**Four Decades On** Scott Laderman, Edwin A. Martini, 2013-06-06 In *Four Decades On* historians anthropologists and literary critics examine the legacies of the Second Indochina War or what most Americans call the Vietnam War nearly forty years after the United States finally left Vietnam They address matters such as the daunting tasks facing the Vietnamese at the war's end including rebuilding a nation and consolidating a socialist revolution while fending off China and the Khmer Rouge and the Vietnam syndrome the cynical frustrated and pessimistic sense that colored America's views of the rest of the world after its humiliating defeat in Vietnam The contributors provide unexpected perspectives on Agent Orange the POW MIA controversies the commercial trade relationship between the United States and Vietnam and representations of the war and its aftermath produced by artists particularly writers They show how the war has continued to affect not only international relations but also the everyday lives of millions of people around the world Most of the contributors take up matters in the United States Vietnam or both nations while several utilize transnational analytic frameworks recognizing that the war's legacies shape and are shaped by dynamics that transcend the two countries Contributors Alex Bloom Diane Niblack Fox H Bruce Franklin Walter Hixson Heonik Kwon Scott Laderman Mariam B Lam Ngo Vinh Long Edwin A Martini Viet Thanh Nguyen Christina Schwenkel Charles Waugh

**The Second Indochina War** William S Turley, 2019-07-11 In the United States discussion of the Vietnam War has tended to focus on the U S role U S strategy U S diplomacy and the war's effects on American society The tendency to hold U S domestic politics responsible for the war's outcome implies that events in Indochina were nothing more than a backdrop for an essentially American drama In contrast *The Second Indochina War* emphasizes the Vietnamese dimensions of a conflict in which all of Indochina Vietnam Laos and Cambodia was treated as a single strategic unit The author contends that only from this perspective is it clear how the war began why its scale outstripped U S expectations and why the Communists prevailed Professor Turley gives a balanced account of events in and views from Washington Saigon and Hanoi Drawing on years of research in primary documents and interviews conducted by the author in Saigon and Hanoi the book focuses on the experience strategies leadership and internal politics of the revolutionary side To set the scene the author considers the legacies of colonial rule in Indochina and the origins of the U S commitment there He recounts the development of the Saigon regime and explains the bases of revolution in the South the key communist decisions and the North's response to bombing The major military campaigns are clearly described and analyzed as are the negotiations that led to the Paris Agreement and its aftermath Vietnam is the central focus but the reader's attention is also drawn to the strategies and events that unified the conflict in all three countries of Indochina into a single war Concise yet comprehensive *The Second Indochina War* is suitable for the general reader as a text for courses on the war or as supplementary reading for courses on Southeast Asian politics U S foreign policy revolutionary conflict and Asian regional security An annotated bibliography and chronology enhance its usefulness Original material on communist internal

**Beyond Stalemate: The Second Indochina War as a Genocidal War System** Kelly Kieran, 2013 In the historiography of the 2nd Indochina War commonly referred to as the Vietnam War areas where one would expect some sort of common knowledge consensus are contrary to expectation diverging rather than moving towards agreement For example the issue of who won the war is by no means settled Also up for debate are questions such as when the war occurred why the war occurred how the war was fought what sort of war it was and who if anyone started the war Thus it can be said that the controversies of this conflict are qualitatively different from normal historical controversies This arises because of the immense reluctance in the Western discourse to deal directly with the fact that the intentional and systematic mass killing of civilians primarily through aerial bombardment was a major component of the US effort When this central fact along with other neglected but salient matters is fully incorporated into an analysis of US tactics it becomes clear that they were never engaged in an attempt to win victory in war but rather in an attempt to inflict the maximum level of destruction of the countries and peoples of Indochina an act of genocide
