## **Second Billion Population And Family Planning In China:**

The Second Billion Penny Kane,1987      Birth Control in China 1949-2000 Thomas Scharping,2013-07-04 This comprehensive volume analyses Chinese birth policies and population developments from the founding of the People's Republic to the 2000 census The main emphasis is on China's Hardship Number One Under Heaven the highly controversial one child campaign and the violent clash between family strategies and government policies it entails Birth Control in China 1949 2000 documents an agonizing search for a way out of predicament and a protracted inner Party struggle a massive effort for social engineering and grinding problems of implementation It reveals how birth control in China is shaped by political economic and social interests bureaucratic structures and financial concerns Based on own interviews and a wealth of new statistics surveys and documents Thomas Scharping also analyses how the demographics of China have changed due to birth control policies and what the future is likely to hold This book will be of interest to students and scholars of Modern China Asian studies and the social sciences

**Comparing Environmental Policies in 16 Countries** David Howard Davis,2013-12-13 Based on the author's 39 years of teaching environmental policy working in Washington and traveling Comparing Environmental Policies in 16 Countries offers a complete primer in environmental dilemmas and policies from a comparative perspective The book covers 16 countries according to five themes participation interest groups political parti

The China Handbook Christopher Hudson,2014-06-03 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century Like the other titles in the series the China Handbook explores a wide range of complex factors including overviews of the region's economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region's economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition this resource offers a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index

Reproductive Realities in Modern China Sarah Mellors Rodriguez,2023-01-19 Sarah Mellors Rodriguez explores how ordinary people navigated China's shifting fertility policies before and during the One Child Policy era      Social Status of Women in Developing Countries Man Singh Das,Vijay Kumar Gupta,1995 The book focuses on the past traditional roles of women and also identifies direction of change rate of change and the causes of change in women's status It has also been pointed out that these recent developments in the status of women may become the future sociology of changing sex roles in the developing countries and may recast marriage and family in new and different molds

**An Essay on China's Development After the Demographic Golden Age** Xueyuan Tian,2023-03-17 This book mainly addresses China's current demographic situation and social people related policies It aims to solve the issues of demographic transition population

aging population flow urbanization population quality etc China is the first large population country with the vast territory and the huge economic system It has many issues such as productivity and production relations superstructure and economic base and domestic and international relations in various fields and at all levels Hence China needs to come up with a set of overall strategies The author sorts out all of his works in recent years and performs his new academic achievements on demographic issues and social governing strategies This timely book offers new methods that impact advanced social development with real data

*Women in China from Earliest Times to the Present* Robin Yates, 2009-07-31 This essential reference work provides an alphabetic listing with an extensive index of studies on women in China from earliest times to the present day written in Western languages primarily English French German and Italian Containing more than 2500 citations of books chapters in books and articles especially those published in the last thirty years and more than 100 titles of doctoral dissertations and Masters theses it covers works written in the disciplines of anthropology and sociology art and archaeology demography economics education fashion film and media studies history interdisciplinary studies law literature music medicine science and technology political science and religion and philosophy It also contains many citations of studies of women in Hong Kong and Taiwan

**An Introduction to Global Studies** Patricia J. Campbell, Aran MacKinnon, Christy R. Stevens, 2011-09-13 Taking an interdisciplinary approach An Introduction to Global Studies presents readers with a solid introduction to the complex interconnected forces and issues confronting today's globalized world Introduces readers to major theories key terms concepts and notable theorists Equips readers with the basic knowledge and conceptual tools necessary for thinking critically about the complex issues facing the global community Includes a variety of supplemental features to facilitate learning and enhance readers understanding of the material

**China in the 1990s** Robert Benewick, Paul Wingrove, 1999 Now updated with a chapter length afterword by the editors on the end of the Deng era and its aftermath China in the 1990s provides a comprehensive survey of a nation in transition An understanding of this complex process requires a multidisciplinary and multidimensional approach which the editors have achieved by bringing together experts from Britain the United States Europe Australia and Hong Kong who examine China's economic political military cultural and social achievements and problems The difficulties China still faces are enormous some of them of its own making pollution urban sprawl the insecurity of food supplies the risks of political authoritarianism and the perils of liberalisation Its population is still growing dramatically and is likely to be 1.5 billion by 2015 three times what it was when the P.R.C. was established in 1949 But since embarking on a reform programme which at the time seemed experimental and hard to reconcile with official ideology it has gone from being the sick man of Asia to being one of the world's largest and fastest developing economies in what now looks to be a remarkably effective and well managed transition

*Women in China's Long Twentieth Century* Gail Hershatter, 2007-03-29 An important and much needed introduction to this rich and fast growing field Hershatter has handled a daunting task with aplomb Susan L. Glosser author of *Chinese Visions of Family and*

State 1915 1953      **Fertility, Family Planning and Population Policy in China** Chiung-Fang Chang, Che-Fu Lee, Sherry L. McKibben, Dudley L. Poston, Carol S. Walther, 2005-12-16 China's one child population policy first initiated in 1979 has had an enormous effect on the country's development. By reducing its fertility in the past two decades to less than two children per woman and developing a family planning program focused heavily on sterilization and abortion, China has undergone a significant transition in status to a demographically developed country. Bringing together contributions from leading academics, this book looks at the impact of the government's strict control over planning and population growth on the family, the wider society, and the country's demography. The contributors examine developments such as family planning policy and contraceptive use, biological and social determinants of fertility, patterns of family and marriage, and China's future population trends. As such, it will be essential reading for academics, researchers, policy makers, and government officials with an interest in China's population policy.

