Essential GCSE Law Kenny Chin, 2014-04-04 This book is part of the Cavendish Essential series. The books in the series are designed to provide useful revision aids for the hard pressed student. They are not of course intended to be substitutes for more detailed treatises. Other textbooks in the Cavendish portfolio must supply these gaps. The Cavendish Essential Series is now in its second edition and is a well established favourite among students. The team of authors bring a wealth of lecturing and examining experience to the task in hand. Many students who have studied or are studying law find the experience painful. One of the main complaints is that there is so much to learn and so many cases to remember. This book is written based on both A Level and GCSE Law Syllabus. For students who progress to higher level this book can also be used as a basis for them to develop their own personal law revision notes.

Essentials of Health Justice: Law, Policy, and Structural Change Elizabeth Tobin-Tyler, Joel B. Teitelbaum, 2022-06-17 Building and expanding upon the prior edition of *Essentials of Health Justice* the new second edition of this unparalleled text explores the historical structural and legal underpinnings of racial ethnic gender based and ableist inequities in health and provides a framework for students to consider how and why health inequity is tied to the ways that laws are structured and enforced. Additionally it offers analysis of potential solutions and posits how law may be used as a tool to remedy health injustice. Written for a wide interdisciplinary audience of students and scholars in public health medicine and law as well as other health professions this accessible text discusses both the systems and policies that influence health and explores opportunities to advocate for legal and policy change by public health practitioners and policymakers physicians health care professionals lawyers and lay people.
