Learning to Serve Maureen E. Kenny, Lou Anna K. Simon, Karen Kiley-Brabeck, Richard M. Lerner, 2012-12-06 Service learning as defined by the editors is the generation of knowledge that is of benefit to the community as a whole This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning infused throughout the curriculum and coupled with outreach scholarship is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society The editors through this series of models of service learning make a powerful argument for the necessity of engaged institutions

Where's the Wisdom in Service-Learning? Robert Shumer, 2017-04-01 The service learning field is 50 years old in the United States Much has been developed over that time in the fields of K 12 schooling higher education and community organizations People who have been involved in the movement have worked individually and collaboratively to include service learning as an effective pedagogy and program in educational settings They have created opportunities for students teachers faculty and community members to learn about academic content and personal commitment to serving others for social change and community impact In this book we hear from individuals who have been involved in the effort for more than 30 or 40 years about what they have learned from their experiences and what wisdom they can share with others who will be involved for the next several decades Their experience insight and understanding will hopefully help younger people to improve and expand on the movement and place service learning and community engagement as a regular part of American education Robert Shumer has been a stalwart of the service learning movement for decades He is a practitioner a researcher an experimenter This book gives valuable perspective for all of us going forward Paul Loeb Author of Soul of a Citizen At a moment when many are asking how higher education can better serve our democracy Robert Shumer's book reminds us that we still have much to learn from those who

built the movement for community engagement through service learning As befits the field the chapters in this book derive wisdom from experience and in so doing give us insight and inspiration for identifying the way forward Andrew J Seligsohn President Campus Compact This book provides a strong foundation for promoting discussions on how the service learning movement has evolved over the past 30 40 years Rob Shumer has pulled together several key leaders in the service learning movement to share their stories and experiences This book will be useful to a younger generation of service learning practitioners and faculty who will continue to build the field that these pioneers so generously cultivated Elaine K Ikeda Ph D Executive Director California Campus Compact
