it as a lens through which to explore Britain s relationship with various kinds of power military and civil and how this was employed across the globe In particular each essay addresses the ways in which the use of power manifested itself in the maintenance of Britain s place within the international system between 1856 and 1956 Adopting twin methodologies the collection firstly addresses the broad question of Britain s relationship with other Great Powers and how these influenced the strategies used before then testing these with specific case studies By taking this approach it is possible to discern which policies were successful and which failed and whether these remained constant across time and space Measuring Britain s strategy against her commercial imperial and military competitors including France the USA Italy Germany and Russia allows intriguing conclusions to be drawn about just how an essentially maritime power could compete with much larger and potentially more powerful continental rivals With contributions from an outstanding selection of military scholars this collection addresses fundamental questions about the

intersection of military economic and diplomatic history that are as relevant today as they were during the height of Britain's imperial power. It will prove essential reading not only for those with an interest in British military history but for anyone wishing to understand how power in all its multifaceted guises can be employed for national advantage on the international stage.

Allied Master Strategists David Rigby, 2012-11-15. Awarded NASOH's 2012 John Lyman Book Award for Best U.S. Naval History. *Allied Master Strategists* describes the unique and vital contribution to Allied victory in World War II made by the Combined Chiefs of Staff. Based on a combination of primary and secondary source material, this book proves that the Combined Chiefs of Staff organization was the glue holding the British American wartime alliance together. As such, the Combined Chiefs of Staff was probably the most important international organization of the Twentieth Century. Readers will get a good view of the personalities of the principals such as Field Marshal Sir Alan Brooke and Fleet Admiral Ernest J. King. The book provides insight into the relationships between the Combined Chiefs of Staff and Allied theater commanders, the role of the Combined Chiefs regarding economic mobilization and the bitter inter-Allied strategic debates in regard to OVERLORD and the war in the Pacific. This book is a must read for anyone interested in the British American alliance in World War II. Careful attention is paid in the book to the three organizations that contributed the principal membership of the Combined Chiefs of Staff: i.e. the U.S. Joint Chiefs of Staff, the British Chiefs of Staff Committee, and in the case of Sir John Dill, the British Joint Staff Mission in Washington. After providing a biographical background of the principal member of the Combined Chiefs of Staff, Rigby provides information on wartime Washington, D.C. as the home base for the Combined Chiefs of Staff organization. Detailed information is given regarding the Casablanca Conference, but the author is careful to distinguish between the formal nature of the big Allied wartime summit meetings and the much less formal day to day give and take which characterized British American strategic debates between the British Joint Staff Mission in Washington and the U.S. Joint Chiefs of Staff. Indeed, it is a major contention of the book that it is critical to remember that more than half of the meetings of the Combined Chiefs of Staff took place in Washington, D.C. in a regularly scheduled weekly pattern and not at the big Allied conferences such as Yalta. The role of the Combined Chiefs of Staff in directing the war in the Pacific and in planning the OVERLORD cross-channel invasion of western Europe respectively is covered in detail. These were the two most contentious issues with which the Combined Chiefs of Staff had to deal. Rigby attempts to answer the question of why two combative fearless warriors like Churchill and Brooke would be so unwilling to go back across the Channel and to explain the tug of war the British Chiefs of Staff had to conduct with Churchill before a British battle fleet could join the American Central Pacific Drive late in the war. The book also provides a wealth of information on the role played by members of the Combined Chiefs of Staff in the spheres of economic mobilization and wartime diplomacy. Most of all, what *Allied Master Strategists* does is to give the Combined Chiefs of Staff what they have long deserved: a book of their own, a book that is not weighted towards the U.S. Joint Chiefs on the one hand or the British Chiefs of Staff on the other, a book that is not strictly a

naval book an army book or an air book but a book that like the western alliance during World War II is truly combined in an international as well as an interservice manner The British Seaborne Empire Jeremy Black, Professor Jeremy Black, 2004-01-01 Britain's seaborne tradition is used to throw light on the British themselves the people with whom they came into contact and the British perception of empire The oceans and their shores rather than the mysterious interiors of continents certainly dominated the English perception of the transoceanic world in the sixteenth seventeenth and eighteenth centuries climaxing in the fascination with the Pacific in the age of Captain Cook and continuing into the nineteenth century with Franklin in the Arctic and Ross in the Antarctic The oceans offered much more than fascination In England from the late sixteenth century maritime conflict and imperial strength were seen as important to national morale and reputation and without it there would have been no empire or at least not in the form it actually took BOOK JACKET Arms for Russia & The Naval War in the Arctic, 1941-1945 Andrew Boyd, 2024-11-30 This major new work fundamentally reassesses the operations by the Western allies to deliver war supplies to Russia via the Arctic sea route between 1941 and 1945 It explores the motives underpinning Western aid its real impact on the Soviet war effort and its influence on wider Allied and German strategy as the war developed It brings to life key participants political and military describes the interaction of intelligence with high policy and tactics and brings a fresh perspective to key events including the notorious convoy PQ 17 The book disputes the long standing view that aid to Russia was essentially discretionary lacking military rationale and undertaken primarily to meet political objectives with only a minor impact on Soviet war potential It shows that aid was always grounded in strategic necessity with the Arctic supply route a constant preoccupation of British and American leaders absorbing perhaps twenty per cent of Royal Navy resources after 1941 and a significant share of Allied merchant shipping badly needed in other theaters The Soviet claim determinedly promoted through the Cold War that aid was marginal still influences attitudes in Vladimir Putin's Russia and contemporary Western opinion It even resonates through the present war in Ukraine Andrew Boyd demonstrates that in reality Western aid through the Arctic was a critical multiplier of Soviet military power throughout the war and perhaps even enabled Russia's very survival in 1942 and he makes plain that the British contribution to the aid effort was greater than generally acknowledged The book also emphasises that the Arctic conflict was not framed solely by the supply convoys important though they were British German and Russian operations in a theater defined by Adolph Hitler in early 1942 as the zone of destiny were shaped by other perceived opportunities and threats For instance Germany concentrated its fleet in Norway to forestall a potential British attack while attempting land offensives to cut Russia's links with its northern ports It also had vital raw materials to protect Britain explored potential operations with Russia to dislodge Germany from the Arctic coast and sever her access to important resources Elegantly written written and incorporating many new perspectives on the Arctic theater this new work should find a place on the shelves of every historian scholar and enthusiast whose interests extend to the Russian dimension of the Second World War Encyclopedia

