These hidden groups he explains seek to gain power through the use of ritual magic and suggestion Among the many other topics tackled here Steiner speaks on the geographical quality of the American continent and the forces that proceed from it the nature of the double doppelganger and the dangers of psychoanalysis the spiritual origin of electromagnetism the abuse of inoculations and vaccinations the meaning of Ireland for world development the confusion of angels with higher beings and the divinity and above all the need for clear insight into world events based on spiritual knowledge Never before available in English as a complete volume the text of this book has been freshly translated for this edition The Alchemical Actor Jane Gilmer, 2021-05-12 The Alchemical Actor offers an imagination for new and future theatre inspired by the manifesto of Antonin Artaud The alchemical four elements earth water

air and fire and the four alchemical stages nigredo albedo citrino and rubedo serve as initiatory steps towards the performance of transmutational consciousness The depth psychological work of Carl G Jung the theatre techniques of Michael Chekhov and Rudolf Steiner infuse this Great Work Jane Gilmer leads the reader through alchemical imaginations beyond material cognition towards gold making heart thinking key to new and future theatre Contemporary Esotericism Egil Asprem, Kennet Granholm, 2014-09-11 The study of contemporary esoteric discourse has hitherto been a largely neglected part of the new academic field of Western esotericism Contemporary Esotericism provides a broad overview and assessment of the complex world of Western esoteric thought today Combining historiographical analysis with theories and methodologies from the social sciences the volume explores new problems and offers new possibilities for the study of esoterica Contemporary Esotericism studies the period since the 1950s but focuses on the last two decades The wide range of essays are divided into four thematic sections the intricacies of esoteric appeals to tradition the role of popular culture modern communication technologies and new media in contemporary esotericism the impact and influence of esotericism on both religious and secular arenas and the recent de marginalization of the esoteric in both scholarship and society Reappearance of Christ in the Etheric Rudolf Steiner, 2022-03-01 Since the coming of Gautama Buddha Eastern mystics have spoken especially about a future condition when earth will be bathed in a moral etheric atmosphere Ever since the time of the ancient rishis they had hoped that this moral impulse would come to earth from Vishva Karman or from Ahura Mazda as Zarathustra proclaimed Eastern mysticism foresaw that this moral atmosphere would come to earth from the being we call the Christ Eastern mystics had set their hopes on the being of Christ Rudolf Steiner p 125 The first chapter of the Acts of the Apostles describes Christ's Ascension and a cloud received him out of their sight As the disciples were looking up two angels appeared and said the same Jesus taken up from you into heaven shall come again in the same way as you have seen him go Starting in 1910 Rudolf Steiner initiated a series of lectures announcing the advent of Christ's appearance in the sphere of the earth's etheric or life body. This he said would begin between 1930 and 1940 but at first only a few people would be aware of it In time more and more people regardless of their religious affiliation would be infused by Christ's living presence Such Damascus experiences bespeaking a new natural clairvoyance Steiner said would become increasingly common The Christ will become a living comforter Though it may seem strange now it is nevertheless true that even large numbers of people sitting together and wondering what to do will see the etheric Christ He will be there and confer with them he will cast his word into their gathering We are approaching these times when this positive constructive element will take hold of human evolution Rudolf Steiner p 122 The lectures collected here on the second coming of Christ also contain significant related issues such as spiritual science and etheric vision the etheric vision of the future the Sermon on the Mount and the land of Shambhala the etherization of the blood the mysteries of comets and the moon Buddhism and Pauline Christianity and the three realms between death and rebirth Inner Circle Book Simona Rich, 2024-07-12 This is the collection of all my

