Second Federalist Congress Creates A Government

David Burnham

Second Federalist Congress Creates A Government:

A Second Federalist United States. Congress, 1967 The selection of materials for inclusion in this volume was guided by one principle The editors searched for the best thought expressed on issues that were of critical importance in fixing the character of the American political system

A Second Federalist United States. Congress, Charles Shang Hyneman, George Wescott Carey, 1970

Originalism, Federalism, and the American Constitutional Enterprise Edward A. Purcell, 2007-12-28

In this lively historical examination of American federalism a leading scholar in the field refutes the widely accepted notion that the founding fathers carefully crafted a constitutional balance of power between the states and the federal government Edward A Purcell Jr bases his argument on close analysis of the Constitution's original structure and the ways that structure both induced and accommodated changes over the centuries There was no clear agreement among the founding fathers regarding the true nature of American federalism Purcell contends nor was there a consensus on correct lines dividing state and national authority Furthermore even had there been some true original understanding the elastic and dynamic nature of the constitutional structure would have made it impossible for subsequent generations to maintain any original or permanent balance The author traces the evolution of federalism through the centuries focusing particularly on shifting interpretations founded on political interests He concludes with insights into current issues of federal power and a discussion of the grounds on which legitimate decisions about federal and state power should rest

Congressional Record United States. Congress, 1976 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

Defending the Republic Bruce Frohnen, Kenneth L. Grasso, 2022-10-07 In recent years our constitutional order has increasingly come under attack as irredeemably undemocratic racist and oppressive At the same time it is increasingly obvious that political practices in the United States have strayed very far from the founders' designs and become deeply dysfunctional The time is thus ripe for renewed reflection about the American political tradition This volume reintroduces readers to the conservative tradition of political and constitutional discourse It brings together prominent political scientists and legal scholars all of whom were deeply influenced by the life and work of the eminent constitutional scholar George W Carey For over 40 years Carey strove mightily to explain the nature and requirements of our political tradition How it fostered meaningful virtuous self government and how our constitutional tradition has been derailed by progressivist ideology He is perhaps best known for his concept of constitutional morality the understanding that our republican constitutional order can be sustained only by a combination of formal mechanisms e.g. separation of powers and unwritten norms standards of behavior that act to foster deliberation and consensus as well as keep political actors within the boundaries of their constitutional offices Contributors

including Francis Canavan Claes G Ryn Paul Edward Gottfried and Peter Augustine Lawler discuss and develop Carey s key insights applying them to issues from the nature of majoritarian government to the purposes of constitutionalism to the decline of virtue that has accompanied the expansion of power among national and international elites Each essay provides penetrating analysis of key aspects of our tradition its inherent purposes growth and subsequent derailment as well as the resources remaining within that tradition for the rebuilding of our constitutional order and a decent common life **The Union As It Is** Peter B. Knupfer,2000-11-09 The first scholar to trace the meaning and importance of the idea of political compromise from the founding of the Republic to the onset of the Civil War Knupfer shows how recurring justifications of sectional compromise reflected common ideas about the way governments were supposed to work Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Popular Government in the United States* Charles Hyneman,2017-07-05 Political theory consists in clarification of language and concepts in description and analysis of institutions and behavior and in appraisal and evaluation of political events Hyneman s theory is not one of the behavioral or functional varieties that rely on special language and concepts drawn from other disciplines than political science It emphasizes a central concern of both conventional and behavioral theory the distribution of power or what proportion of people have influence over what aspects of government He is also interested in how power is shared divided checked and balanced The main task of political theory Hyneman thinks is clarification of the values served by and sustaining American democracy This task gives meaning and direction to analysis of the elements of democracy and to empirical research on the processes of democracy In this sense political science is not value free it is most useful in pursuit of the implications of basic beliefs and ideals These beliefs and ideals can be found in historical statements as well as inferred from institutions and behavior Hyneman s emphasis on popular control electoral politics and equality of influence tends to challenge both of the pluralist and ruling elite schools though it should be clear that he is not engaged in a scholastic debate The freedom of his analysis ranging from specific reference to the professional controversies of his day is one of its strengths and a probable source of originality He connects it explicitly to the literature of political science at critical points as it existed when originally published in 1968 **A Second Federalist** Charles Shang Hyneman,George Wescott Carey,1970

Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy Jon D. Schaff,2019-07-03 This bold groundbreaking study of American political development assesses the presidency of Abraham Lincoln through the lenses of governmental power economic policy expansion of executive power and natural rights to show how Lincoln not only believed in the limitations of presidential power but also dedicated his presidency to restraining the scope and range of it Though Lincoln s presidency is inextricably linked to the Civil War and he is best known for his defense of the Union and executive

wartime leadership Lincoln believed that Congress should be at the helm of public policy making Likewise Lincoln may have embraced limited government in vague terms but he strongly supported effective rule of law and distribution of income and wealth Placing the Lincoln presidency within a deeper and more meaningful historical context Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy highlights Lincoln's significance in the development of American power institutions and social movement politics Using Lincoln's prepresidential and presidential words and actions this book argues that decent government demands a balance of competing goods and the strong statesmanship that Lincoln exemplified Instead of relying too heavily on the will of the people and institutional solutions to help prevent tyranny Jon D Schaff proposes that American democracy would be better served by a moderate and prudential statesmanship such as Lincoln's which would help limit democratic excesses Schaff explains how Lincoln's views on prudence moderation natural rights and economics contain the notion of limits then views Lincoln's political and presidential leadership through the same lens He compares Lincoln's views on governmental powers with the defense of unlimited government by twentieth century progressives and shows how Lincoln's theory of labor anticipated twentieth century distributist economic thought Schaff's unique exploration falls squarely between historians who consider Lincoln a protoprogressive and those who say his presidency was a harbinger of industrialized corporatized America In analyzing Lincoln's approach Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy rejects the idea he was a revolutionary statesman and instead lifts up Lincoln's own affinity for limited presidential power making the case for a modest approach to presidential power today based on this understanding of Lincoln's statesmanship As a counterpoint to the contemporary landscape of bitter uncivil politics Schaff points to Lincoln's statesmanship as a model for better ways of engaging in politics in a democracy

Regulating Our Constitutional Rights William B. Glidden, 2023-05-22 The author argues that we the people's rights under the Constitution as amended cannot be characterized as specific prohibitions against government Life liberty and property rights and the freedoms of religion speech and press for example are neither self defining nor precise Accordingly in our representative democracy the unelected unaccountable life tenured judges on the Supreme Court should defer to the laws of Congress affecting these rights absent a clear constitutional violation But the modern conservative Court has become increasingly willing to overturn the laws and policy choices of our nation's elected representatives based on the judges political and ideological preferences Congress has the constitutional power to control the jurisdiction of the lower federal courts and the appellate jurisdiction of the Supreme Court but it has not chosen to exercise this power in any meaningful way to preserve and protect the American people's right to be governed by majoritarian rule **American Political Scientists** Glenn H. Utter, Charles Lockhart, 2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present This second edition includes 22 new and 110 revised entries reflecting

new scholarship that emerged during the 1990s Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields Alphabetically arranged entries focus on the main ideas and major works by each scholar listing list the most important publications by and about the individual There are numerous cross references to show how the work of one scholar has influenced another in the discipline Appendices list the political scientists by degree granting institutions and by major fields A short bibliography points to important general readings about the profession A general index makes this major reference easily accessible for broad interdisciplinary research

Above the Law David Burnham, 2015-01-13 The U S Department of Justice is an institution of vast reach and power over the American people with little oversight into its internal operations This book examines the ways that attorneys general FBI directors federal prosecutors and other Justice Department officials have often abused their powers to achieve political goals rather than pursuing justice Its warning remains as relevant in the digital post 9 11 era of the expanded national security state as it was in the days of J Edgar Hoover

American Conservatism Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20 A must own title National Review Online American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century More than fifteen years in the making and more than half a million words in length this informative and entertaining encyclopedia contains substantive entries on those persons events organizations and concepts of major importance to postwar American conservatism Its contributors include iconic patriarchs of the conservative and libertarian movements celebrated scholars well known authors and influential movement activists and leaders Ranging from abortion to Zoll Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself the encyclopedia s more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism This long awaited volume is not to be missed