of Conflicts since World War II James Ciment, Kenneth Hill, 2012-12-06 This copiously illustrated A Z reference presents the most in depth information available about the various conflicts the world has endured local regional and international since World War II Some 142 conflicts are discussed and analyzed The Encyclopedia of Conflict since World War II with its coverage of all the countries of the world fills a critical need for clear comprehensive explanations of events not covered in such detail in any other reference source Entries end with an extensive bibliography and the encyclopedia includes maps chronologies and a general bibliography as well as an index designed to make the reader understand the correlation and relationships between individual conflicts **Parameters** ,2004 **Torch** Vincent O'Hara, 2015-09-15 World War II had many superlatives but none like Operation Torch a series of simultaneous amphibious landings audacious commando and paratroop assaults and the Atlantic s biggest naval battle fought across a two thousand mile span of coastline in French North Africa The risk was enormous the scale breathtaking the preparations rushed the training inadequate and the ramifications profound Torch was the first combined Allied offensive and key to how the Second World War unfolded politically and militarily Nonetheless historians have treated the subject lightly perhaps because of its many ambiguities As a surprise invasion of a neutral nation it recalled German attacks against countries like Belgium Norway and Yugoslavia The operation s rationale was to aid Russia but did not do this It was supposed to get Americans troops into the fight against Germany but did so only because it failed to achieve its short term military goals There is still debate whether Torch advanced the fight against the Axis or was a wasteful dispersion of Allied strength and actually prolonged the war Torch North Africa and the Allied Path to Victory is a fresh look at this complex and controversial operation The book covers the fierce Anglo American dispute about the operation and charts how it fits into the evolution of amphibious warfare It recounts the story of the fighting focusing on the five landings Port Lyautey F dala and Safi in Morocco and Oran and Algiers in Algeria and includes air and ground actions from the initial assault to the repulse of Allied forces on the outskirts of Tunis Torch also considers the operation s context within the larger war and it incorporates the French perspective better than any English language work on the subject It shows how Torch brought France as a power back into the Allied camp how it forced the English and the Americans to work together as true coalitions partners and forge a coherent amphibious doctrine These skills were then applied to subsequent operations in the Mediterranean in the English Channel and in the Pacific The story of how this was accomplished is the story of how the Allies brought their power to bear on the enemy s continental base and won World War II *The Cambridge History of China* John King Fairbank, Denis Crispin Twitchett, 1978 International scholars and sinologists discuss culture economic growth social change political processes and foreign influences in China since the earliest pre dynastic period **A Companion to World War II** Thomas W. Zeiler, Daniel M. DuBois, 2012-12-21 A Companion to World War II brings together a series of fresh academic perspectives on World War II exploring the many cultural social and political contexts of the war Essay topics range from American anti Semitism to the experiences of French

African soldiers providing nearly 60 new contributions to the genre arranged across two comprehensive volumes A collection of original historiographic essays that include cutting edge research Analyzes the roles of neutral nations during the war Examines the war from the bottom up through the experiences of different social classes Covers the causes key battles and consequences of the war **Civil Affairs/military Government Public Health Activities** ,1976 Understanding U.S. Military Conflicts through Primary Sources James R. Arnold,Roberta Wiener,2015-11-12 An easily accessible resource that showcases the links between using documented primary sources and gaining a more nuanced understanding of military history Primary source analysis is a valuable tool that teaches students how historians utilize documents and interpret evidence from the past This four volume reference traces key decisions in U S military history from the Revolutionary War through the 21st century conflicts in Afghanistan and Iraq by examining documents relating to military strategy and national policy judgments by U S military and political leaders A comprehensive introductory essay provides readers with the context necessary to understand the relationship between diplomatic documents military correspondence and other documentation related to events that shaped warfare diplomacy and military strategy Once the stage is set the work covers 14 conflicts that are significant to U S history Treatment of each of the conflicts begins with a historical overview followed by a chronology and approximately 30 primary source documents presented in chronological order Each document is accompanied by a description and annotations and by an analysis that highlights its importance to the event or topic under discussion Designed for secondary school and college students the work will be exceptionally valuable to teachers who will appreciate the ready made lessons that fit directly into core curriculum standards *The War Seen from Britain, 1939-1945* Great Britain. Ministry of Information,1945
