Communicative Sexualities Jacqueline M. Martinez, 2011-07-16 Communicative Sexualities Queer and Feminist Theories in Practice by Jacqueline M Martinez provides an argument for and illustration of how to pursue the direct study of students lived experiences of sexuality in a classroom or academic setting It illustrates how

communicology and its methodological practice of semiotic phenomenology allows for a sustained and rigorous study of the meaningfulness of sexual experience as it becomes manifest in the immediate concrete and embodied realities in the lives of those taking up such a study. The generous use of extended examples from actual classroom experience allows for a detailed consideration of the applied research methodology as well as the ethical issues involved in making students' lived experience of sexuality the main subject matter of the course. A major concern of *Communicative Sexualities* is to make explicit the many presuppositions about sex, gender, and sexuality that students and professors bring into the classroom. Martinez's text features detailed discussions of how to study lived experience: sexuality as the subject matter of research. It considers the steps necessary in suspending presuppositions regarding sexuality and gender and focuses particular attention on the many presuppositions associated with the heterosexual/homosexual binary. Sexuality is understood as inherently good yet also capable of becoming a means of perpetuating human isolation and degradation as much as an experience of tremendously shared human intimacy and mutual recognition. Discussions of historical context, the fact of temporality, and the intersection of person and culture provide a basis for explicit discussions of semiotics and phenomenology in communicology. As an introductory text, *Communicative Sexualities: Queer and Feminist Theories in Practice* by Jacqueline M. Martinez is an excellent primer for the advanced study of communicology and semiotic phenomenology. It is one of very few texts that provides both a theoretical or philosophical discussion of phenomenology with the study of sexuality and gender as an explicit subject matter.

Help I'M Cheating on God Juhi Cha, 2010-10-30

Rusty Dearest Charlie Wood, 2010-11-01 This is a story of my father who went to war as a soldier. Years after he passed away of cancer, our mother passed on to join him. We found among countless family mementos, most of them worthless, a nondescript cardboard box filled with hundreds of letters he had written to her from the battlefields of France and Germany. His letters were very clear that in his time of need, a trial of terror fueled by Nazi bombs, she had been his salvation. She and their baby son gave him the reason he needed to stay alive. There, in ink and sometimes pencil, he told her again and again of his dreams for the future while he lived each day in a world of foxholes and nerve-shattering explosions where each day death came to call. For him and every other soldier on either side, tomorrow was one day closer to the end, whatever that might be. In his letters, he told her again and again she was the greatest love he could ever know. *Rusty Dearest* is their story.

Making Chastity Sexy Christine J. Gardner, 2011-07-28 Even though they are immersed in sex-saturated society, millions of teens are pledging to remain virgins until their wedding night. How are evangelical Christians persuading young people to wait until marriage? Christine J. Gardner looks closely at the language of the chastity movement and discovers a savvy campaign that uses sex to sell abstinence. Drawing from interviews with evangelical leaders and teenagers, she examines the strategy to shift from a negative "just say no" approach to a positive "just say yes to great sex within marriage." *Making Chastity Sexy* sheds new light on an abstinence campaign that has successfully recast a traditionally feminist idea, "my body, my choice," into a powerful message, but one that Gardner suggests

may ultimately reduce evangelicalism's transformative power. Focusing on the United States, her study also includes a comparative dimension by examining the export of this evangelical agenda to sub-Saharan Africa.

Gender Relations in an Indonesian Society Nurul Ilmi Idrus, 2016-04-08. Gender Relations in an Indonesian Society offers a comprehensive ethnography of Bugis marriage through an exploration of gender identity and sexuality in this bilateral, highly competitive, hierarchical society. Nurul Ilmi Idrus considers the fundamental concept of *siriq* (honour/shame) in relation to gender socialization, courtship, sex within marriage, the regulation of sexuality between genders, the importance of kinship and status in marriage, and the dynamics of marriage, divorce, and reconciliation. This analysis considers the practical combination of Islamic tenets with local adat (custom/customary law) and the effect of contemporary Indonesia's national ideology on cultural practices specific to Bugis society.