Morality Imposed Stephen E. Gottlieb, 2000-09-01 We like to think of judges and justices as making decisions based on the facts and the law But to what extent do jurists decide cases in accordance with their own preexisting philosophy of law and what specific ideological assumptions account for their decisions Stephen E Gottlieb adopts a unique perspective on the decision making of Supreme Court justices blending and re characterizing traditional accounts of political philosophy in a way that plausibly explains many of the justices voting patterns A seminal study of the Rehnquist Court *Morality Imposed* illustrates how in contrast to previous courts which took their mandate to be a move toward a freer and or happier society the current court evidences little concern for this goal focusing instead on thinly veiled moral judgments Delineating a fault line between liberal and conservative justices on the Rehnquist Court Gottlieb suggests that conservative justices have rejected the basic principles that informed post New Deal individual rights jurisprudence and have substituted their own conceptions of moral character for these fundamental

principles Morality Imposed adds substantially to our understanding of the Supreme Court its most recent cases and the evolution of judicial philosophy in the U S

Innovating Democracy Robert E. Goodin, 2008-07-10 In recent years democratic theory has taken a deliberative turn Instead of merely casting the occasional ballot deliberative democrats want citizens to reason together They embrace talk as a decision procedure But of course thousands or millions of people cannot realistically talk to one another all at once When putting their theories into practice deliberative democrats therefore tend to focus on mini publics usually of a couple dozen to a couple hundred people The central question then is how to connect micro deliberations in mini publics to the political decision making processes of the larger society In *Innovating Democracy* Robert Goodin surveys these new deliberative mechanisms asking how they work and what we can properly expect of them Much though they have to offer they cannot deliver all that deliberative democrats hope Talk Goodin concludes is good as discovery procedure but not as a decision procedure His slogan is First talk then vote Micro deliberative mechanisms should supplement not supplant representative democracy Goodin goes on to show how to adapt our thinking about those familiar institutions to take full advantage of deliberative inputs That involves rethinking who should get a say how we hold people accountable how we sequence deliberative moments and what the roles of parties and legislatures can be in that Revisioning macro democratic processes in light of the processes and promise of micro deliberation *Innovating Democracy* provides an integrated perspective on democratic theory and practice after the deliberative turn

Calhoun and Popular Rule H. Lee Cheek, 2004 Although John C Calhoun 1782 1850 remains one of the major figures in American political thought many of his critics have tried to discredit him as merely a Southern partisan whose ideas were obsolete even during his lifetime In *Calhoun and Popular Rule* H Lee Cheek Jr attempts to correct such misconceptions by presenting Calhoun as an original political thinker who devoted his life to the recovery of a proper mode of popular rule As the first combined evaluation of Calhoun s most important treatises *The Disquisition* and *The Discourse* this work merges Calhoun s theoretical position with his endeavors to restore the need for popular rule It also compares Calhoun s ideas with those of other great political thinkers such as Thomas Jefferson and James Madison while explaining what is truly unique about Calhoun s political thought

Encyclopedia of American Civil Rights and Liberties Kara E. Stooksbury, John M. Scheb II, Otis H. Stephens Jr., 2017-09-21 Thoroughly updated and featuring 75 new entries this monumental four volume work illuminates past and present events associated with civil rights and civil liberties in the United States This revised and expanded four volume encyclopedia is unequalled for both the depth and breadth of its coverage Some 650 entries address the full range of civil rights and liberties in America from the Colonial Era to the present In addition to many updates of material from the first edition the work offers 75 new entries about recent issues and events among them dozens of topics that are the subject of close scrutiny and heated debate in America today There is coverage of controversial issues such as voter ID laws the use of drones transgender issues immigration human rights and government surveillance There is also expanded coverage of women s rights gay rights gay

marriage and Native American rights Entries are enhanced by 42 primary documents that have shaped modern understanding of the extent and limitations of civil liberties in the United States including landmark statutes speeches essays court decisions and founding documents of influential civil rights organizations Designed as an up to date reference for students scholars and others interested in the expansive array of topics covered the work will broaden readers understanding of and appreciation for the people and events that secured civil rights guarantees and concepts in this country At the same time it will help readers better grasp the reasoning behind and ramifications of 21st century developments like changing applications of Miranda Rights and government access to private Internet data Maintaining an impartial stance throughout the entries objectively explain the varied perspectives on these hot button issues allowing readers to draw their own conclusions
