The Universal Antidote

Eastwood Bempoh, 2021-02-02 There is no human knowledgeable enough to have avoided the inevitable experience of what has been labeled a problem There is no human prudent enough to spot all potential outcomes Therefore as a result there is indeed no human wise enough to avoid the path of a problem Problems are the result of the misuse of one's will A problem free world is a will free world The only way to be free of problems is if everything was definite and there was no possibility for change But how can all things be definite if we have the ability to choose against what will make us problem free It is wise to trust that the sun will rise the following morning after night falls because it has established consistency in its expression It is also wise to have matured your trust in the act of converting water into ice by the reduction of temperature because again this has been a consistent outcome But is it wise to trust that your fellow friend will be there for you every time you need them I presume not So as long as there is consistency in expression the possibility of change is unlikely and the outcome of prediction given it supports the consistent expression will be guaranteed In simplest terms our inability to secure a singular and definite expression without change is the cause of our problems This is the reason for distrust You are less likely to trust a stranger because you have not been present to observe a consistency in a particular expression of behavior so you are less likely to trust them because you are well aware of their ability to choose to do as they please therefore rendering the free will of man kind the root cause of all problems Nevertheless although it has been established that our will to choose especially under the influence of ignorance has rendered the abilities of prudence in such regard limited Wisdom however can profit highly from the limitations of prudence to avoid the issues of ignorance This is said to say although we may not be able to avoid problems we can surely solve them So I hereby entail my words of wisdom that is to say I am offering the cure to all problems the universal antidote of which I have formulated as an answer to my riddle My presence is the solution to all problems and my absence is the cause what am I Ladies and Gentlemen my name is Eastwood Bempoh and I want to introduce to you The universal antidote This book explains The Bempoh Quantification Tree of all Problems including the following below The 4 categories all problems fall under The 2 realms problems come from The 3

aspects of your being that are affected by problems How to cure and prevent such problems given you choose to remain consistent in certain dealings And much more This book will help you overcome Fear Sickness Unforgiveness And more
