## **Second Avenue El In Manhattan:**

**Second Avenue Elevated in Manhattan** Bob's Photo,1996      From a Nickel to a Token Andrew J.

Sparberg,2014-11-03 A fascinating micro history of NYC s subway system from LaGuardia s public works achievements in 1940 to the creation of the MTA in 1968 In 1940 New York Mayor Fiorello LaGuardia realized an ambitious plan to modernize the city s public transit He eliminated streetcars demolished old elevated lines and unified the subway systems From then on the IRT BMT and IND became one system under public control And by 1968 that system had transformed again into the Metropolitan Transit Authority From LaGuardia to Lindsay mayors were desperate to appease voters elected officials transit management and labor leaders Meanwhile the tumult of a changing America manifested in labor disputes economic pressures and civil rights protests Though great efforts were made to keep prices down the sacred nickel fare barrier was eventually broken By 1968 a ride cost twenty cents Featuring many photos never before published From a Nickel to a Token deftly captures four decades and five boroughs of grit chaos egos and emotions in the unending saga of New York s subway system      *Under the Sidewalks of New York* Brian J. Cudahy,1995 But as it is in no other city on earth the subway of New York is intimately woven into the fabric and identity of the city itself      **Rapid Transit Comes to the Bronx** Gregory J.

Christiano,2017-09-14 After the merger of New York City and lower Westchester in 1874 there was a heightened interest in extending rapid transit lines across the Harlem River into this new section of the city The newly acquired land was a mixture of hamlets towns villages and farms on the fringes of urban development There was great potential for economic growth But it wasn't until 1882 when the first company was formed to provide transit service to what was to become the Borough of the Bronx Continuation of elevated lines from Manhattan provided a suitable and adequate method of traveling to and from the city This stimulated construction plans and many residential and commercial buildings arose dramatically along the routes Here was material for a thrilling drama Suddenly rapid transit transformed dozens of sleepy rural unrelated communities into vibrant cohesive growing neighborhoods itching for investment and economic development Here is a history replete with flashes of genius as well a sordid spirit of greed There were battles schemes and high ambitions but in the end great things were achieved Our present generation can pay tribute to that remote past which gave us the city we know today      Inside the Apple Michelle Nevius,James Nevius,2009-03-24 How much do you actually know about New York City Did you know they tried to anchor Zeppelins at the top of the Empire State Building Or that the high rent district of Park Avenue was once so dangerous it was called Death Avenue Lively and comprehensive Inside the Apple brings to life New York s fascinating past This narrative history of New York City is the first to offer practical walking tour know how Fast paced but thorough its bite size chapters each focus on an event person or place of historical significance Rich in anecdotes and illustrations it whisks readers from colonial New Amsterdam through Manhattan s past right up to post 9 11 New York The book also works as a historical walking tour guide with 14 self guided tours maps and step by step directions Easy to carry with you as you explore

the city Inside the Apple allows you to visit the site of every story it tells This energetic wide ranging and often humorous book covers New York s most important historical moments but is always anchored in the city of today **East Harlem**

**Remembered** Christopher Bell,2013-01-01 The community of East Harlem in New York City lays claim to a rich and culturally diverse history Once home to 35 ethnicities and 27 languages the neighborhood attracted Irish Jewish and Italian immigrants in the early 20th century and later saw an influx of Puerto Rican immigrants and African Americans In this oral history former and current residents recount the early days the post World War II rise of public housing the departure of Eastern European inhabitants the growth of Latino and African American populations the spirited 1960s the urban blight of the 1980s and the more recent resurgence and gentrification This story of strength and struggle provides a vivid portrait of a fascinating community and the many resilient people who have called it home Documents of the Senate of the State of New York New York (State). Legislature. Senate,1917 Rapid Excavation and Tunneling Conference 2013 Proceedings

Michael A. DiPonio,Chris Dixon,2013 Annotation Every two years industry leaders and practitioners from around the world gather at the Rapid Excavation and Tunneling Conference RETC the authoritative program for the tunneling profession This comprehensive book includes more than 100 papers from industry experts highlighting their most recent projects and sharing real world experiences that will keep you up to date on the latest tunneling trends and technologies **The Wheels That Drove New York** Roger P. Roess,Gene Sansone,2012-08-23 The Wheels That Drove New York tells the fascinating story of how a public transportation system helped transform a small trading community on the southern tip of Manhattan island to a world financial capital that is home to more than 8 000 000 people From the earliest days of horse drawn conveyances to the wonders of one of the world s largest and most efficient subways the story links the developing history of the City itself to the growth and development of its public transit system Along the way the key role of played by the inventors builders financiers and managers of the system are highlighted New York began as a fur trading outpost run by the Dutch West India Company established after the discovery and exploration of New York Harbor and its great river by Henry Hudson It was eventually taken over by the British and the magnificent harbor provided for a growing center of trade Trade spurred industry initially those needed to support the shipping industry later spreading to various products for export When DeWitt Clinton built the Erie Canal which linked New York Harbor to the Great Lakes New York became the center of trade for all products moving into and out of the mid west As industry grew New York became a magnet for immigrants seeking refuge in a new land of opportunity The City s population continued to expand Both water and land barriers however forced virtually the entire population to live south of what is now 14th Street Densities grew dangerously and brought both disease and conflict to the poorer quarters of the Five Towns To expand the City needed to conquer land and water barriers primarily with a public transportation system By the time of the Civil War the City was at a breaking point The horse drawn public conveyances that had provided all of the public transportation services since the 1820 s needed to be replaced with

something more effective and efficient First came the elevated railroads initially powered by steam engines With the invention of electricity and the electric traction motor the elevated s were electrified and a trolley system emerged Finally in 1904 the City opened its first subway From there the City s growth to northern Manhattan and to the outer boroughs of Brooklyn Queens and the Bronx exploded The Wheels That Drove New York takes us through the present day and discusses the many challenges that the transit system has had to face over the years It also traces the conversion of the system from fully private operations through the elevated railways to the fully public system that exists today and the problems that this transformation has created along the way