Wolf-Women and Phantom Ladies Steven Dillon, 2015-03-17. Provides encyclopedic coverage of female sexuality in 1940s popular culture. Popular culture in the 1940s is organized as patriarchal theater. Men gaze upon, evaluate, and coerce women who are obliged in their turn to put themselves on sexual display. In such a thoroughly patriarchal society, what happens to female sexual desire? *Wolf-Women and Phantom Ladies* unearths this female desire by conducting a panoramic survey of 1940s culture that analyzes popular novels, daytime radio serials, magazines, and magazine fiction, marital textbooks, Hollywood and educational films, jungle comics, and popular music. In addition to popular works, Steven Dillon discusses many lesser-known texts and artists, including Ella Mae Morse, a key figure in the founding of Capitol Records, and Lisa Ben, creator of the first lesbian magazine in the United States. This exciting book presents a truly capacious understanding of US culture and offers a spectacular array of analyses of how the decade's cultural discourse struggled to define female desire and how so much male literature and filmmaking sought to constrain it. Dillon's study will teach scholars of modern American literature and culture a great deal more about the 1940s than they already know or think they know. It is a brilliant addition to the field.

Guide to Psychological Assessment with Hispanics Lorraine T. Benuto, 2012-09-19. This book focuses on diversity, culture, and ethnicity as they relate to psychological assessment of Hispanics. It is a how-to guide for clinicians, researchers, and instructors working with Hispanic clients. Each chapter contains an overview of cultural considerations needed for assessing the Hispanic client, followed by a specific exploration of the assessment measures available and the research that has been conducted on these measures with Hispanic participants. An exploration of the strengths and limitations of each assessment measure is included. Considering that ethnocultural minority individuals who are of Hispanic/Latino origin make up the largest ethnocultural minority group in the United States, guidelines for working with this population are a must. Given that a large subset of this percentage is composed of immigrants, many of whom do not speak English or who have learned English as a second language, special

considerations for effective psychological assessment are necessary. This book fills a gap in the scientific literature by consolidating the research on psychological assessment with Hispanic samples into one comprehensive volume and providing simple recommendations for the psychological assessment of Hispanic clients. An exploration of the general psychological assessment domains e.g. personality intelligence is included with references to research on the major assessment measures used in the field. A more specific exploration of psychodiagnostic assessment measures follows including the assessment of mood disorders, anxiety disorders, sexual dysfunction, psychosis, etc. Several chapters are dedicated to specialized assessment including neuropsychological assessment, forensic assessment, and school-based assessment, overall creating the most comprehensive up-to-date research-based compendium of psychological assessment measures for use with Hispanic clients.

Facing the Complexities of Women's Sexual Desire Vera S. Maass, 2006-11-22 This book represents a broad-based approach to a narrow but complex issue. The issue causes distress for many and has been instrumental in family disruption and divorce. Women's sexual desire, whether it is too little or too much, has become an issue of growing concern and vague promises for solution. In the meantime, the women are looking for answers, consulting professionals in the field of human sexuality, physicians, or therapists, media advice, and self-help books. The material discussed in this book is not part of any structured research. The women encountered in the pages of this book have not been selected on a random basis. Some have been clients, some are volunteers from the general population, and another group is made up of undergraduate college students. The college students came from a varied ethnic and cultural background, while the clients mainly were of white and African American background. The volunteers were predominantly from a white middle-class population. There is no claim that the women are representative of all women in the general population.

Sex and Love in the Home, Second Edition David M. McCarthy, 2011-01-01 This book inaugurates a completely new way of thinking about the ethics of marriage and sex. I know of no book on the subject more promising than what McCarthy has achieved here. Stanley Hauerwas, Gilbert T. Rowe, Professor of Theological Ethics, Duke University. Much has been written in Christian theology about sex, love, and procreation, but their social meanings and contributions are much more rarely addressed. McCarthy now takes this greatly neglected task eloquently, connecting the Christian household to the common good. All those who want to realize the social vocation of the

Christian family will find in this work a rich and challenging resource for understanding and for life Lisa Sowle Cahill J
Donald Monan Professor of Theology Boston College Drawing on his own experience of learning how to be a husband and

neighborly space which resists consumerism and enables sexual relationships to be ordinary meaningful and passionate If
you think that all that Christian theology has to say about sex and relationships is twaddle about complementarity and family
