Love and Madness M. J. Levy, 2004-02-03 It was a savage crime that rocked both British high society and the church and inflamed the interest and imagination of such renowned personages as Samuel Johnson and James Boswell, noted biographer and lover of prostitutes and executions. And it resulted in a courtroom extravaganza unique in the annals of legal proceedings where passion was the motive, the madness of momentary phrenzy the mitigating circumstance, and love the ultimate justification for a crazed act of murder. Martin Levy brings to life the sights and sounds of an unparalleled era in history when hangings were public entertainment and debauchery was a popular pastime of the wealthy and the titled, and unravels the mystery behind a truly sensational slaying. **BOOK JACKET** 'She Is Evil!' Judith A. Yates, 2017-05-17 Ejaz Ahmad was handsome, charismatic, and a self-made businessman. Leah Ward was a pretty girl but a prison parolee with a history of drug charges, petty crime, and a questionable past. *SHE IS EVIL* is a story of a kind man who tried to help a troubled woman and became the victim of abuse and eventually a heinous murder.

*Dialogues with Michael Eigen* Michael Eigen, 2019-07-22 *Dialogues with Michael Eigen* spans 20 years of diverse interviews and interactions with the acclaimed psychologist Michael Eigen, including interlocutors from Italy, Spain, Portugal, Argentina, Sweden, Israel, and the United States, published together for the first time. This book explores the importance of soul reveries, psychoanalytic prayers, and cultivation of psychoanalytic faith in Eigen's work. The dialogues lay out Eigen's privileging of emotions as messengers in need of recognition, as welcoming inner gestures for incubation, enabling a deep vitalizing contact of being with oneself and others. Eigen reminds us that struggling with one's personality remains a life-long task, exposing us to various existential sufferings, agonies, traumas, and losses in need of soul confession, if not analytic prayer. The book seeks to help readers find touch and work with emotional realities a little better and support a growing intimate creative relation to ourselves. The rich explorations of the interviews and interactions with Eigen help contribute to further appreciation of our experiential life and worlds it opens. Building on his work on mind-body-soul connections, *Dialogues with Michael Eigen* is an essential book for anyone interested in the spiritual side of psychoanalysis.

*Thinking the Poetic Measure of Justice* Charles Bambach, 2013-05-19 A new reading of justice, engaging the work of two philosophical poets who stand in conversation with the work of Martin Heidegger. What is the measure of ethics? What is the measure of justice? And how do we come to measure the immeasurability of these questions? *Thinking the Poetic Measure of Justice* situates the problem of justice in the interdisciplinary space between philosophy and poetry in an effort to explore the sources of ethical life in a new way. Charles Bambach engages the works of two philosophical poets who stand as the bookends of modernity: Friedrich Hölderlin (1770-1843) and Paul Celan (1920-1970), offering close textual readings of poems from each that define and express some of the

crucial problems of German philosophical thought in the twentieth century tensions between the native and the foreign the proper and the strange the self and the other At the center of this philosophical conversation between Hlderlin and Celan Bambach places the work of Martin Heidegger to rethink the question of justice in a nonlegal nonmoral register by understanding it in terms of poetic measure Focusing on Hlderlin s and Heidegger s readings of pre Socratic philosophy and Greek tragedy as well as on Celan s reading of Kabbalah he frames the problem of poetic justice against the trauma of German destruction in the twentieth century

**Psychology of Fear, Crime and the Media** Derek Chadee,2015-12-07 The media continue to have a significant

persuasive influence on the public perception of crime even when the information presented is not reflective of the crime rate or actual crime itself There have been numerous theoretical studies on fear of crime in the media but few have considered this from a social psychological perspective As new media outlets emerge and public dependence on them increases the need for such awareness has never been greater This volume lays the foundation for understanding fear of crime from a social psychological perspective in a way that has not yet been systematically presented to the academic world This volume brings together an international team of experts and scholars to assess the role of fear and the media in everyday life Chapters take a multidisciplinary approach to psychology sociology and criminology and explore such topics as dual process theory construal level theory public fascination with gangs and other contemporary issues

