Politics in China William A. Joseph, 2019 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist

Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence. But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders. Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy. And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform. China is now for the most part peaceful, prospering and proud. The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth. Yet the party and country face serious challenges on many fronts including a slowing economy, environmental desecration, pervasive corruption, extreme inequalities, ethnic unrest, and a rising tide of social protest. Politics in China provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today. The third edition has been extensively revised, thoroughly updated, and includes a new chapter on the internet and politics in China. The book's chapters provide overviews of major periods in China's modern political history from the mid-nineteenth century to the present, examinations of key topics in contemporary Chinese politics, and analyses of developments in four important areas located on China's geographic periphery: Tibet, Xinjiang, Hong Kong, and Taiwan.

The Cultural Revolution Frank Dikötter, 2017-06-06. The concluding volume following Mao's Great Famine and The Tragedy of Liberation in Frank Dikötter's award-winning trilogy chronicling the Communist revolution in China. After the economic disaster of the Great Leap Forward that claimed tens of millions of lives from 1958-1962, an aging Mao Zedong launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy. The Cultural Revolution's goal was to purge the country of bourgeois, capitalistic elements he claimed were threatening genuine communist ideology. Young students formed the Red Guards, vowing to defend the Chairman to the death, but soon rival factions started fighting each other in the streets with semiautomatic weapons in the name of revolutionary purity. As the country descended into chaos, the military intervened, turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people.

The Cultural Revolution: A People's History, 1962-1976 draws for the first time on hundreds of previously classified party documents, from secret police reports to unexpurgated versions of leadership speeches. After the army itself fell victim to the Cultural Revolution, ordinary people used the political chaos to resurrect the market and hollow out the party's ideology. By showing how economic reform from below was an unintended consequence of a decade of violent purges and entrenched fear, **The Cultural Revolution** casts China's most tumultuous era in a wholly new light.