The Incarnation of Ahriman Rudolf Steiner,2013-05-16 While we know of Ahriman from Persian mythology Rudolf Steiner spoke of him as an actual living spiritual entity This being he said works to embed people firmly into physicality encouraging dull materialistic attitudes and a philistine dry intellect In these extraordinary lectures Steiner in rare prophetic mode talks about an actual incarnation of Ahriman on the earth and the potential consequences Just as Christ incarnated in a physical body so would Ahriman incarnate in the Western world before a part of the third millennium had passed Steiner places this incarnation in the context of a cosmic triad Lucifer Christ and Ahriman Ahriman will incarnate as a counterpoint to the physical incarnation of Lucifer in the East in the third millennium BC with the incarnation of Jesus Christ in Palestine as the balancing point between the two Over the period during which Steiner developed anthroposophy a speaking career that spanned two decades and more than six thousand lectures he referred to the idea of Ahriman s incarnation only six times These six lectures together with an additional supporting excerpt are reproduced in their entirety and under one cover for the first time

The Karma of Untruthfulness: v. 2 Rudolf Steiner, 2016-11-21 Although these lectures were given during 1916 they have much to teach us about the political spin media distortions propaganda and downright lies we encounter on a

daily basis in public life Rudolf Steiner's calm and methodological approach penetrates the smokescreen of accusations and counterclaims of illusion and untruth surrounding the Great War Hiding behind this fog and under the guise of outer events he reveals the true spiritual struggle that is taking place His words give a deeper understanding of the politics and world conflicts that confront us today through the filter of the media In the midst of the turmoil of the First World War Steiner speaks out courageously against the hatred and untruthfulness in the propaganda of the time From his detailed research into the spiritual impulses of human evolution he describes the dominant role secret brotherhoods played in the events culminating in the cataclysmic war and warns that the retarding forces of nationalism must be overcome if Europe is to find its new destiny He also emphasizes the urgent need for new social structures if further catastrophes are to be avoided At a time when political events throughout the world are moving with breathless rapidity the reader will find much in these lectures that will illuminate what lies behind the symptoms of our turbulent times This new edition reproduced in a larger format is put in a modern context and introduced by Terry Boardman If the Organs Could Speak Olaf Koob, 2020-12-17 This book can help us trace the secrets of our own body to see it as a wonder of creation and to marvel at it time and again with reverence and gratitude Prof Dr Volker Fintelmann At a time of increasing volatility in healthcare provision we are all having to become more responsible for our own well being This book an imaginative practical and accessible guide to our inner organs is written for anyone who wants to improve their health and develop resiliency against illness Although trained as a medical doctor Olaf Koob has the vision and experience of a holistic physician He has surveyed diverse medical systems orthodox medicine naturopathy homeopathy Chinese ayurvedic and anthroposophic medicine and found their common substance Using this knowledge he relates the essence of each human organ its position colour form embryonic development function and characteristic attributes Thus the organs begin to tell their own stories revealing their biography physiognomy and the illnesses they are prone to Inspired by esoteric wisdom Koob creates living images of the pancreas and the hormone system and shows how the spleen liver gall bladder heart kidneys lungs and reproductive organs relate to the wider cosmos He describes the nature of poison and detoxification good and bad nutrition and the importance of secretion and elimination If the Organs Could Speak is a unique work that enables us to think more creatively about our bodies and how they function and to help us cope with crises suffering and pain **Demons and Healing** Are Thoresen, 2020-12-16 Genius is a rare commodity that few of us attain I see the colour magic painted by Van Gogh hear the music magic of Beethoven imagine touching the exquisite bronze of Rodin s Thinker I revere their work but know that I can never create such beauty So it is with Are s psychic skills Phil Rogers MRCVS Dublin Today we have forgotten all about demons and even about Christ Both concepts have become anachronisms from olden times That they are not anachronisms is illustrated in the discussions and examples given in this book Hans Kolstad Dr philos MAS Norway Are Thoresen perceives demons and other spiritual beings as clearly as we see each other He sees the demons that cause disease as well as the beings associated with medicinal plants

