Bellaby, 2014-06-05 This book starts from the proposition that the field of intelligence lacks any systematic ethical review and then develops a framework based on the notion of harm and the establishment of Just Intelligence Principles As the professional practice of intelligence collection adapts to the changing environment of the twenty first century many academic experts and intelligence professionals have called for a coherent ethical framework that

outlines exactly when by what means and to what ends intelligence is justified Recent controversies including reports of abuse at Guantanamo Bay and Abu Ghraib allegations of extraordinary rendition programmes and the ever increasing pervasiveness of the surveillance state have all raised concerns regarding the role of intelligence in society As a result there is increased debate regarding the question of whether or not intelligence collection can be carried out ethically The Ethics of Intelligence tackles this question by creating an ethical framework specifically designed for intelligence that is capable of outlining under what circumstances if any different intelligence collection activities are ethically permissible The book examines three of the main collection disciplines in the field of intelligence studies imagery intelligence signals intelligence and human intelligence By applying the ethical framework established at the beginning of the book to these three important intelligence collection disciplines it is possible to better understand the ethical framework while also demonstrating its real life applicability This book will be of much interest to students of intelligence studies ethics war and conflict studies security studies and IR

The Real Deal: Making the Case for the One True God Rev. Peter Hendriks Okello, 2018-08-08 This book explains differences between the content of the Bible and the Qur'an and between the God of the Bible and Allah of the Quran The resulting identity of Allah serves as a wake up call for many Christians especially for those who think that the God of the Bible and Islam's Allah are identical Despite growing militant Muslim behavior throughout the world especially against Christians and Jews many Christian leaders in churches and politics seem to be ignorant of the growing threat of Islam to their communities Many examples of explicit Muslim's inhuman behavior substantiate the global Muslim threat to completely destroy Jewish and Christian communities throughout the world This book helps readers understand that there is a significant and most strenuous spiritual battle going on in the heavenly spheres between demons fallen angels and angels as ministers of God This spiritual battle is reflected in the hearts and minds of men and women today This book suggests how Christians need to be united in a biblical response to the growing threat of militant Islam to bring the entire world under the rule of Sharia law and worship of Islam's Allah
