conflicts between groups of people claiming ethnic and national identity as a basis for sovereignty over specific territories it is timely to consider the part that literature has played and is playing in the creation of ethnic and national stereotypes What role do such stereotypes have in literature How are they created From what materials are they constructed What purpose do ethnic and national stereotypes serve Can it ever be a useful one Are they avoidable Can we live without them What can be done about the deleterious effects they may be thought to produce Stereotyping is worldwide is there a tribe race and nation in existence which escapes being stereotyped by its neighbours In what sense are these stereotypes accurate How are these stereotypes reflected in and reinforced by literature Should and can literature do anything about them In *Beyond Pugin's Tour National and Ethnic Stereotyping in Theory and Literary Practice* literary scholars as well as academics engaged in sociological and psychological research consider these and other questions by examining the work of specific authors and the circumstances in which stereotyping plays such a crucial part *The Burning Blue* Jeremy A. It was of course the Battle of Britain or rather its conclusion that prompted one of Winston Churchill's most memorable pieces of oratory that has its epitome in the sentence Never in the field of human conflict was so much owed by so many to so few If the Battle of Britain had been lost it is very likely the New Order to which the Axis powers had pledged themselves would have become global with unthinkable consequences for the world afterwards The importance of the Battle of Britain cannot be exaggerated though inevitably in the succeeding years the accretion of myth has brought about many distortions This multi faceted symposium emerged from the Centre of Second World War Studies at Edinburgh University with the aim in the words of the editors to reassess established themes while opening up new ones After a masterly introduction by Brian Bond the book is divided into six parts Before the Battle The Battle The View from Afar Experience and Memory The Making of a British Legend and The Significance The contributors are Klaus A Maier Malcolm Smith Horst Boog Sebastian Cox Sergei Kudryshov Richard P Hallion Theodore F Cook Hans Ekkehard Bob Wallace Cunningham Nigel Rose Owen Dudley Edwards Angus Calder Tony Aldgate Adrian Gregory Jeremy Lake and John Schofield Paul Addison and Jeremy A Crang and Richard Overly No survey could be more wide ranging or fascinating First published in 2000 to mark the 60th anniversary it is now being reissued in 2010 to mark the 70th anniversary But it is terrific It's not only an acknowledgement of the heroism of the fighter pilots and all the ancillary crew but a serious contribution to the historical record Seventeen contributors write about the Battle from pretty much every conceivable angle and Addison and Crang have chosen them well This is not an automatically worshipful book it poses questions about the morality of war the existence of heroism the reliability of memory But it treats the subject honestly and with justice And it tells us why we won because it would appear it helps to come from a society that is sceptical of authority rather than in blind unthinking terror of it Nicholas Lezard Guardian This book is a first class piece of work stimulating informative and concise Brian Holden Reid Times Higher Education Supplement This is a nugget of a book it assembles most readably a range of authoritative and international views

on the Battle its history and its significance Air Chief Marshall Sir Michael Graydon Royal United Services Institute This is a much told story but the varied viewpoints of the 20 contributors to Burning Blue ranging from a fascinating essay by Owen Dudley Edwards on the air war as reflected in children s literaturer to the memories of pilots who fought in it on both sides give an impressive breadth and depth And even though it strips away hindsight and refuses to burnish legends what is left is still one of the most remarkable stories in the whole of British history The British empire didn t last a thousand years but the man was right this truly was its finest hour David Robinson The Scotsman

**Far Out** Mark Liechty,2017-02-21 Westerners have long imagined the Himalayas as the world s last untouched place and a repository of redemptive power and wisdom Beatniks hippie seekers spiritual tourists mountain climbers diverse groups of people have traveled there over the years searching for their own personal Shangri La In Far Out Mark Liechty traces the Western fantasies that captured the imagination of tourists in the decades after World War II asking how the idea of Nepal shaped the everyday cross cultural interactions that it made possible Emerging from centuries of political isolation but eager to engage the world Nepalis struggled to make sense of the hordes of exotic enthusiastic foreigners They quickly embraced the phenomenon however and harnessed it to their own ends by building tourists fantasies into their national image and crafting Nepal as a premier tourist destination Liechty describes three distinct phases the postwar era when the country provided a Raj like throwback experience for rich Americans Nepal s emergence as an exotic outpost of hippie counterculture in the 1960s and its rebranding into a hip adventure destination which began in the 1970s and continues today He shows how Western projections of Nepal as an isolated place inspired creative enterprises and paradoxically allowed locals to participate in the global economy Based on twenty five years of research Far Out blends ethnographic analysis a lifelong passion for Nepal and a touch of humor to produce the first comprehensive history of what tourists looked for and found on the road to Kathmandu