**Key Debates in Psychiatric/Mental Health Nursing** John R Cutcliffe, Martin Ward, 2006-10-12 This book is unique because no other psychiatric mental health nursing text has ever brought together opposing or contrasting views of the same issue and subsequently invited two separate chapters to be written in order to articulate the different perspectives in the debate Further no book has then followed up such a wide and thorough discussion by inviting a third party to offer commentary The purpose of this book is to present a range of key issues that psychiatric mental health nurses face They are practice policy research and education related issues The purpose then is to present the most complete balanced arguments possible in order to inform educate and stimulate psychiatric mental health nurses Furthermore the purpose of the book is to make psychiatric mental health nurses more aware of the often uncertain nature of much of psychiatric mental health nursing practice and knowledge Psychiatric mental health nursing is not characterised by black and white easily delineated issues and is perhaps characterised by various shades of grey Indeed it is often stated as axiomatic that psychiatric mental health nurses can be described as a broad church Consequently the purpose of this book is to help psychiatric mental health nurses appreciate this broad church be able to understand the various shades of grey be able to understand that often there are differing views inconclusive arguments and contentious debates and for this to influence their clinical practice As the international range of contributors illustrates these debates to a greater or lesser extent are issues and debates that psychiatric mental health nurses face the world over these are matters of real international importance and significance These issues have been touched upon and to a limited extent debated at psychiatric mental health nursing conferences and to an even lesser extent within some psychiatric mental health nursing journals Thus they are real issues that many nurses are facing talking about and trying to resolve key debates are presented with arguments from opposing viewpoints followed by a third party commentary to give readers the necessary information to form their own view written by a range of international authors from different countries across three continents one of the first psychiatric mental health nursing books to explore the pedagogical value of debate

**Insanity** Charles Patrick Ewing, 2008-04-07 The insanity defense is one of the oldest fixtures of the Anglo American legal tradition Though it is available to people charged with virtually any crime and is often employed without controversy

homicide defendants who raise the insanity defense are often viewed by the public and even the legal system as trying to get away with murder. Often it seems that the legal result of an insanity defense is unpredictable and is determined not by the defendant's mental state but by their lawyers and psychologists' influence. From the thousands of murder cases in which defendants have claimed insanity, Doctor Ewing has chosen ten of the most influential and widely varied. Some were successful in their insanity plea while others were rejected. Some of the defendants remain household names years after the fact like Jack Ruby while others were never nationally publicized. Regardless of the circumstances, each case considered here was extremely controversial, hotly contested, and relied heavily on lengthy testimony by expert psychologists and psychiatrists. Several of them played a major role in shaping the criminal justice system as we know it today. In this book, Ewing skillfully conveys the psychological and legal drama of each case while providing important and fresh professional insights. For the legal or psychological professional as well as the interested reader, *Insanity* will take you into the minds of some of the most incomprehensible murderers of our age.

**Murder, Madness and Mayhem** Mike Browne, 2021-11-02 NATIONAL BESTSELLER Mike Browne, host of the popular Canadian podcast *Dark Poutine*, chronicles some of his all-time favourite stories of true crime and dark history from Canada and around the world. Divided into four sections: Murders with a Twist, Perpetual Puzzles, The Madness of Crowds, and Notable Disasters, all the stories in this collection except two are brand new and haven't been covered by the podcast. In *Murders with a Twist*, Browne recounts seven true crime stories with atypical elements including weird motives, unusual perpetrators, and bizarre murder weapons. In one case, we meet a man who is willing to kill to possess a human voice. In another, two women play a deadly game to prove their love to each other. *Perpetual Puzzles* covers six stories that remain unresolved and will leave you with more questions than answers. They include the archaeological find of the century which turns out to be something far more sinister, as well as the discovery of a dead man on the beach with a mysterious clue in his pocket. *The Madness of Crowds* reveals that murder and mayhem are sometimes a group effort. We meet two young Canadians who leave home one summer to find work and instead end up on a murder spree, and a bizarre California cult that asks its members to topple the Mormon church. The book concludes with *Notable Disasters*, which describes some of the most tragic and deadly events in history, including the deadly tsunami in the Indian Ocean on December 26, 2004, as well as the devastating Grenfell Tower fire in London in June 2017. The book includes a foreword by Alan R. Warren, bestselling true crime author and host of the *House of Mystery* Radio Show.

**Defining Murder and Madness** Roger Smith, 1982 **Madness, Murder and Mayhem** Kathryn Burtinshaw, John Burt, 2018-10-30 Following an assassination attempt on George III in 1800, new legislation significantly altered the way the criminally insane were treated by the judicial system in Britain. This book explores these changes and explains the rationale for purpose-built criminal lunatic asylums in the Victorian era. Specific case studies are used to illustrate and describe some of the earliest patients at Broadmoor Hospital, the Criminal Lunatic Asylum for England and Wales, and the Criminal Lunatic Department at Perth.

Prison in Scotland Chapters examine the mental and social problems that led to crime alongside individuals considered to be weak minded imbeciles or idiots Family murders are explored as well as individuals who killed for gain An examination of psychiatric evidence is provided to illustrate how often an insanity defence was used in court and the outcome if the judge and jury did not believe these claims Two cases are discussed where medical experts gave evidence that individuals were mentally irresponsible for their crimes but they were led to the gallows Written by genealogists and historians this book examines and identifies individuals who committed heinous crimes and researches the impact crime had on themselves their families and their victims
