SERIOUS INCIDENT REPORT

May 2023

A worker was assisting a forklift operator to load a pallet of steel weighing approximately 5000 lbs onto a table. As the worker was adjusting the table, their thumb got caught in between the pallet and the metal table.

A worker was using a chuck key to make an adjustment on a manual lathe when the lathe inadvertently started.

A worker was adjusting a capping machine and the equipment was powered off. The conveyor belt below the capper was still running when the workers' hand was pulled in by their glove/sleeve.

A fire occurred at the workplace. The cause was unknown, however no workers were injured.

A fire started outside a facility with scrap material close to a shredder. Emergency services on scene.

A small explosion took place in a scrap shredder. No injuries or property damage occurred.

A World Made Safe for Differences Christopher Shannon,2001 In *A World Made Safe for Differences* Christopher Shannon examines how an anthropological definition of culture shaped the central political and social narratives of the Cold War era In the middle decades of the twentieth century American intellectuals understood culture as a whole way of life and a pattern of values in order to account for and accommodate differences between America and other countries and within America itself Shannon locates the ideological origins of current debates about multiculturalism in the pluralist thought of consensus liberalism The emphasis on individualism in contemporary identity politics Shannon suggests must be understood as a legacy of the Cold War liberalism of the 1950s rather than the counter culture radicalism of the 1960s *A World Made Safe for Differences* is a highly original and controversial book that will be of great interest to students and scholars of twentieth century American history