and other substances that can promote health He has witnessed how demons of disease leave the bodies of the sick and enter the healthy thus causing contagion Through his therapeutic work Thoresen has learned that one cannot simply fight demons as they will translocate to other people or return later The only effective way to counteract these malign entities is to dissolve them through the boundless love of the being of Christ The author presents a lifetime s knowledge the fruit of more than half a century s practical and clinical experience in the pages of this book offering a better understanding of health and disease He recounts numerous personal experiences of demonic entities and explains how demons are created Thoresen advises on the prevention of the demonic effects of natural and artificial radiation and how we can defend and ultimately free ourselves from demonic influence A fascinating Addendum describes the phenomenon of poltergeists and the spiritual beings related to various drugs Demons and Healing is a singular work written out of precise vision and knowledge of the spiritual entities that surround us in everyday life **Christ and Sophia** Valentin Tomberg, R H Bruce, 2011-03 In these astounding meditations on the true Christian nature of the scriptures Tomberg shows how the central story of entire Bible is really a history of the Christ being He describes the cosmic and earthly preparations for the Mystery of Golgotha its significance and results for humanity and the world as a whole and the central role of the Sophia being and her relationship to the Christ the Holy Spirit the Disciples and Pentecost and all of humanity He also imagines the Grail nature of the Christ's involvement in earthly history All of Valentin Tomberg's profound studies are finally available in a single volume Drawn from four difficult to find and out of print editions this completely revised and updated text includes Tomberg's anthroposophic meditations on the Old Testament the New Testament and the Apocalypse while the appendix contains his final unfinished work The Four Sacrifices of Christ Christ and Sophia contains all of Valentin Tomberg's essential anthroposophic works on the scriptures providing an invaluable resource for anyone who wishes to gain a deeper understanding of Rudolf Steiner's spiritual scientific approach to esoteric Christianity as revealed by a close meditative reading of the Bible from Genesis to John's Revelation This volume contains English translations of these works by Valentin Tomberg Anthroposophisch Betrachtungen ber des Alte Testament Anthroposophische Betrachtungen ber das Neue Testament Geisteswissenschaftliche Betrachtungen ber die Apokalypse des The Karma of Untruthfulness Rudolf Steiner, 2005 12 lectures Dornach January 1 30 1917 CW 174 Although Iohannes these lectures were given in 1916 they have much to teach us about today s political spin media distortions propaganda and downright lies all delivered by the media on a daily basis Rudolf Steiner's calm methodological approach penetrates the smokescreen of accusations and counterclaims illusions and lies surrounding World War I From behind this fog and under the guise of outer events the true spiritual struggle is revealed Steiner's words give the reader a deeper understanding of the politics and world conflicts that confront us today through the filter of popular media Amid the turmoil of World War I Steiner spoke out courageously against the hate lies and propaganda of the time His detailed research into the spiritual impulses of human evolution allowed him to reveal the dominant role that secret brotherhoods played in events that culminated in that

cataclysmic war He warned that the retarding forces of nationalism must be overcome before Europe can find its true destiny He also emphasized the urgent need for new social structures in order to avoid such future catastrophes Political and social changes around the world are moving at a breathless pace hurtling us all toward an uncertain future These lectures illuminate much of what lies behind today s turbulent events and the scenes played out on the nightly news Like volume 1 this edition is placed within a modern context and introduced by Terry Boardman This volume is a translation from German of Zeitgeschichtliche Betrachtungen Das Karma der Unwahrhaftigkeit Zweiter Teil Kosmische und Menschliche Geschichte Lord of the Elements Bastiaan Baan, 2013-03-21 The four classical elements of earth water air and fire are present in Genesis and continue to be significant throughout Christianity Different streams of thought such as the School of Chartres and Celtic Christianity have emphasised them in different ways In this unique book Bastiaan Baan an experienced spiritual thinker brings these elements together with ideas from Rudolf Steiner's anthroposophy He considers in particular how elemental beings nature spirits relate to the four elements and explores the role of elemental beings in our world This is a fascinating and original work on the connections between Christianity and the natural world Growing Old Rudolf Steiner, 2019-05-03 And that is one thing we need to relearn that all of life brings its gifts not only the first two or three decades Rudolf SteinerWhen are we actually old What happens as we age How will we cope with old age Growing old is an art and to grow old in the right way we need spiritual understanding In this enlightening anthology compiled by a director of care homes for the elderly wide ranging cosmological perspectives alternate with detailed observations of the phenomena of ageing Rudolf Steiner sees ageing within the context of the earthly and spiritual evolution that encompasses all forms of existence The book thus begins with the primary meaning that ageing has in developmental terms and ends with a consideration of the human being as co creator in cosmic processes and with our capacity to become increasingly conscious of the tasks this implies These key texts by Rudolf Steiner show how spiritual knowledge can broaden the current debate on the study of old age the process of ageing and the particular problems faced by older people Concerns about our ageing population can be seen in a broader context that recognizes the fruits of old age The productive relationship between childhood and old age a running theme throughout this volume is one example If we grow old consciously viewing ageing not only as a period of physical decline but as a time when we can actively participate in shaping life then we can begin to find greater meaning in it Chapters include The Core Messages of Ageing Fundamental Principles of Gerontology Ageing as a Developmental Process Ageing the Risks and Opportunities The Art of Growing Old Old Age and Death Growing Old A Challenge for Education The Cosmological Dimensions of Ageing An Esoteric Cosmology Rudolf Steiner, 2008 A congress of the Federation of European Sections of the Theosophical Society was held in Paris in May 1906 Rudolf Steiner attended with a number of students and presented a series of lectures to a small circle of friends mostly society members Edouard Schur was present and made succinct notes of those talks the result of which is An Esoteric Cosmology Evolution Christ and

Modern Spirituality In is foreword Schur describes his initial impressions of Rudolf Steiner and the force of his vision These priceless lectures mark a significant phase of Rudolf Steiner's thought that of the spontaneous burst of his genius and its first crystallization Indeed his notes record perhaps the first general outline and summary of what would become Anthroposophy or spiritual science At the time of these lectures most members viewed Theosophy as a kind of Europeanized Indian philosophy Thus one purpose of these lectures was to outline Steiner's Christ centered spiritual science in contrast to the more Eastern orientation of Theosophy He carefully connected the essence of spiritual science to the role of the Christ in human evolution as well as to the Rosicrucian and Christian mystery traditions the primary carriers of the esoteric Christian stream To accomplish this Steiner presented the roots of Christianity in the ancient mysteries and in the evolution of the whole universe itself. The miracle of these lectures perhaps is that Steiner was able to condense such a grand cosmology into these eighteen lectures and that Edouard Schur was able to capture their essence in the relatively brief notes that constitute this book A few years later the substance of these lectures were expanded and presented in Rudolf Steiner's Outline of Esoteric Science These lecture notes will prove invaluable for all those who wish to better understand that book as well as Rudolf Steiner's Christian cosmology and perspective on esoteric Christianity and the Christian mysteries Geoengineered Transhuman Elana Freeland, 2025-02-25 Explores how chemicals and nanotechnology are being continuously delivered via chemtrail aerosols by jets drones and rockets in the guise of climate change Examines the public private partnerships behind transhumanism including Big Pharma GMO agribusiness DARPA IARPA corporations and foundations Reveals the reality of the secret space program SSP and the planetary smart grid of 5G 6G the Internet of Things IoT and artificial intelligence AI What if the degradation of the planet is not just a byproduct of human greed but the explicit intention of government agencies bought off by corporations What if their intent is to create a post human global government run by AI populated by a genetically and electromagnetically altered Homo sapiens loaded with nanotechnology and run by 5G 6G 7G transceivers from space Building on decades of research Elana Freeland offers a comprehensive expos of the transhumanist agenda the transformation of humanity into a slave class by means of biotechnology genetic engineering molecular nanotechnology and artificial intelligence She reveals that weather control is already a global reality thanks to the aerosol chemtrails that maintain the ionized atmosphere needed for a myriad of military and civilian wireless operations The air we breathe the soil we grow our food in and the water we drink have all been altered away from Nature and toward a synthetic metaverse Meanwhile Big Pharma injects nano sized hardware and software in vivo that activate a transhumanist brain computer interface with AI The author also examines the public private partnerships behind transhumanism and reveals the reality of the secret space program and the planetary smart grid of 5G 6G The eons old dream of global power seems to be coming of age in this overwhelmingly technological era of domination by the wealthy And yet by exposing the transhumanist agenda and studying the technology being employed to subjugate the human race we have the opportunity to