**Report of the Public Service Commission for the First District of the State of New York** New York (State). Public Service Commission. First District,1908 *Engineering Record, Building Record and Sanitary Engineer* Charles Frederick Wingate, Henry C. Meyer, 1914 **Straphanger** Taras Grescoe, 2012-04-24

Taras Grescoe rides the rails all over the world and makes an elegant and impassioned case for the imminent end of car culture and the coming transportation revolution I am proud to call myself a straphanger writes Taras Grescoe The perception of public transportation in America is often unflattering a squalid last resort for those with one too many drunk driving charges too poor to afford insurance or too decrepit to get behind the wheel of a car Indeed a century of auto centric culture and city planning has left most of the country with public transportation that is underfunded ill maintained and ill conceived But as the demand for petroleum is fast outpacing the world s supply a revolution in transportation is under way Grescoe explores the ascendance of the straphangers the growing number of people who rely on public transportation to go about the business of their daily lives On a journey that takes him around the world from New York to Moscow Paris Copenhagen Tokyo Bogot Phoenix Portland Vancouver and Philadelphia Grescoe profiles public transportation here and abroad highlighting the people and ideas that may help undo the damage that car centric planning has done to our cities and create convenient affordable and sustainable urban transportation and better city living for all

**Hello (And Goodbye) To All That** Jonathan Liebson, 2025-05-15 Growing up in suburban Chicago Jonathan Liebson heard stories about the fabled New York City of his father s childhood from the World s Fair to Mayor LaGuardia to the family owned drugstore in Midtown He eventually makes his own move to the Big Apple not as a doctor like his father but as an aspiring writer and teacher Soon he forges his own indelible ties to the city and lives through important historical moments as profound as from his father s time Home to some of the country s worst tragedies and upheavals New York has also been a place of national recovery and inspiration From the days of Tower Records and The Village Voice through the era of cell phones and bike lanes Hello And Goodbye To All That combines amusing narratives from everyday life in Greenwich Village and Brooklyn with an up close and personal view of larger transformational events Follow the quirky routines of caf goers surprising encounters with celebrities and writers and the highs lows and dangers of being a New York cyclist Liebson recounts his experiences witnessing 9 11 from his roof deck and the city s aftermath living in a darkened swath of Manhattan after Hurricane Sandy being one of

twenty thousand people to see candidate Barack Obama in Washington Square Park and teaching uprooted students from the epicenter of the pandemic Populated with interesting characters Liebson s memoir presents ironic intersections between the past and present moments of grace in unexpected places and a touching intergenerational story of father and son New York and America and a common history they all share *Tunneling to the Future* Peter Derrick,2002-04 Derrick archivist Bronx County Historical Society tells the story of what was at the time the largest and most expensive single municipal project ever attempted the 1913 expansion of the New York City Dual System of Rapid Transit He considers the factors motivating the expansion the process of its design the controversies surrounding financing it and its impact on New York then and today Appendixes summarize the contracts and related certificates and list the opening dates of Dual System lines Twenty four pages of photographs are also included c Book News Inc **Engineering News and American Contract Journal** ,1903

**Manhattan's Turtle Bay** Pamela Hanlon,2008-01-01 The mid 20th century ushered in a new era for the East Midtown neighborhood of Turtle Bay The United Nations moved into its headquarters on the East River and the Third Avenue El last of Manhattan s elevated rail lines was dismantled making way for one of New York City s biggest building booms The site of large farms in colonial times Turtle Bay grew into a neighborhood of elegant brownstones in the mid 1800s only to deteriorate with the arrival of factories and slaughterhouses later in the century In the 1920s charming town houses and luxury apartments sparked a renaissance attracting influential and celebrated residents to this small town oasis in the heart of the city Manhattan s Turtle Bay tells the story of the past half century as the neighborhood recognized its role at the center of the world s diplomatic stage and adjusted to life amid the gleaming high rise towers all around **New York Supreme Court** ,1919 *Metropolitan Railways* William D. Middleton,2003 Metropolitan Railways is a large scale illustrated volume that deals with the growth and development of urban rail transit systems in North America *A Bygone Yesterday: a Family Story* Lawrence Freund,2014-10-25 A Bygone Yesterday is a remembrance written by a grandson of Samuel and Louise Freund detailing their roots in 19th century Bohemia now the Czech Republic and their shoots in the New World from New York Citys Yorkville neighborhood to Chicago and Florida It is the history of one couple that stepped aboard a train in Central Europe on a spring day in 1891 and began a journey that would transform their lives and the lives of their descendants Yet at the same time the books broad scope creates a biographical collage putting flesh on a broad sweep of history A Bygone Yesterday explores the lives of Samuel and Louise Freund their ancestors descendants and kinfolk as well as the social and historic context of the times in which they lived touching on among other things the restrictive and discriminatory family laws of 19th century Bohemia early 20th century life in the Yorkville enclave of New York City the tragedy of the Holocaust and the ultimate triumph of a warm and embracing family life Engineering News-record ,1903
