Doran, Lonergan Research Institute, 1988-01-01 *Macroeconomic Dynamics* represents the economic thought of Lonergan at the end of his career His analysis breaks from centralist theory and practice towards a radically democratic perspective on surplus income and non political control and explores more fully the ideas introduced in *For a New Political Economy* [Macroeconomic Dynamics: an Essay in Circulation Analysis](#) Bernard Lonergan, 1999 **Collected Works of Bernard Lonergan: Macroeconomic dynamics: an essay in circulation analysis** Bernard J. F. Lonergan, 1988 *Macroeconomic Dynamics* Bernard Lonergan, 1999-12-25 Few theologians in history have matched Bernard Lonergan's range of learning Fewer still have written on the dismal science of economics Rooted so solidly in the concerns of this world economics is not a discipline we associate with the more rarified pursuit of theology In this long awaited volume Lonergan demonstrates the short sightedness of this view This companion volume to *For A New Political Economy* *Collected Works of Bernard Lonergan* Volume 21 continues the work of bringing together the various elements of Lonergan's economic thought His economic writings span forty years and represent one of the most important intellectual achievements of the twentieth century They have previously been inaccessible outside of the Lonergan research community as the majority of them have not been formally published and exist only as a group of unfinished essays and material for courses on economics taught by Lonergan Lonergan's economic ideas track a different line of thought from that taken by contemporary economists *Macroeconomic Dynamics An Essay in Circulation Analysis* represents the economic thought of Lonergan at the end of his career His analysis while taking a fresh look at fundamental variables breaks from centralist theory and practice towards a radically democratic perspective on surplus income and non political control and explores more fully the ideas introduced in *For a New Political Economy* This work will be read not only by economists but also by liberation theologians political theologians and others inside and outside of religious organizations interested in social justice issues and alternative approaches to economics

**Lonergan, Social Transformation, and Sustainable Human Development** Joseph Ogbonnaya, 2013-01-29 Secular contemporary development discourse deals with the problems of societal development and transformation by prioritizing the human good in terms of vital and social values with the aim of providing the basic necessities of life through social institutions that work While such an approach is profitable by promoting economic growth it does not take note of other dynamics of social progress and development Also it fails to notice the consequences of development strategies on human flourishing well being and happiness Ogbonnayu argues for an integral approach to development by engaging in a fruitful dialogue between Bernard Lonergan's philosophical anthropology with contemporary development discourse as represented in select theories of development and in select principles of Catholic social teaching It makes a case for social progress and transformation as emanating from human understanding Also it highlights the parts of Lonergan's theory that contribute to

an understanding specifically of his treatment of bias and of the shorter and longer cycles of societal decline In view of the reality of moral impotence and limitations it considers the reversal of societal decline as possible through the supernatural solution of God's grace **Lonergan's Early Economic Research** Bernard J. F. Lonergan, Michael Shute, 2010-01-01