find ways not just to resist becoming machines ourselves but to utilize our technologies for restoring a high civilization in service to the Good the Beautiful and the True A Road to Sacred Creation Rudolf Steiner, 2021-08-03 Rudolf Steiner s perspectives on technology are manifold and prophetic He not only critiqued the technology of his day but foretold new forms of technology that would inevitably arise technologies that would be connected to the makers very attitudes of soul either the good or bad within them in other words their deepest motivations How we as evolving human beings approach technology and its development will be instrumental in determining how ultimately human evolution will turn out Our future as human beings and the future of technology are intimately connected Gary Lamb Illuminating compelling challenging at times staggering in its breadth A Road to Sacred Creation is above all the definitive text for gaining a hold on Rudolf Steiner's nuanced perspectives on technology Charting both an inner and outer course part pilgrimage toward greater perception and knowledge part dramatic unfolding plot line of the future of humans and machines the metaphoric road of the title is exactly where humanity finds itself today though the exact route and destination are still to be determined. The map is not yet drawn but here is a beginning Taken together the relevant concepts ideas and insights of Steiner deftly brought into sequence and dialogue as the editor has done in this book reveal how the work to arrive at a more spiritually imbued technological future not only involves all domains and fields of spiritual science and anthroposophic work but has its origins in the very core of our being fundamentally entwined with our moral progress toward freedom and selfless love The Etheric Ernst Marti,2020-12-17 Ernst Marti devoted his life to researching the etheric realm a subtle area that exists between the physical and spiritual Taking the numerous statements and references by Rudolf Steiner as his starting point Marti develops our understanding of the etheric world in various fields from the theory of knowledge to the natural world through to music the realm of colour eurythmy and medicine In doing so he proposes exciting bridges from the ancient and medieval worldview to the present and future of natural and spiritual science Having studied The World of the Ethers in Vol 1 here Dr Marti explores the The World of Formative or Morphogenic Forces Beginning with the sense qualities of the visible world he studies the nature of sense perception the origin of morphogenic forces and their phenomenology In three key sections he examines the formative forces of shape or form including the growth movements in plants and how they relate to eurythmy and the forces of colour the formative forces of life the planetary origin of the morphogenic forces of life and the seven life processes and their relation to rhythm and the formative forces of substance the zodiac and the planets and the formative forces of metals In this concluding volume of his seminal work Marti also offers pertinent comments on the nature of potentization in medicine The Coronavirus Pandemic Judith von Halle, 2020-12-16 What lies at the root of the SARS CoV 2 virus and the worldwide pandemic it has caused affecting the health and livelihoods of untold millions of people What are the deeper spiritual realities behind COVID 19 and the global turmoil it has left in its trail In an effort to answer these queries and many others put to her at the start of the pandemic Judith von Halle composed two letters in March 2020 based

on her own spiritual scientific research Published in this book together with an additional essay she addresses questions such as Which entities stand behind the virus How and why does it affect human beings What measures can be taken for prevention and therapy What does the crisis mean to individuals and what possibilities does it offer for personal development. The author suggests that apart from the material havoc triggered by coronavirus the spiritual causes behind it are extremely serious and if the present pandemic is not to be the first in a series of catastrophes humanity is called upon to respond in a radically transformative way In an additional article von Halle tackles the controversial issues relating to government lockdowns and the protest movements that have sprung up in opposition to them How do these events point to real questions of individual freedom and most importantly how do they relate to the central event of our time an event that tragically remains largely unknown Revealing unexpected perspectives to the COVID 19 pandemic Judith von Halle asks urgent and difficult questions and offers shattering insights for humanity s further development
