realm of the dead evokes the renewal of all life and the restoration of totality In the Egyptian belief system the pharaohs and in later times all blessed dead embarked on this same night sea journey after death ultimately becoming one with Re and living forever The vision of the afterlife elaborated in the Amduat dating from around 1500 B C E has been influential for millennia providing the model for an entire genre of Egyptian literature the Books of the Afterlife which in turn endured into the Greco Roman era Its themes and images persisted into gnostic and alchemical texts and made their way into early Christian portrayals of the beyond In The Sungod s Journey through the Netherworld Andreas Schweizer guides the reader through the Amduat offering a psychological interpretation of its principal textual and iconographic elements He is concerned with themes that run deep and wide in human experience drawing on Jungian archetypes to find similar expression in many cultures worldwide sleep as death resurrection as reawakening or rebirth and salvation or redemption whether from original sin as for Christians or from the total annihilation of death as for the ancient Egyptians **Secret Societies** Philip Gardiner,2007-06-15 With his recent best selling books and hundreds of articles as well as radio and TV appearances Philip Gardiner has started a crusade for uncovering the truth and nothing could be more indicative of that search than his latest foray into the dark and often sinister world of secret societies Yet again Gardiner finds himself on a journey across the world to uncover the ancient secrets of the world s most powerful men In one dramatic episode he finds himself driven out of Berlin in a black Mercedes by a secret organization that was believed to have disappeared after the second World War and eventually arrives in a modern Nazi watering hole Gardiner however survives this incredible journey and brings us the secrets of the Order held sacred for so long Gardiner delves into a world that is often hidden from our eyes and finds himself in situations that seem to mirror the fictional world of the Da Vinci Code Throughout Secret Societies Gardiner Uncovers an ancient secret society thought to have died out many years ago Gets to the core of the secret societies belief systems Explores the secret origins of Freemasonry and the links to secret Serpent Cults Investigates the secret hidden meaning of King Arthur and Robin Hood Examines the claimants to the name of Illuminati and analyzes the history of the group in Europe and America Reveals the secret links within the Vatican and the Nazi Party Looks in depth at the white powdered gold theory supposedly kept secret by orders throughout time and radically re appraises it Shows the link between the so called enlightenment experience and the control of our minds Nobody in the genre involves themselves in the tale in the same way that Gardiner does and here he shows that the search for ultimate truth can often be a terrifying one
