The volume is the first to combine incisive conceptual explorations of the concept of deviance and how it informs and challenges the study of esotericism alongside a wide range of Imagining the East Erik Reenberg Sand, Tim Rudbøg, 2020 The essays in empirically grounded case discussions Imagining the East explore how Theosophists during the formative period imagined the religions and cultures of the East The authors examine the relationship of such representations to orientalism the history of ideas politics and culture at large and discuss how these esoteric or theosophical representations mirrored conditions and values current in nineteenth century mainstream intellectual culture The essays also look at how the early Theosophical Society's representations of the East differed from mainstream orientalism and how the Theosophical Society s mission in India was distinct from that of British colonialism and Christian missionaries W.B.
