Conflict in India and China's Contested Borderlands Kunal

Mukherjee, 2019-01-04 For a long time India and China have been seen as the rising economic giants on the Asiatic mainland. Studies of the conflicts which have plagued the borderlands of India and China however have tended to only analyse individual case studies without attempting to compare and contrast the situation in these conflicts. This book compares and contrasts the situation in India's disputed borderlands Kashmir and the Indian north eastern states with China's contested borderlands Xinjiang and Tibet. The book looks at the root causes of the conflict and how these conflicts have evolved and changed their character with the passage of time. Analysing how the countries have dealt with their territorial disputes from the 50s till more recent times, the author shows to what extent these state policies have exacerbated the already strained situation. Using primary data collected primarily through interviews from the people/inhabitants of these conflict zones, the book throws new light on the problem. This bottom up approach allows the people to speak and provides a different understanding of the nature of the conflict which may very well be the way forward for long lasting peace. A comparative study of the conflicts in the contested borderlands of China and India, the book will be of interest to scholars studying Asian security studies and Asian Politics particularly and Defence and Security Studies more generally.

The distinguished author takes pains to incorporate the perspectives and narratives of people traditionally left out of Chinese history including women, peasants, merchants and artisans. Readers will also enjoy the inclusion of a thorough introduction to early and ancient Chinese history including classical China, the first Chinese empires and religious and political responses to the period between 220 and 581 CE. An exploration of the restoration of Empire under Sui and Tang as well as post-Tang society and Glorious Song. MacArthur and the American Century William M. Leary, 2001-01-01 General Douglas MacArthur has been hailed as the greatest soldier in American history While not everyone would agree with that assessment there is no question that MacArthur played a prominent role in the emergence of the United States as a world power in the twentieth century A distinguished combat soldier during World War I and an innovative educator at West Point in the 1920s MacArthur became the army's chief of staff during the Great Depression He went abroad in the 1930s to prepare the Philippines for war His stand against the Japanese following Pearl Harbor made him a national hero and his subsequent campaign against Japanese forces in the Southwest Pacific only added to his reputation The Korean War gave MacArthur a final opportunity to display his military skills MacArthur and the American Century assembles for the first time a nuanced and full scrutiny of MacArthur's entire career Essays by such experts as Stanley L. Falk and D. Clayton James accompany materials by Dwight D. Eisenhower and MacArthur himself providing analysis and evaluation of the immense impact this dramatic figure had on war, peace and the American imagination
