Machtwechsel Die Ara Brandt Scheel:

The Party's Over Alfred C. Mierzejewski, 2020-11-13 The Party's Over The End of the Welfare State Boom in Western Europe provides the first comprehensive account of the West German Pension Reform Law 1972 Rentenreformgesetz 1972 RRG 1972 which marked the end of the period of rapid welfare state growth in Western Europe after World War II Alfred C Mierzejewski uses extensive archival research to explore how the law was conceived how it was modified and expanded during parliamentary debate and the effects that it had after it was enacted Mierzejewski puts the reform into Western European context by comparing it with British and French efforts to develop their public pension systems since the seventeenth century In doing so The Party's Over highlights both the general trends in post World War II Western European welfare state development as well as the differences in how these three countries organized and managed their pension plans Mierzejewski underscores the political risk that endangers old age pensions delivered by government mandated pay as you go systems and demonstrates how policy matters revealing how the end of the West European welfare state boom is relevant and significant for both workers and retirees today The Diplomats, 1939-1979 Gordon A. Craig, Francis L. Loewenheim, 2019-01-15 This volume offers a unique perspective on a turbulent and dangerous age by focusing on the activities and accomplishments of its diplomats Its twenty three interconnected essays discuss the politics of ambassadors foreign ministers and heads of state from Acheson and Adenauer to Sadat and Gromyko as well as the special problems of the professionals in the foreign offices and the role of the media in modern diplomacy Among its contributors are such distinguished international scholars as Akira Iriye Michael Brecher Stanley Hoffmann W W Rostow and Norman Stone Expanding the field of inquiry covered by its acclaimed predecessor The Diplomats 1919 1939 which concentrated on Europe and the coming of the Second World War these essays showcase the major diplomatic practitioners of the period against the broader background of the problems and crises that confronted them among others the Polish question at the end of World War II the onset of the Cold War the defeat of EDC in 1954 the Suez crisis Khrushchev's Berlin note in 1958 the Middle East War of 1967 and the oil shock of 1973 the Iranian revolution and the Soviet invasion of Afghanistan This account of the pendular swing from crisis and detente and back again is given a global perspective by careful treatment of the diplomacy of new nations like India Communist China and Israel and the transformation of the Middle East and Japan Among the new perspectives offered here are Geoffrey Warner's critical view of Ernest Bevin's attitude toward the United States John Lewis Gaddis's judgment of Henry Kissinger's detente policy W W Rostow's analysis of the diplomatic method of Paul Monnet Rena Fonseca's assessment of Nehru's policy of nonalignment Shu Guang Zhang's fresh look at the relationship between Zhou Enlai and Mao and Paul Gordon Lauren's critique of U N crisis management from Trygve Lie to Perez de Cuellar Highly original also are Steven Miner's portrait of Molotov Michael Brecher's pioneering study of the diplomacy of Abba Eban and James McAdams's analysis of German Ostpolitik Originally published in 1994 The Princeton Legacy Library uses the latest

print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Foundations of Ostpolitik Julia von Dannenberg, 2008-01-10 Based on recently released archival sources this book is the first systematic analysis of the German Soviet negotiations leading to the conclusion of the Moscow Treaty of August 1970 This treaty was the linchpin of the New Ostpolitik launched by Chancellor Willy Brandt's government as a policy of reconciliation and an attempt to normalize relations with the countries of the Eastern bloc Focusing on the decision making processes both within the German domestic political system as well as within the international context this study offers a new interpretation of the shift from confrontational to détente politics at this time arguing that the Moscow Treaty was the product of various interrelated domestic and external factors As Dannenberg shows the change of government to a Social Liberal coalition was the first important precondition for Ostpolitik while the speedy conclusion of the Moscow Treaty owed much to the high degree of secrecy and centralization that characterized Brandt's policy making and that of his small coterie of advisors However Brandt's predominance in the decision making process does not mean that he alone determined the direction of policy His room for manoeuvre was amongst other things constrained by his coalition's narrow parliamentary majority as well as the Western Allies' special rights On the other hand German Soviet trade expansion public opinion and the emerging international interest in détente in the mid 1960s were crucial factors favouring Ostpolitik It was in this configuration of circumstances that Brandt placed himself at the forefront of the movement towards détente between East and West by introducing his bold diplomatic design one that had the reunification of Germany as its ultimate goal *Dealing with the Devil* M. E. Sarotte, 2001 Going behind the scenes of Cold War Germany during the era of détente this text studies how East and West tried negotiation instead of confrontation to settle their differences It reveals how the relationship between centre and periphery functioned in the Cold War Soviet empire Changing the World, Changing Oneself Belinda Davis, 2010 A captivating time the 60s and 70s now draw more attention than ever The first substantial work by historians has appeared only in the last few years and this volume offers an important contribution These meticulously researched essays offer new perspectives on the Cold War and global relations in the 1960s and 70s through the perspective of the youth movements that shook the U S Western Europe and beyond These movements led to the transformation of diplomatic relations and domestic political cultures as well as ideas about democracy and who best understood and promoted it Bringing together scholars of several countries and many disciplines this volume also uniquely features the reflections of former activists **Between Bonn and Berlin** Mary N. Hampton, Christian Sørensen, 1999 Examining Germany's image of political drift the authors focus on current debates regarding the country's welfare state European monetary policy security policy

warnings about a supposed German hegemony symbolic or geopolitical implications of the return to Berlin and new complexities in party politics and public opinion While there is far more similarity between the Berlin Republic and its West German predecessor than there ever could have been between DWeimarD and D Bonn D the authors also show that united Germany is in many ways more than an enlarged version of its successful forerunner

The Germans and the East Charles W. Ingrao, Franz A. J. Power and Protest Jeremi Suri, 2005-04-15 In a brilliantly conceived book Jeremi Suri puts the tumultuous 1960s into a truly international perspective in the first study to examine the connections between great power diplomacy and global social protest Profoundly disturbed by increasing social and political discontent Cold War powers united on the international front in the policy of detente Though reflecting traditional balance of power considerations detente thus also developed from a common urge for stability among leaders who by the late 1960s were worried about increasingly threatening domestic social activism In the early part of the decade Cold War pressures simultaneously inspired activists and constrained leaders within a few years activism turned revolutionary on a global scale Suri examines the decade through leaders and protesters on three continents including Mao Zedong Charles de Gaulle Martin Luther King Jr Daniel Cohn Bendit and Aleksandr Solzhenitsyn He describes connections between policy and protest from the Berkeley riots to the Prague Spring from the Paris strikes to massive unrest in Wuhan China Designed to protect the existing political order and

A Spectre is Haunting Arabia Miriam M.