**Deaf Children in China** Alison Callaway, 2000. She also made fact-finding visits to several other schools and programs for deaf preschoolers and had discussions with teachers, administrators, and staff members. The findings from her study form the remarkable body of information presented in *Deaf Children in China*. **BOOK JACKET**

*Family Planning in China* Karen Hardee-Cleaveland, Judith Banister, 1988      *Nationalizing Sex* Richard Togman, 2019-02-13. Government-sponsored breeding programs, medals of motherhood, forced abortions, and surgical sterilization on park benches—all of these policies have come out of government efforts to nationalize sex and harness procreation as a tool of the state. Over 170 countries or 85% of governments worldwide have active policies designed to manipulate the fertility of their citizenry with the aim of influencing the rate of growth of their populations. While over 90% of least developed states are trying to combat population growth with policies designed to reduce fertility, over two-thirds of all developed countries are actively crafting legislation to increase their populations. Despite over a hundred years of relative failure and innumerable studies questioning the viability and utility of government attempts to manipulate the fertility rate of the population as a whole, the majority of governments worldwide continue to uphold and develop such policies. What drives government to try to control how many children people will have? *Nationalizing Sex* traces why population emerged as an object of governance and how natalist policy has changed over time and place using case studies from France, Germany, Russia, India, and China. It analyzes the origins, growth, and development of fertility as a national and international political issue, the rise and fall of the narratives used to ascribe meaning to natality, and the global proliferation of oddly similar policies adopted by widely dissimilar states. As importantly, it explains why, after hundreds of years, countries continue to pursue natalist policy even though it has been such a widespread failure.

*Infertility around the Globe* Marcia Inhorn, Frank van Balen, 2002-05-30. This exceptional collection of essays breaks new ground by examining the global impact of infertility as a major reproductive health issue, one that has profoundly affected the lives of countless women and men. Based on original research by seventeen internationally acclaimed social scientists, it is the first book to investigate the use of reproductive

technologies in non Western countries Provocative and incisive it is the most substantial work to date on the subject of infertility With infertility as the lens through which a wide range of social issues is explored the contributors address a far reaching array of topics why infertility has been neglected in population studies how the deeply gendered nature of infertility sets the blame squarely on women s shoulders how infertility and its treatment transform family dynamics and relationships and the distribution of medical and marital power The chapters present informed and sophisticated investigations into cultural perceptions of infertility in numerous countries including China India the nations of sub Saharan Africa Vietnam Costa Rica Egypt Israel the United States and the nations of Europe Poised to become the quintessential reference on infertility from an international social science perspective Infertility around the Globe makes a powerful argument that involuntary childlessness is a complex phenomenon that has far reaching significance worldwide **The Cambridge**

**Handbook of Contemporary China** Colin Mackerras,Amanda Yorke,1991-05-02 The paradox of contemporary China its openness to Western technology yet its rejection of Western democratic ideals serves to make China appear remote and inaccessible to those outside The country s vast area and population only accentuate these difficulties The Cambridge Handbook of Contemporary China presents topical information on all aspects of Chinese life since 1949 with particular emphasis on the 1980s its major strength is its contemporary focus and easy to use format Useful maps and tabled statistics accompany the text which is divided into clearly defined categories Designed for students specialists educationalists journalists and those in business and government as well as the general reader the Handbook provides easy access to information on all areas of Chinese life and is a good starting point for research **Behind the Silence** Jing-Bao Nie,2005

Behind the Silence is the first in depth work in any language to explore the diverse perspectives of mainland Chinese regarding induced abortion and fetal life in the context of the world s most ambitious and intrusive family planning program Through his investigation of public silence official standpoints forgotten controversies from the imperial era popular opinions women s personal stories doctors narratives and the problem of coerced abortion Nie Jing Bao brings to light a surprising range of beliefs concerning fetal life and the morality of abortion yet finds overall an acceptance of national population policies China s internal plurality the author argues must be taken seriously if the West is to open a fruitful cross cultural dialogue Visit our website for sample chapters **Area Bibliography of China** Richard T. Wang,1997 A combination of

scholarly commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades This bibliography reflects these combined interests it is broken up into sections by subject headings and cross references refer the researcher to related topics **Encyclopedia of Chinese History** Michael Dillon,2016-12-01

China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China

in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture
