Psychoanalysis and Male Homosexuality Kenneth Lewes, 2009-03-26 This landmark book is the first and only historical cultural and theoretical account of how male homosexuality has been viewed and frequently misconstrued and distorted by the psychoanalytic tradition from Freud through the 1980s In this groundbreaking survey Kenneth Lewes shows how the original psychoanalytic ideals of understanding and compassion were betrayed by later psychoanalytic clinicians and theorists Reconsidering Freud and his early followers in a new light Lewes shows how they posited a model of psychological development that included homosexuality as one of its natural variants But psychoanalysis in its later attitudes toward homosexuality soon changed from an open minded and humane discipline into an insular and calcified orthodoxy Exposing the basis of the acrimony and alienation that have characterized relationships between homosexuals and psychoanalysis Psychoanalysis and Male Homosexuality is a sometimes shocking account of intolerance hostility and close mindedness But it also carefully and fairly documents a parallel story of unexpected sensitivity as it explores the future possibilities as well as the limits of psychoanalysis as a humane science This twentieth anniversary edition includes a new introduction by the author in which he reflects on the changes that have occurred in the past twenty years between the psychoanalytic establishment and people who are homosexual It also includes two forewords by prominent analysts Gilbert Cole and Donald Moss who discuss the personal and historical importance of Lewes's work **Sexidemic** Lawrence R. Samuel, 2013-02-07 Sexidemic is the first real cultural history of sexuality in the United States since the end of World War II For a people who supposedly love sex the author argues Americans have had no shortage of problems with it Since the end of World War II in fact we've had a contentious relationship with sexuality the subject a source of considerable tension and controversy on both an individual and societal level Rather than being a simple pleasure of life something to be enjoyed sex has served as a challenging and disruptive force in many Americans everyday lives for the last two thirds of a century Our love affair with sex has thus been a rocky one filled with bumps in the road that have caused major instability across our cultural landscape Our individualistic competitive consumerist and anxious national character is both reflected in and reinforced by this sexidemic something few have recognized or perhaps want to admit By charting the cultural trajectory of sex in America since the end of World War II Sexidemic reveals how the nation's continual woes with sexuality helped make us an anxious insecure people The sex lives of many perhaps most Americans have been in a perpetual state of crisis a constant source of concern We've

fretted over every dimension of it with problems in both quality and quantity With this unhealthy view of sexuality it was not surprising that we felt we needed a variety of potions and gadgets to make it happen or be pleasurable In tracing the cultural trajectory of sex in our society Samuel illustrates our bipolar approach to sexuality low libido and sex addiction emerged as common disorders and sex scandal after sex scandal has made headlines especially over the last couple of years Only money has surpassed sex as a source of stress for Americans indeed sex has come to be seen and treated as a commodity In this timely work the author traces the role sex plays in our society how it shapes us and the world around us and how we got where we are today in our views treatment and practice of sex and sexuality in our everyday lives Men in the Middle

James Gilbert, 2005-07 While the 1950s have been popularly portrayed on television and in the movies and literature as a conformist and conservative age the decade is better understood as a revolutionary time for politics economy mass media and family life Magazines films newspapers and television of the day scrutinized every aspect of this changing society paying special attention to the lifestyles of the middle class men and their families who were moving to the suburbs newly springing up outside American cities Much of this attention focused on issues of masculinity both to enforce accepted ideas and to understand serious departures from the norm Neither a period of male crisis nor yet a time of free experimentation the decade was marked by contradiction and a wide spectrum of role models This was in short the age of Tennessee Williams as well as John Wayne In Men in the Middle James Gilbert uncovers a fascinating and extensive body of literature that confronts the problems and possibilities of expressing masculinity in the 1950s Drawing on the biographies of men who explored manhood either in their writings or in their public personas Gilbert examines the stories of several of the most important figures of the day revivalist Billy Graham playwright Tennessee Williams sociologist David Riesman sex researcher Alfred Kinsey Playboy literary editor Auguste Comte Spector and TV sitcom dad Ozzie Nelson and allows us to see beyond the inherited stereotypes of the time Each of these stories in Gilbert's hands adds crucial dimensions to our understanding of masculinity the 1950s No longer will this era be seen solely in terms of the conformist man in the gray flannel suit or the Marlboro Man **The Bigamist** Amelie Hastie, 2019-07-25 Directed by the actor film maker Ida Lupino The Bigamist 1953

is the story of Harry Graham a salesman travelling between two towns and two wives In its portrayal of Harry's double life the film takes on a double life of its own hovering as it does between two genres Telling the story through Harry's voice over yet eschewing the iconic character of the femme fatale Lupino's film reveals and recasts film noir as male melodrama par excellence In its rendering of this emotionally paralysed man The Bigamist is a fascinating study of the post War male A collaborative affair The Bigamist was written and produced by Lupino's ex husband Collier Young co starring his current wife Joan Fontaine as bride number one with Lupino in a turn as bride number two The last of five films that Lupino directed for the independent production company that she co founded The Filmakers it was notably the only film of its period with a woman director who also played a starring role Amelie Hastie explores the film in the context of Lupino's personal and

professional history This is a film Hastie argues that reveals the changing structure of Hollywood film production in light of the emergence of independent studies it delineates the life and exemplifies the work of one of only two women directors in the Classical Hollywood era and it provides a complex commentary on the fantasies and fear of mid century domestic life in the USA Amelie Hastie is Associate Professor of Film and Digital Media at the University of California Santa Cruz She is the author of Cupboards of Curiosity Women Recollection and Film History 2007 Catalog of Copyright Entries.
