Victorian saloon underworld and bohemian rebelliousness Reconsidering Drugs NA NA,2016-04-30 Lawrence Driscoll's fresh examination of the meaning of drugs from the Victorians to the present asks us to listen to historical and current voices whose positions on drugs are at variance with our truths Driscoll draws on the work of figures as diverse as William Burroughs Sigmund Freud Conan Doyle and Anna Kavan to shed light on different or silenced ways of talking about drugs and to offer us a historical counter memory The result of his work is to unsettle and disturb the familiar parameters that frame our discussion of drugs revealing that others are available positions which expose our own constructions as surprisingly limited

Playing Sick Meredith Conti,2018-07-27 Few life occurrences shaped individual and collective identities within Victorian era society as critically as witnessing or suffering from illness The prevalence of illness narratives within late nineteenth century popular culture was made manifest on the period's British and American stages where theatrical embodiments of illness were indisputable staples of actors' repertoires Playing Sick Performances of Illness in the Age of Victorian Medicine reconstructs how actors embodied three of the era's most provocative illnesses tuberculosis drug addiction and mental illness In placing performances of illness within wider medicocultural contexts Meredith Conti analyzes how such depictions confirmed or resisted salient constructions of diseases and the diseased Conti's case studies which range from Eleonora Duse's portrayal of the consumptive courtesan Marguerite Gautier to Henry Irving's performance of senile dementia in *King Lear* help to illuminate the interdependence of medical science and theatre in constructing nineteenth century illness narratives Through reconstructing these performances Conti isolates from the period's acting practices a lexicon of embodied illness a flexible set of physical and vocal techniques that performers employed to theatricalize the sick body In an age when medical science encouraged a gradual decentering of the patient from their own diagnosis and treatment late nineteenth century performances of illness symbolically restored the sick to positions of visibility and consequence

Thomas Burke's Dark Chinoiserie Anne Veronica Witchard, 2017-03-02 Focusing on Thomas Burke's bestselling collection of short stories *Limehouse Nights* 1916 this book contextualises the burgeoning cult of Chinatown in turn of the century London London's Chinese Quarter owed its notoriety to the Yellow Perilism that circulated in Britain at the fin de siècle a demonology of race and vice masked by outward concerns about degenerative metropolitan blight and imperial decline Anne Witchard's interdisciplinary approach enables her to displace the boundaries that have marked Chinese studies literary studies critiques of Orientalism and empire gender studies and diasporic research as she reassesses this critical moment in London's history In doing so she brings attention to Burke's hold on popular and critical audiences on both sides of the Atlantic A much admired and successful author in his time Burke in his Chinatown stories destabilizes social orthodoxies in highly complex and contradictory ways For example his writing was formative in establishing the queer spell that the very mention of Limehouse would exert on the public imagination and circulating libraries responded to Burke's portrayal of a hybrid East End where young Cockney girls eat Chow Mein with chopsticks in the local cafés and blithely gamble their housekeeping money at Fan Tan by banning Limehouse Nights Witchard's book forces us to rethink Burke's influence and shows that China and chinoiserie served as mirrors that reveal the cultural disquietudes of western art and culture

Greenfield,Peter Reuter,2009-04-10 Heroin is universally considered the world s most harmful illegal drug This is due not only to the damaging effects of the drug itself but also to the spread of AIDS tied to its use Burgeoning illegal mass consumption in the 1960s and 1970s has given rise to a global market for heroin and other opiates of nearly 16 million users The production and trafficking of opiates have caused crime disease and social distress throughout the world leading many nations to invest billions of dollars trying to suppress the industry The failure of their efforts has become a central policy concern Can the world heroin supply actually be cut and with what consequences The result of a five year long research project involving extensive fieldwork in six Asian countries Colombia and Turkey this book is the first systematic analysis of the contemporary world heroin market delving into its development and structure its participants and its socio economic impact It provides a sound and comprehensive empirical base for concluding that there is little opportunity to shrink the global supply of heroin in the long term and explains why production is concentrated in a handful of countries and is likely to remain that way On the basis of these findings the authors identify a key set of policy opportunities largely local and make suggestions for leveraging them This book also offers new insights into market conditions in India Tajikistan and other countries that have been greatly harmed by the production and trafficking of illegal opiates A deft integration of economics sociology history and policy analysis The World Heroin Market provides a rigorous and vital look into the complex and resilient global heroin trade **Forces of Habit** David T. Tomic Andreas Weber Simon Werrett **Consumerism in Twentieth-Century Britain** Matthew Hilton, 2003-11-13 This book is the first comprehensive history of consumerism as an organised social and political movement Matthew Hilton offers a groundbreaking account of consumer movements ideologies and organisations in twentieth century Britain He argues that in organisations such as the Co operative movement and the Consumers Association individual concern with what and how we spend our wages led to forms of political engagement too often overlooked in existing accounts of twentieth century history He explores how the consumer and consumerism came to be regarded by many as a third force in society with the potential to free politics from the perceived stranglehold of the self interested actions of employers and trade unions Finally he recovers the visions of countless consumer activists who saw in consumption a genuine force for liberation for women the working class and new social movements as well as a set of ideas often deliberately excluded from more established political organisations
