whether and under which conditions the proposed methodology can help schools promote both quality and equity Finally implications for school evaluation research educational policy and practice are drawn In this way the book contributes significantly to the debate on how quality and equity can be achieved and encourages policy makers and practitioners not to view these two dimensions of effectiveness as being in competition with each other but as constituting the major objectives of any reform policy and or improvement effort at school and or national levels Educational Times and Journal of the College of Preceptors ,1909 Saturday Review ,1871 *The Reference Catalogue of Current Literature* ,1910 Education Outlook ,1898 *The Publishers' Trade List Annual* ,1985 *Subject Guide to Books in Print* ,1996
