Weber,2017-09-08 United States Diplomatic Codes and Ciphers 1775 1938 is the first basic reference work on American diplomatic cryptography Weber s research in national and private archives in the Americas and Europe has uncovered more than one hundred codes and ciphers Beginning with the American Revolution these secret systems masked confidential diplomatic correspondence and reports During the period between 1775 and 1938 both codes and ciphers were employed Ciphers were frequently used for American diplomatic and military correspondence during the American Revolution At that time a system was popular among American statesmen whereby a common book such as a specific dictionary was used by two correspondents who encoded each word in a message with three numbers In this system the first number indicated the page of the book the second the

from complete and may contain errors The original Codes etc were designed principally for marine use as this was the field in which radio was initially developed The majority retain this influence but many have been modified and modernized to cover land and air applications Technical terms have also varied as technology has changed however most abbreviations of the computer age have been omitted These are specialist terms of that mode not often encountered in telegraphy *Army Extension Courses* United States.
