Sèvres Porcelain Carl Christian Dauterman,1986 **Sevres Porcelain** Carl C. Dauterman,2003-02-01 **SEVRES PORCELAIN.** Carl Christian Dauterman,1986 **Vincennes and Sèvres Porcelain** Adrian Sassoon,1992-03-12 This volume documents the Getty Museum's important holdings of Vincennes and Sèvres porcelain. Every object is illustrated in color, and all incised and painted marks are reproduced. The volume also includes an index of painters, gilders, and previous owners.

Publications of the Metropolitan Museum of Art, 1964-2005 Metropolitan Museum of Art,2012-10-09 The present volume, *Publications of The Metropolitan Museum of Art 1964-2005*, is a successor to a volume published by the Museum in 1965 entitled *Publications of The Metropolitan Museum of Art 1870-1964*. These two bibliographic volumes endeavor to list all the known books, pamphlets, and serial publications bearing the Museum's imprint and issued by the institution during the first 135 years of its existence through June 2005. The first volume was compiled by Albert Ten Eyck Gardner at the time an Associate Curator of American Paintings and Sculpture, and the present volume has been compiled from the Annual Reports issued by the Museum during the relevant years. Together, the two volumes testify to the tremendous contributions made to knowledge by the curators and conservators of the Metropolitan and by the many other experts who have contributed to the Museum's exhibition catalogues. Various issues of the *Bulletin* emphasize the great sweep of the Museum's acquisitions during these years, and the exhibition catalogues, a number of them Alfred H. Barr Jr. Award or the George Wittenborn Award, testify to the continuity of the institution's dedicated program to enrich people's lives through knowledge of art. This title was originally published in 2006.

Applied and Decorative Arts Donald L. Ehresmann,1993 This reference work covers general works, ornament, folk art, arms and armour, ceramics, clocks, and automata, costumes, enamels, furniture, glass, leather, metalwork, musical instruments, textiles, dolls, and more. Essentially a new work rather than a revision, this annotated bibliography on the history of applied and decorative arts includes over 3000 descriptive entries on books written in Western European languages. More than 1000 of these entries are new to the second edition, and approximately half are titles published since 1977. The remainder represent a significant expansion in breadth and depth of the bibliography with the addition of nearly 500 titles of exhibition and museum catalogues and price guides.
