this entire era Through a kaleidoscope of lives both familiar and unknown from John Adams Toussaint Louverture and Napoleon to an ambitious French naturalist and a seditious Peruvian nun he retells the revolutionary epic as a generational story The first revolutionary generation fired by radical ideas struggled to slip the hierarchical bonds of the old order Their failures molded a second generation more adept at mass organizing but with an illiberal tint The sweeping political transformations they accomplished after 1800 etched social and racial inequalities into the foundations of modern democracy A breathtaking history spanning three continents The Age of Revolutions uncovers how the period's grand political transformations emerged across oceans and slowly and unevenly over generations

Women Founders of the Social Sciences Lynn McDonald, 2013-12-01 Ground breaking and original this book debunks the myth that empirical social science has been dominated by its male founders and methodologists The author re analyses the critical role British French and American women played in creating the field from the 16th through the early 20th centuries Included are Mary Astell Mary Wollstonecraft Harriet Martineau Beatrice Webb Catharine Macauley Florence Nightingale Madame de Sta l and Jane Addams

Sexual Politics in the Enlightenment Mary Seidman Trouille, 1997-01-01 Explores the way seven women writers of the eighteenth century responded to Rousseau and traces his crucial influence on their literary careers *The Other Enlightenment* Carla Hesse, 2003-03-30 This historical study examines the way women used writing to create themselves as modern individuals in post Revolutionary France From publisher description

A Mother's Love Lesley H. Walker, 2008 Chronicles the emergence of an idealized mother figure whose reforming zeal sought to make French society more just This book contends that this attempt during the eighteenth century to rewrite social relations in terms of greater social equality represents an important but overlooked strand of Enlightenment thought Madame Roland, Makers of History John S. C. Abbott, 2009-01-01

Orphans on the Earth Bette W. Oliver, 2009-07-16 Just as it was not foreordained that the Terror of 1793D1794 should follow the early idealistic years of the French Revolution neither could it have been imagined that some of those elected deputies who had helped to establish the new republic would become fugitives from their own government Yet in May to June 1793 twenty nine deputies of the moderate Girondin faction were expelled from the National Convention by the radical Jacobin leadership and placed under house arrest This action followed months of irreconcilable quarrels between the Girondin and Jacobin factions Some of the proscribed deputies chose to remain in Paris and were subsequently executed in October 1793 Others escaped fleeing first to Caen in Normandy where they hoped to ignite a federalist revolt against the government in Paris When their efforts failed a small group of the former deputies fled to nearby Brittany and then down the western coast to the Bordeaux area where they found refuge near St Emilion Hiding for several months in the home and attached stone quarry of the deputy Guadet's relatives four of these fugitives wrote their memoirs before their presence was discovered by one of Robespierre's agents The memoirs of Fran_ois Buzot Jerome PZtion Charles Barbaroux and Jean Baptiste Louvet in addition to correspondence between them and Jean and Manon Roland

provide the basis for this book This is the first book to examine the lives of the fugitives during the period of the Terror 1793D94 after which only Louvet remained alive **Women Theorists on Society and Politics** Lynn

McDonald,1998-05-14 Revolution abolition of slavery public health care welfare violence against women war and militarism such issues have been debated for centuries But much work done by women theorists on these traditional social and political topics is little known or difficult to obtain This new anthology contains significant excerpts not normally included in standard collections Women Theorists on Society and Politics brings together scarce previously unpublished and newly translated excerpts from works by such women theorists as Emilie du Ch atelet Germaine de Sta el Catharine Macaulay Mary Wollstonecraft Flora Tristan Harriet Martineau Florence Nightingale Beatrice Webb and Jane Addams It focuses on eighteenth and nineteenth century writers but also includes some selections from as early as the Renaissance and late seventeenth century Introductions to the material biographical background and secondary sources enhance this important collection Women Theorists on Society and Politics provides essential theory on standard topics and a balance to the anthologies of feminist writing now more commonly available Enlightenment and Emancipation Susan Manning,Peter France,2006 The Enlightenment has been represented in radically opposing ways on the one hand as the throwing off of the chains of superstition custom and usurped authority on the other hand in the Romantic period but also more recently as what Michel Foucault termed the great confinement in which mind forged manacles imprison the free and irrational spirit The debate about the Enlightenment project remains a topical one which can still arouse fierce passions This collection of essays by distinguished scholars from various disciplines addresses the central question Was Enlightenment a force for emancipation Their responses working from within and frequently across the disciplinary lines of history political science economics music literature aesthetics art history and film reveal unsuspected connections and divergences even between well known figures and texts In their turn the essays suggest the need for further inquiry in areas that turn out to be very far from closed The volume considers major writings in unusual juxtaposition highlights new figures of importance and demonstrates familiar texts to embody strange implications Publisher s website *The Feminist Encyclopedia of French Literature* Eva M. Sartori,1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive

information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer s awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers

Jacques Pierre Brissot in America and France, 1788-1793

Bette W. Oliver, 2016-09-14 This book examines a decisive five year period in the life of Jacques Pierre Brissot one of the influential leaders of the French Revolution An idealistic somewhat naive journalist who became a member of the national assembly Brissot championed the new American republic as an example for the French revolutionary government to follow This book is not intended to serve as a biography of the Girondin leader but rather to present an examination of his life between 1788 when he visited the United States and 1793 when he was executed As such the narrative necessarily focuses on the events of the revolution as the ever present background to Brissot s thoughts and actions Both as a journalist and as a legislator Brissot was consumed by the tumultuous events of the period under review The book is based primarily on the publications correspondence and memoirs of Brissot as well as materials from the Bibliotheque Nationale the Archives Nationales and relevant secondary sources It also includes comparisons between Brissot s observations of America in 1788 published in 1791 as *Nouveau Voyage dans les Etats Unis de l Amerique Septentrionale* 1788 and those of his countryman Alexis de Tocqueville in his widely read *Democracy in America* which described his visit in 1831 and was published in 1835

Women's Roles in Eighteenth-Century Europe Jennine Hurl-Eamon, 2010-04-09 This concise historical overview of the existing historiography of women from across eighteenth century Europe covers women of all ages married and single rich and poor During the 18th century the Enlightenment the French Revolution protoindustrialization and colonial conquest made their marks on women s lives in a variety of ways *Women s Roles in Eighteenth Century Europe* examines women of all ages and social backgrounds as they experienced the major events of this tumultuous period of sweeping social and political change The book offers an inclusive portrayal of women from across Europe surveying nations from Portugal to the Russian Empire from Finland to Italy including the often overlooked women of Eastern Europe It depicts queens an empress nobelwomen peasants and midwives Separate chapters on family work politics law religion arts and sciences and war explore the varying contexts of the feminine experience from the most intimate aspects of daily life to broad themes and conditions

The Political, Social, and Literary History of France: Brought Down to the Middle of the Year 1871 Ebenezer Cobham Brewer, 1871 **Philosophy in a Feminist Voice** Janet A. Kourany, 1997-12-29 In this book Janet Kourany offers an antidote to the pervasive and pernicious strains in Western philosophy that discount women. Most areas of Western philosophy tend not only to ignore women but also to perpetuate long-standing antifeminine biases of the society as a whole. It does not have to be this way. Rather than be part of the problem, philosophy can be a powerful force for much-needed social change. In this collection of essays by some of the most noted feminist philosophers, Kourany showcases ideas on the newest work of Western philosophy that is benefiting women as well as men. Included here are articles by Eileen O'Neill, Louise Antony, Virginia Held, Susan Okin, Carolyn Korsmeyer, Nancy Frankenberry, Lorraine Code, Janet Kourany, Andrea Nye, and Susan Bordo, all of whom show further directions in which philosophy ought to proceed. This book demonstrates that feminist philosophy is not a separate area of philosophy that can safely be ignored by philosophers not in it. Rather, it relates to at least most of the major areas of philosophy and its gains will stand to benefit all philosophers, no matter what their field.
